FLUIDRA

THE PERFECT POOL EXPERIENCE

We are a leader in the global pool industry. Our portfolio includes some of the most trusted brands, including Jandy®, AstralPool®, Polaris®, Cepex®, Zodiac®, CTX Professional® and Gre®. We offer our customers an expansive array of products across both the residential and commercial pool and wellness markets, and we have a strong geographical footprint with operations in over 45 countries.

We have over 7,000 employees and the necessary resources to accelerate innovation in critical areas like energy-efficiency, robotics and the Internet of Things.

Recently, we introduced our **2020-2026 Environmental, Social and Governance (ESG) Plan**, our Responsibility Blueprint. This plan aims to integrate principles of sustainability, social fairness and responsible corporate governance into the way we conduct our business globally as well as in the local communities we operate within. We are convinced that a company with high ESG standards is a more economically sustainable company and one that is more highly valued by its customers, employees and shareholders.

To reflect our ESG focus, we have made an important change to our company mission, as well as added a new vision.

Our mission, which is what drives us every morning we come to work, is: **To create the perfect pool experience responsibly.**

And our vision, which is the motivating reason why we do what we do every day, is: **To enhance lives through innovative and sustainable solutions that transform the way people enjoy water for recreation and health**.

As part of our ambitious **Fluidra 4.0 plan**, we are looking forward with the goal to drive the evolution of the pool and wellness space. This plan puts focus on leveraging our **IT infrastructure** as a competitive advantage; advancing **digital solutions** to make owning and working on a pool easier and more enjoyable; utilizing and commercializing our **data** to generate business opportunities; and simplifying our **internal processes** to make us easier to do business with. By meeting these objectives, we will not only enhance the pool experience for our customers, but also reinforce our dynamic company culture and position our organization for future growth.

FLUIDRA

Creating

A MORE SUSTAINABLE POOL.

Water Conservation

Energy Efficient

Chemical Reduction

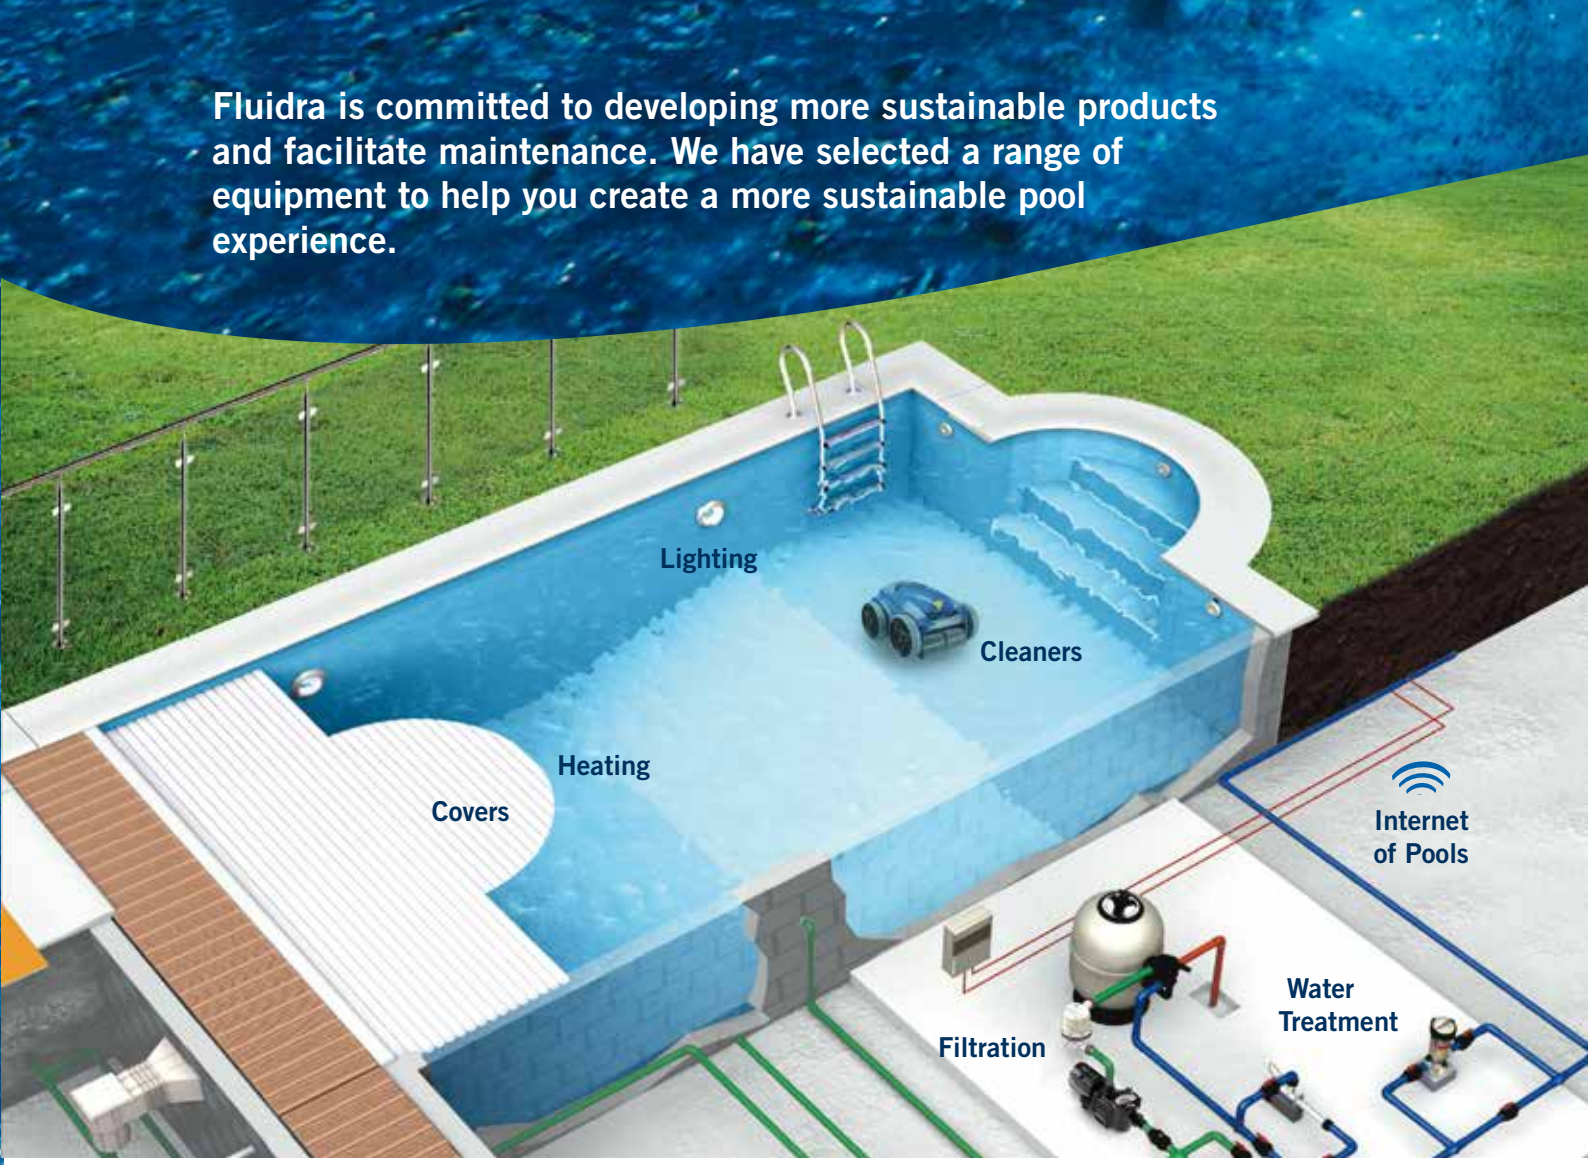
Carbon Reduction

Circular

A more sustainable pool is one that incorporates key features and equipment to achieve a lower environmental impact, by significantly reducing the consumption of resources (water, energy and consumables), and being viable in terms of maintenance cost and return on the initial investment. From VS Pumps that use less energy to water sanitizers that consume less chemicals to automatic covers that prevent water evaporation and reduce thermal loss, Fluidra offers a wide range of solutions that contribute to a more sustainable pool.

ASTRALPOOL ZODIAC bluriiot Gre

Fluidra is committed to developing more sustainable products and facilitate maintenance. We have selected a range of equipment to help you create a more sustainable pool experience.



FILTRATION

The filtration system is at the heart of a pool. You can create a more sustainable pool through reduced energy consumption and water conservation. The technology of our **variable-speed pumps** saves up to 85%[1] of electric consumption. For optimal efficiency, combine it with the **AstralPool Classic Plus multiport valve** which reduces pressure drop by up to 20%[2]. Our range of **Zodiac® CS cartridge filters** doesn't require any backwash, reducing the consumption of water. If you prefer a traditional filter, our **AstralPool Active Clear Glass** from recycled glass as filter media saves up to 25%[3] of water during the filter backwash.

HEATING AND COVERS

The heat pump is the economical and ecological heating solution as it is a thermodynamic system: it takes calories from the air and transfers on average 5 times more energy directly to the water. Our **Inverter heat pumps** allow energy savings from 10% to 20% compared to an ON/OFF heat pump. By automatically adjusting their power based on the pool water temperature, they smartly optimize their energy consumption. Most of our heat pumps sold in Europe are now using the R32 refrigerant gas, which has a 68% lower impact than the R410A refrigerant gas. Finally it is recommended to add a **thermal cover** to the heat pump. The cover helps reduce water evaporation up to 96% and heat losses up to 80%. As a result, the required heat pump power is divided by 2 on average.

Water Conservation

WATER TREATMENT

Thanks to our automatic water treatment solutions, the need to renew pool water can be significantly reduced. With **electrolysis and/or UV solutions**, the use of chemical products for water disinfection can be minimized. Finally, when using the **MagnaPool® system**, with crystal clear glass media, water savings during filter backwashes can reach up to 75%[(4)].

LIGHTING

With a very long lifetime - up to 20 times longer than halogen lighting and a top quality lighting, our LED techonology reduces electrical consumption up to 97%[5] vs halogens. Our range is made of high-quality LEDs and electronic components and manufactured entirely in the EU according to European quality standards.

CARBON REDUCTION

Fluidra maintains a strict policy and commitment to optimizing resources through the application of energy-efficiency measures and behaviors. Of the total energy consumed in 2020 in all companies of the Fluidra group, 35% came from indirect renewable energy sources. In particular, Fluidra's electricity supply in Spain and Portugal factories is 100% green energy from renewable sources with guaranteed supply, which contributes to reducing the company's carbon footprint. Fluidra has committed to be carbon neutral[6] in all its operations by 2027.

CIRCULAR

To meet the "Zero Waste" goal, Fluidra is working to improve the product packaging, supporting the use of reusable boxes and the progressive elimination of parts that are not 100% recyclable. We aim to improve the lifetime of our products by enhancing their reparability. For our last robotic cleaner innovation, the Zodiac® Voyager™, the replacement of the engine and cable is the easiest and fastest of our electric cleaner ranges - requiring less than 5 minutes.

Internet of Pools

«Internet of Pools» is not only about smart products and services, it's about enjoying a perfect pool experience, responsibly.

1. Peace of mind

- The «Internet of Pools» consists of connected products delivering more intelligence and autonomy to the pool so that users can free themselves from constraints.
- In addition, users can take control of their pool anytime and anywhere using the app linked to their product(s).

2. Efficiency & Sustainability

- Thanks to built-in connectivity & remote control using an app, the pool becomes smarter.
- Connected products can act together to make it more efficient.
- Users are free to let their pool adapt itself to the environment or to adjust settings remotely if they want to.

iAquaLink®+ One app, a smart pool ecosystem, the best pool experience

NEW 2023

Your smart pool, anytime & anywhere

- Easily check, manage and maintain your pool with iAquaLink®+.
- Get personalized recommendations or simply enjoy knowing that your pool is ready, exactly as you like it.

Peace of mind

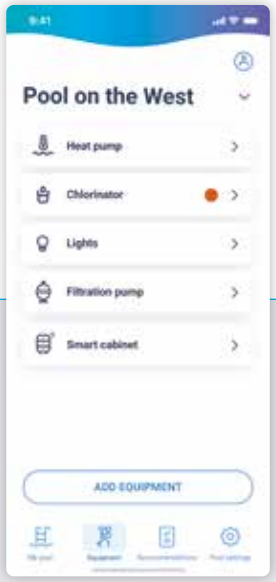
- Easy setup: guided step by step app onboarding process.
- Your pool always ready to bath. Be alerted in case any action is needed.
- In-app recommendations delivering more self-autonomy.
- Secure and safe app following the highest data privacy standards (GDPR) and security practices.

Evolving ecosystem

- Best in class app experience with dedicated screens for bathing, recommendations and settings.
- Benefit from new features and enhancements thanks to regular app updates.
- Over the air updates of the pool equipment to enjoy the latest improvements.

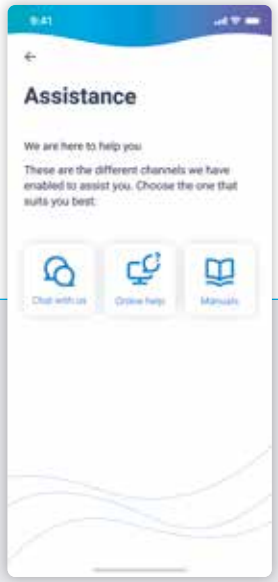
"My pool" dashboard

- Check at-a-glance the pool status to see if it is ready to bath.
- Weather forecast
- Main water parameters with color-coded icons
- Information messages if any action is needed.



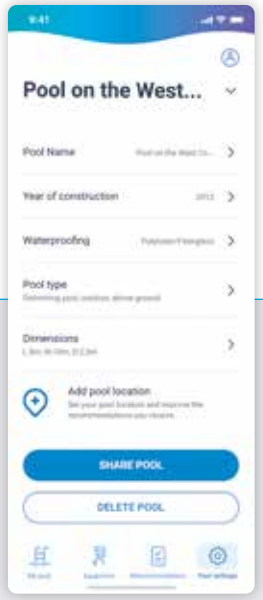
"Equipment" dashboard

- Access to all connected equipment in the pool and see if any action is required thanks to the colored dot.
- Easily add a new pool equipment and get guided by the smart app pairing process.



"Recommendations" menu

- Get recommendations for maximum autonomy.
- Assistance section to address an event, get direct access to product manuals or request for online assistance.



"Pool settings" menu

- All the information about the pool (name, type, location...)
- Easily share pool control with family and friends (via QR code, sms, email).

DID YOU KNOW?

> A new app for a smart pool
Most of our new connected products are directly using the new iAquaLink®+ app.

> A new ecosystem that will expand over time
New connected solutions to come will use the iAquaLink®+ app to create a complete pool ecosystem with maximum flexibility and best pool experience.

iAquaLink®+ : The comprehensive solutions

iAquaLink®+ is an easy & evolutive app for the newer Fluidra connected solutions that makes the pool become smarter.

Whether it simply manages one or several connected product(s), the pool owner will always enjoy a perfect pool experience.

blueriiot

Blueriiot Pool & Spa Assistant digitalises swimming pools and spas

Blueriiot Pool & Spa Assistant is an application that helps the user to maintain and enjoy his swimming pool or his spa, thanks to the integration of connected products and smart home services.
Blueriiot Pool & Spa Assistant gives the user the chance to enjoy his pool with peace of mind.

In one single App, the user benefits from several features :

- Access to pool data, water quality, and weather at the pool in real time.
- Easy configuration and maintenance of Blueriiot connected products.
- Tailor-made recommandations to obtain a crystal clear water. The right dosis of the right product, at the right time.
- Smart pool integration for infinite possibilities.

blueriiot

Blue Connect, the smart pool analyser

SMART MAINTENANCE

Connected pool assistants

Blue Connect is a smart device that analyses the quality of the water automatically. Combines with the free app Blueriiot Pool & Spa Assistant, it informs the user how to balance out the pool in easy, straight forward steps!

The device is equipped with an innovative sensor that measures the main parameters to keep a crystal clear water: pH, water temperature, ORP (disinfectant level) and conductivity.

ALWAYS CONNECTED

***BLUE CONNECT* IS ALWAYS CONNECTED THANKS TO DIFFERENT TECHNOLOGIES:**

SIGFOX

BLUE CONNECT PROVIDES UP TO 20 AUTOMATIC REMOTE MEASUREMENTS PER DAY THANKS TO SIGFOX'S NETWORK DEDICATED TO CONNECTED DEVICES

BLUETOOTH

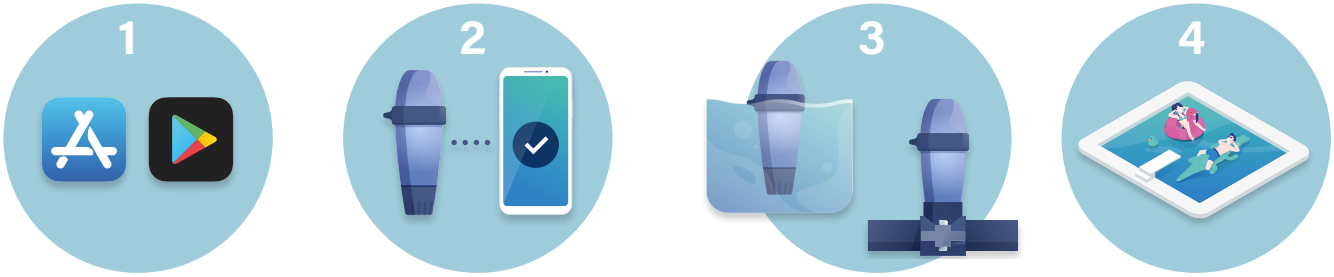
BLUE CONNECT USER CAN TAKE AN INSTANT MEASURE DIRECTLY WITH BLUETOOTH.

WI-FI

BLUE CONNECT WORKS WITH THE WI-FI NETWORK THANKS TO EXTENDER

PLUG & PLAY

***BLUE CONNECT* WORKS WITH ALL TYPES OF POOLS AND ITS INSTALLATION TAKES LESS THAN 2 MIN**



DOWNLOAD THE APP BLUERIIOT

ACTIVATE BLUE CONNECT

INSTALL IN THE WATER OR IN THE TECHNICAL ROOM (*FIT 50*)

ENJOY

Blue Check, the "smart" test strip

SMART MAINTENANCE
Connected pool assistants

Blue Check is a set of 50 test strips to use with the free application Blueriiot Pool & Spa Assistant that analyses the quality of the water by taking measurements manually. The app gives customised advices to maintain the pool. A simple solution to keep the water clean with peace of mind.

Blue Check is a complementary solution of Blue Connect, the smart pool analyser (see page 22). Thanks to Blue Check, you can ensure that the pool water is in balance by verifying other parameters such as the alkalinity, the hardness and the cyanuric acid. More info p. 254.

EASY TO USE

iAquaLink™ CONTROL

Wi-Fi gateway

iQBridge RS

NEW 2023

+ Anytime & anywhere app control
+ Your smart pool in the palm of your hand
+ Plug, Scan & Play connectivity

DESCRIPTION

- Anytime & anywhere app management for compatible Fluidra heat pumps & salt water chlorinators.
- Wi-Fi gateway enabling remote control using the iAquaLink®+ app.
- Plug & play thanks to its watertight connector that simply plugs into the corresponding one already present on the product.
- Can be either sticked on the device or fixed on the wall.
- Intuitive app pairing and setup. Manage your heating or water treatment remotely in less than 1 minute.
- Look for the "iAquaLink®+ compatible" pictogram in catalog pages to identify products that can become connected using iQBridge RS Wi-Fi gateway.

ACCESSORIES INCLUDED IN THE PACK

* Wall fixing kit
* Outdoor double-sided tape to stick it onto heat pump casing

iQBridge RS TO BE USED WITH

	ASTRALPOOL	ZODIAC®
Heat pumps	ProElyo Touch, Evoline	PX50, PM40, HPO
Salt water chlorinators	Smart Next, Smart Next pH, Smart Next pH/Rx	eXPERT, eXPERT pH, eXPERT pH/ORP

TECHNICAL FEATURES

Model	iQBridge RS
Code	WA000068
Power supply	From the connected product (dedicated watertight plug)
Cable length	1 m
App pairing	Bluetooth
Wi-Fi connectivity	Wi-Fi 2.4 GHz (1)
Wi-Fi range	Can be installed up to 90 m from homeowner router (2)
App control	Free iAquaLink®+ app for Android™ and Apple® smartphones
Protection rating	IPX5

(1): A Wi-Fi band selection in router's settings menu may be needed depending on situation.
(2): Max range without obstacles (partitions, walls, ironwork...). Use of a Wi-Fi range extender or a powerline Wi-Fi hotspot may be required in some cases.

WEIGHT & DIMENSIONS

Weight	0,2 kg
Size	width x height x depth = 10 x 10 x 3 cm

DID YOU KNOW?
How to recognize compatible products ?
Look for the "iAquaLink®+ compatible" label on the heat pump or salt water chlorinator carton boxes.

Zodiac® connected chlorinators including pool control

3 connected ranges using iAquaLink™ app to suit everyone's needs

SMART POOL
Connected hubs

A unique connected interface for water treatment and pool control

In addition to its primary water treatment role (automatic disinfection & water balance management), eXO® iQ connected chlorinators can manage most pool equipment for maximum peace of mind:

+ **Filter pump** (with advanced control when used with Zodiac® FloPro VS variable speed pump)
+ **Lighting** (with LED color selection when used with Zodiac® NL LED nicheless lights)
+ **Heating** (compatible with most heaters on the market)

iAquaLink® COMPATIBLE

Did you know?
Look for «iAquaLink compatible» icon in the catalog to identify products that can be controlled by Zodiac® eXO iQ connected chlorinators in a smart bilateral way (more than simply on/off & scheduling control).

Zodiac® connected chlorinators including pool control

3 connected ranges using iAquaLink™ app to suit everyone's needs

SMART POOL
Connected hubs

eXO® iQ & eXO® iQ LS

Water & Pool control with a dose of serenity

+ All-in-one control
+ Peace of mind
+ Built-in Wi-Fi

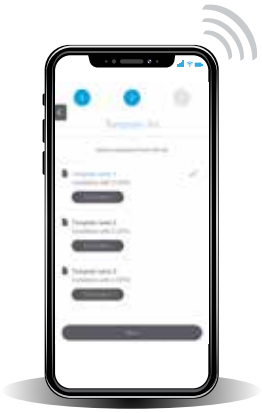
FLUIDRA CONNECT

CONNECT & GO

SMART POOL
Connected hubs

The most comprehensive connected pool solution

1. Pre-wired power center cabinets for easy installation
2. 1 professional app for easy configuration (NN PRO)
3. 1 user app to remotely control the pool (NN)
4. Advanced management with compatible products (NN Things)



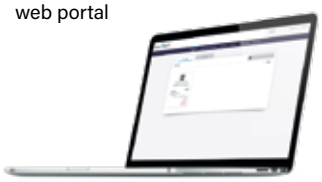
Available on the iPhone App Store

ANDROID APP ON Google play

Fluidra Connect: Pool Professional benefits

NN PRO professional APP

www.fluidraconnect.com
web portal



Differenciation with Connected Pools.
- Better offer and service for the End User.

Fast & Easy installation.
- Drastically reduces the installation time thanks to pre-wired power center cabinets
- Easy on-site configuration using NN PRO app.

Savings.
- Cut back cost on better time and resource management.
- Can save unnecessary trips, petrol costs, toll fees, etc.

Remote maintenance.
- Piece of mind for Maintenance Professionals.
- Preventing and solving problems remotely using Fluidra Connect professional dashboards to see all pools at a glance.

Fluidra Connect: Consumer benefits

NN consumer APP

Peace of mind.
- Dedicated user app for a pool always ready to use in the top conditions.
- Healthy water for you and your family.

Savings.
- A connected pool helps to save water, energy and use less chemical products.

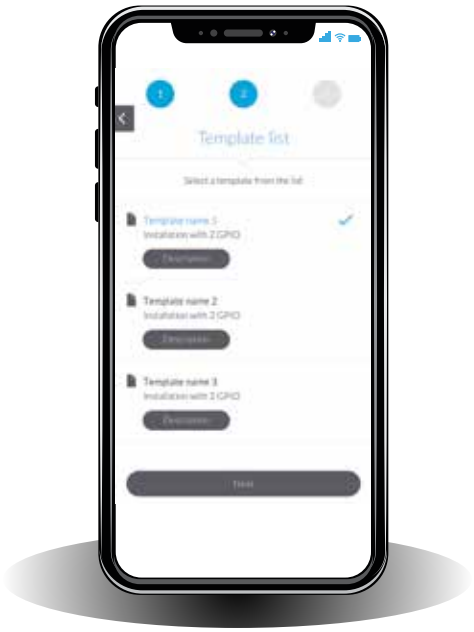
Easy control.
- Access and control your pool 24/7 from anywhere, at any time, using the NN app.

FLUIDRA CONNECT
CONNECT & GO

SMART POOL
Connected hubs

Maximum convenience & easy installation

Once Connect & Go power center cabinet is installed and pool equipment wired to it, simply follow 4 easy steps:



1. Download the NN PRO app and create your professional user account.
2. Scan Connect Box QR code to register the Connect & Go power center cabinet.
3. Scan power center cabinet barcode to get the predefined pool configuration template.
4. Launch NN compatible products auto detection using the app to get the pool dashboard.

- Configuration is complete within a very short time
- Pool owner will also be able to access his pool using the NN consumer app

Did you know?
Access your connected pool park using either the NN Pro App or the dedicated website using your pool pro account: https://portal.fluidraconnect.com.

THE FUTURE IS HERE

Convenience & easy installation

+ A range of Connect & Go power center cabinets is offered to suit most residential pools configurations.
+ Connect & Go power center cabinets contain all electrical protections and switches to manage pool equipment. Everything is pre-wired to ease installation process so it is the perfect solution for new pools, while also being adapted to retrofit situation (simply replace the whole filtration cabinet with Connect & Go).
+ Once installed, simply follow 4 easy steps:

1. Download the NN PRO app and create your professional user account.
2. Scan Connect Box QR code to register the Connect & Go power center cabinet.
3. Scan power center cabinet barcode to get the predefined pool configuration template.
4. Launch NN compatible products auto detection using the app to get the pool dashboard.

Basic

DESCRIPTION

Control and power devices for a single-phase pump and control devices for lighting.

- IP-65 protection rating. Two transparent lids with lock and key.
- Products compatible with 220/240 V single-phase (P+N+T) 50 Hz/60Hz input.
- Internet connection required.
- Manual (selector) or automatic lighting control and pump.
- Includes Connect Box and 1 GPIO wiring.
- Enables optional temperature sensor connection (code 69682) with no need for accessories.
- Possibility of connecting a levels box.
- External transformer needed for lighting.
- Expansion modules can be connected for white, RGB and GPIO lighting.

FLUIDRA CONNECT
INTERNET OF POOLS

THE FUTURE IS HERE

+ **While providing a convenient and easy to install solution with Connect & Go pre-wired power center cabinets, it is possible to create tailor-made Fluidra Connect automation for custom applications.**
+ **It can be either Fluidra Connect main components to create a custom installation or expansion modules to add features to a Connect & Go power center cabinet.**

- **Custom installation**

+ **The following components are needed as a baseline (to be integrated in a specific power center cabinet - not provided):**

- Connect Box which is the "brain" of Fluidra Connect automation.
- One or several GPIO control device(s) that will manage pool equipment.

- **Expansion modules** (see next page)

+ **6 expansion modules are offered to bring additional features to Connect & Go power center cabinets:**

- 3 modules to add 2 filter pumps control (available for 1, 2 & 3 HP pumps).
- 2 modules to add lighting management (available in white or RGB color with 100 VA transformer).
- 1 module to get an additional GPIO for pool equipmeent management.

PROFESSIONAL ADVICE RECOMMENDED

Connect Box

ASTRALPOOL

DESCRIPTION

Connect Box is the brain behind a Fluidra Connect pool installation. Fluidra Connect does not work without Connect Box, which must have an Ethernet cable connection (from a home router, Powerline adapters, etc.).

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Connect Box	76172	1	0.42	0.0010

PROFESSIONAL ADVICE RECOMMENDED

GPIO

ASTRALPOOL

DESCRIPTION

Control device with 4 digital inputs and 4 digital outputs.

Using the GPIO, incompatible products, such as a white spotlight or filtration pump, can be switched on or off and their timers set.

It also displays the status of some devices, such as a pool cover.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
GPIO	62368	1	0.18	0.0003

PROFESSIONAL ADVICE RECOMMENDED

When the products to be controlled are not "NN Things", they can be managed using a GPIO device.

Expansion modules

2 auxiliary pumps

DESCRIPTION

Those expansion modules allow to add ON-OFF-AUTO control of 2 additional pumps.

Available in 3 versions for 1, 2 or 3 HP pumps (single phase).

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Expansion module - 2 pumps 1 HP	72731	1	3.00	0.028
Expansion module - 2 pumps 2 HP	72732	1	3.00	0.028
Expansion module - 2 pumps 3 HP	72733	1	3.00	0.028

Expansion modules

White & RGB lighting

DESCRIPTION

Those expansion modules allow to add Lighting supply and control.

Provided with a 100 VA transformer.

Available in 2 versions: white light and RGB color light (NN compatible)

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Expansion module - white light	70695	1	1.50	0.009
Expansion module - RGB color light	70696	1	1.50	0.009

Expansion module - GPIO

DESCRIPTION

This expansion module allows to add a GPIO device that brings 4 digital inputs and 4 digital outputs in addition to existing GPIO in Connect & Go cabinets.

Any standard product can be managed with ON, OFF and schedule controls or device status (such as pool cover for example).

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Expansion module - GPIO	70770	1	3.00	0.020

Polished Ø 43 mm AISI-316L stainless steel pipes.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
With fixing plates (including gaskets, screws and wall plugs).	00056	1	2.09	0.01

Equipotential anchor

DESCRIPTION

The aim of this accessory for ladders is to solve the problem of not having the possibility to connect ground earth cable to ladders that do not have an anchoring on the pool beach like: Elegance and split ladders - items 45782, 45783, 01456, 01457, 01458, 01459, 08090, 08091 and 08092.

It is mandatory by norms to connect metallic ladders to ground earth in order to have proper electrical connections. Moreover, it is highly recommended to avoid corrosion.

Equipotential anchor for ladders, manufactured in AISI-304L stainless steel and commercialized for concrete and liner pools. The anchors are composed of a recessed base on the ground, washer, screws and the equipotential bonding.

Each ladder needs to 2 units.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Concrete pools	73318	1	0.45	0.002
Liner pools	73319	1	0.50	0.002

Dynamic flexible springboard

DESCRIPTION

Wide springboard made of polyester resin and fibreglass. Resistant to UV exposure and adverse weather conditions. Non-slip surface covering the entire board. Supplied with anchoring fixtures.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Length 1.61 m. Width 0.46 m	21392	1	22.0	0.335

Dynamic 1200 Diving Board

DESCRIPTION

Wide springboard made of polyester resin and fibreglass. Resistant to UV exposure and adverse weather conditions. Non-slip surface covering the entire board. Supplied with anchoring fixtures.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Length 1.20 m. Width 0.40 m	20090	1	20.0	0.325

Niagara touchless shower

DESCRIPTION

The Niagara touchless shower incorporates a proximity sensor that works with battery for turning on the shower without contact. Its minimalist design and the high quality of its materials provide you with an elegant and modern image.

TECHNICAL FEATURES:

- Made of AISI-304L polished stainless steel
- Water inlet connection ½" BSP INT
- Ground anchoring with screws
- Touchless system with sensor detection angle 15 degrees (conical)
- 6V DC Power supply (4xAA 1.5V). Batteries not included.
- Sensor protection class IP67
- Life test 500.000 cycles
- Working pressure 1-4 bar
- Max. temperature water 75ºC

Chrome shower

DESCRIPTION

Featuring the same elegant, streamlined look of its solar counterpart, the AstralPool Non-Solar Chrome Shower has a wide range of finishes that will allow you to choose the best option for your garden.

It has a shower head with an anti-limescale system and a rain effect so that you can enjoy a relaxing experience before and after every swim.

TECHNICAL SPECIFICATIONS:

- AISI-304L stainless steel tube and Aluminum framework.
- Wide range of colors.
- Anti-limescale shower head and rain effect.
- Foot washer tap.
- Easy installation: inlet underneath or back/lateral (compatible with hose connection).

Chrome showers

Chrome solar shower

DESCRIPTION

With an elegant, streamlined design, the AstralPool Chrome Solar Shower stands out for its modern vintage style, in a wide range of colors and fi nishes so that you can choose the one that best fi ts in with your pool surroundings. Enjoy a relaxing experience before and after every swim thanks to its large 30 l tank to obtain hot water without consuming energy. This green solution for the daily use of your pool contributes to looking after the environment, as well as your health and that of others.

TECHNICAL SPECIFICATIONS:

- A 30 l hot water tank – The leading environmentally friendly system (sunlight heats the water) in the market.
- AISI-304-L Stainless Steel tube and Aluminum framework.
- Wide range of metallic finishes and colors.
- Anti-limescale shower head and rain effect.
- Hot and cold water mixer tap.
- Foot washer tap.
- Ease of maintenance: drainage for emptying the shower in winter to prevent damage and wear.
- Back inlet compatible with hose connection.

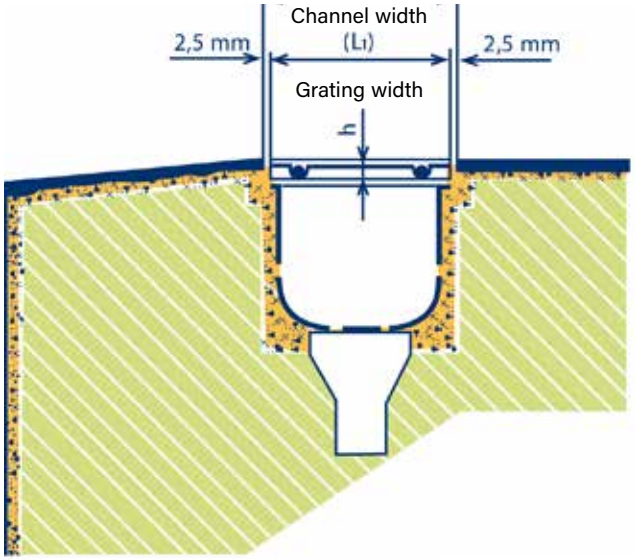
45208	200	0,75	1200 mm	1100 mm	900 mm	300 mm

GENERAL NOTE FOR ALL MODELS

Made of PP stabilized against UV rays. The whole range comes in white. Ask your dealer about other colours.

Made up of tiles in modules for straight and curved sections (outer radius of 1 or 2 m), they click into place (male-female fitting), which gives certain leeway in assembling them, as well as absorbing their potential expansion due to the temperature changes to which they are exposed.

For all models of grating, a channel 5 mm wider than the grating must be built so that it easily fits into place and any potential expansion is prevented.



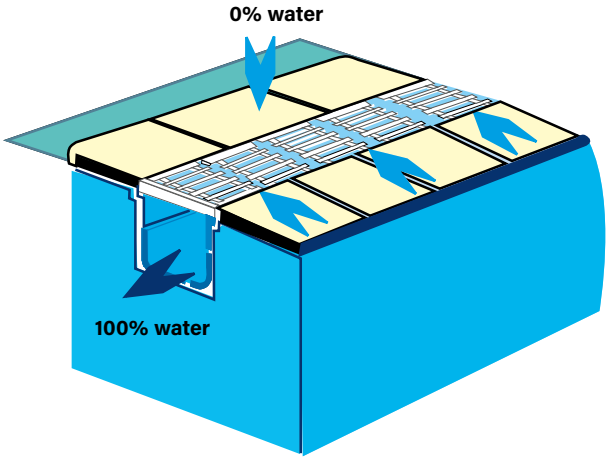
Channel width	Grating width
200	195
250	245
300	295
350	345

The height (h) of the grating varies depending on the model.

– Longitudinal model h = 24 mm

– Transversal model h = 22 mm and h = 35 mm

LONGITUDINAL MODEL



The longitudinal design of this model ensures that any excess water from the pool is not allowed to overflow onto the pool deck, thus maintaining it practically dry.

	Model	L	L1	h	A	∢° r.1m.	∢° r.2m.

Stainless steel longitudinal grating

ASTRALPOOL

DESCRIPTION

Longitudinal grating made of stainless steel. A channel 5 mm wider than the grating must be dug so that it is easy to fit.

It is made up of straight sections of AISI-316L stainless steel, 500 mm in length. Straight sections can be made to measure in order to fit the length of any pool.

There are 4 different models depending on the grating used. Height 35 mm.

Complies with Standard EN 13451-1-3

Complies with Standards EN 16582-1 EN 16713-2

	Code	Standard Pack	Standard weight in kg	Standard volume in m³

POWERFALL WATER BLADES

A water feature with soothing qualities

Water features and massage jets are now valued for both their relaxing and their aesthetic qualities. Compatible with all types of pool, **PowerFall water falls enhance the swimming pool and provide calm and well-being.**

> A TOP-OF-THE-RANGE TOUCH TO CUSTOMISE THE POOL

- The Zodiac® PowerFall water fall is available in 4 widths to customise the pool, based on the size of the pool.
- **Simple to install when constructing the pool,** the water fall draws its supply directly from the return circuit from the filtration system and creates **a harmonious and soothing sound.**

DID YOU KNOW?
As the first water fall 100% made of ABS plastic, Zodiac® PowerFall stands out for its high quality and unalterable manufacturing (corrosion free).
Thanks to its patented X-Baffle® internal structure (item #2), the water fall is always constant and homogeneous whatever water flow is.
PowerFall lip is made of translucent plastic (item # 1).Thus, they harmonize perfectly with the design of the pool whatever the color of the pool surface.

X-Baffle® system

1 CV	16 m^3/h			
1,5 CV	22 m^3/h			
2 CV	30 m^3/h			

INSTALLATION

Important: the water fall must not be installed at more than 1.2 m from the water level.

- 1 - Place a separate valve on each cascade. If the cascades are the same size and installed at the same height, construct a loop to balance water flow to all units.
- 2 - Prepare the notch where the water fall will be installed: For PowerFall cascades, make a notch in the bond beam about 11 cm deep and 2.5 cm longer than the cascade.
- 3 - Water fall placement: Create a bed of mortar in the notch to reinforce the base. Place the water fall in the mortar and ensure it is level.

151 INSTALLATION DIAGRAMS

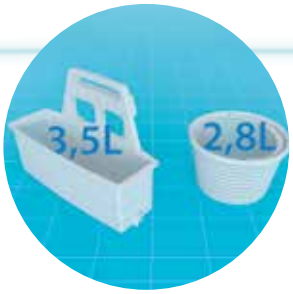
SKIMMER UNIK DESIGNED PERFECTLY. INTEGRATED EVENLY.

FULLY INTEGRATED.

Skimmer Unik blends harmoniously into the surroundings of the pool thanks to its fully integrated top cover. Thanks to its lower height of water level from pool floor -5.5 cm- Skimmer Unik offers an infinite pool effect.

QUIET OPERATION.

Skimmer Unik brings improved silent operation thanks to its exclusive curved floater solution.



EASY MAINTENANCE.

Skimmer Unik eases the maintenance thanks to its larger basket capacity (3.5L)* and its easy retrieval without touching the water.

*Versus AstralPool traditional skimmer basket.

NEW 2023

NEW CONNECTION BOX

Fully integrated and easier to install and manipulate, see more detail in page 146.

ASTRALPOOL

STYLE

A POOL FITTINGS RANGE IN STAINLESS STEEL

MORE SOLUTIONS FOR A PERFECT FINISH

Round and square shapes with a contemporary design
Better integration with pool basin

Thanks to the new design, possible imperfections and installation is covered

EASY INSTALLATION

Solutions available for prefabricated and concrete pools with different lenghts to make installer life easier

Compatible with all interchangeable accessories (plastic and stainless steel)

Side smothing for liner applications and easier to manipulate

EASE OF MAINTENANCE

Easy to clean thanks to the new minimal design

No visible screws in return inlets, avoiding possible corrosion

See pages 120, 140, 141

NORM skimmer 17.5L

NORM skimmer

DESCRIPTION

17L skimmer range suitable for installation in public and private pools. Manufactured in ABS with UV treatment, it comes with a weir flap, flow regulator, lid height adjustment and basket. The water inlet is 495 x 80 mm. Recommended flow rate of 7.5 m^3/h. Install one skimmer every 25 m^2 of water line surface area. Connections under 1 ½" and 2", water overflow connection of Ø 40 mm.

FOR CONCRETE POOLS

17.5 L skimmers

- All of the components that are exposed in this range of skimmers come with a UV treatment. Made of ABS, they come with a weir flap and a flow regulator check valve. Bottom suction nozzle connection: 1½" inner thread.
- Simultaneous connection to the main drain: 2" inner thread. Overflow connection: Ø 32 mm. Round cover with spring clip fastening system.
- The height of the cover can be adjusted and turned through an extended throat, so that it sits perfectly flush with the coping stone.
- Leaf trap secured to base by means of a bayonet mount. In-built weir flap housing. Recommended flow rate: 7.5 m^3/h.
- It is recommended that one skimmer be installed for every 25 m^2 of water surface area.

FOR LINER AND PREFABRICATED POOLS

17.5 l skimmer with a length (250 mm) suitable for installation in pools made of expanded polystyrene blocks. In addition, thanks to its configuration, it brings the water level up to the edge of the finish. Manufactured in white ABS with UV treatment, the SPS 250 incorporates a gate, flow regulator and leaf collection basket. Recommended flow: 7.5m3/h. Install a skimmer every 25 m2 of water surface. Ø 63 mm and 2" bottom connections, Ø 32 mm excess water connection. .

73160

73161
73162
73163

DESCRIPTION

17.5 L skimmer with cartridge system integrated. Made of ABS with UV treatment. Incorporate gate, regulator lid height, skimmer basket and 2 cartridge filters. Upper access water connection Ø 32 m, bottom connections of Ø 63 mm and lateral of Ø 50 mm. Lateral connections are for connecting suction nozzles.

The color change is proposed with an inlet sheath, both the embellisher and the floater. This sheath could be installed without changing the skimmer mouth what is very practical to renew or upgrade pools.

(1) Codes 73159 and 73162 will be delivered with 2 sets of screws – DIN 7982 A4 5.5x25 and 32.

15 L skimmers

- All of the components that are exposed in this range of skimmers come with a UV treatment.
- Made of ABS, they come with a weir flap and a flow regulator check valve.
- Bottom suction nozzle connection: 1½" inner thread, 2" outer thread.
- Simultaneous connection to the main drain: Ø 50 mm inner wall.
- Overflow connection: Ø 40 mm.
- Leaf trap.
- Recommended flow rate: 7.5 m^3/h.
- It is recommended that one skimmer be installed for every 25 m^2 of water surface area.
- All skimmers come in two different models: the model with inserts and the PARKER model, which is supplied with self-tapping screws.

SLIM skimmer

SLIM: High water level skimmer

ASTRALPOOL

CONCRETE · CONCRETE +LINER

FOR CONCRETE POOLS

High water level skimmer allows high water level in the pool (+/- 4 cm) giving an infinite pool effect. The water line is located very close to the top of the pool. Entirely made of AISI-316L. All models are equipped with Ø50 mm overflow and have a housing to mount a water level regulator - item 73453 - not included. Also compatible with the most standard water levels of the market. With connection for equipotential connection. It also includes flanges for prefabricated pools. Recommended flow 7.5 m³/h. Basket capacity 1.2 L.

Pool main drains information

EN 16713-02: 2016 - main drains

RISK OF ENTRAPMENT **How to prevent it?**		
	NEW POOL	**ANTI-VORTEX COVER** Number of main drains per pool: **1**.
		NON ANTI-VORTEX COVER Number of main drains per pool: **2** balanced main drains, **distanced at minimum 1 meter**. And **if any** of the **2 main drains** is **blocked**, the remaining **one should be able to absorb 100%** of the installation flow.
	POOL RENOVATION	**WITH MAIN DRAIN BODY CHANGE** Applies **new pool rules**.
		UNCHANGED MAIN DRAIN BODY Install an **anti-vortex grille** on pre-installed main drain.
CAVITY DIMENSION		Main drain should respect a certain cavity dimensions according to a mathematical rule.
OTHERS		Other requisites are considered to define that a main drain in compliant with EN, like design. e.g. the design of the grill to avoid human body parts or hair entrapment.

Suction rate: insure a maximum of 0.5 m/s paragraph 4.6.1

Only with the fulfillment of all requisites of the standard, a Compliance Certification can be delivered!

*Anti-vortex plate is a special component installed in the suction line to control the turbulence in a flowing fluid. These plates allows to control the velocity of the fluid thus preventing cavitation in the fluid according to UNE-EN 13451-3.

NORM main drains

- All main drains in the range are supplied with UV protection.
- To prevent the risk of suction, install the main drains according to local regulations.
- Recommended use: Maximum suction rate of 0.5 m/s.

08316

DESCRIPTION

Made of white ABS plastic. Suction. For liner and prefabricated pools comes with gaskets, flanges and screws. Flow rate adjusted by turning the grille. Suction surface area: 0.015 m^2. Outer Ø 295 mm wall. Flow rate (0.4 m/s) 20 m^3/h. Max. recommended flow rate compliant with standard EN 13451-1: 26 m^3/h (0.5 m/s.).

Double gasket kit

FOR LINER AND PREFABRICATED POOLS

Kit made up of a double gasket and the screws necessary for the installation of nozzles in panel pools. Made of TPE, the kit enables the installation of various accessories in pool shells and protects the panelling from coming into contact with water. Easy to install. Prevents corrosion of the panelling in the area that has been die cut.

We recommend to place this Kit on panel pools of metal sheet in nozzles 00330; 00332; 17382; 17383 and 56499.

Adjustable return inlet nozzle

Complies with Standard EN 13451-1-3

Complies with Standards EN 16582-1 EN 16713-2

FOR CONCRETE POOLS

Manufactured in chrome-plated brass. Grille in AISI-304L stainless steel.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Max. flow rate: 21 m³/h 2" inner thread	00312	12	7.0	0.013
Max. flow rate: 40 m³/h 3" inner thread	00313	6	10.0	0.014

Adjustable pool floor return inlet nozzle

Complies with Standard EN 13451-1-3

Complies with Standards EN 16582-1 EN 16713-2

DESCRIPTION

2" external thread. Made of AISI-316L stainless steel. Can be fitted in concrete and prefabricated pools. The water flow can be adjusted by loosening or tightening the central screw. Max. recommended flow rate complaint with standard EN 13451-3: 14 m³/h.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³

Interchangeable pool basin equipment

Interchangeable
pool basin equipment

FOR LINER AND PREFABRICATED POOLS

Bushing, return inlet, suction nozzle, flange assembly to be installed in concrete, prefabricated and liner pools The measurements of each item make it possible to interchange them with the stainless steel sets. The inlets can be installed in any bushing with a 1½" BSP thread. There is a flange set to install the inlets in pools with a liner. All items mainly made in plastic (ABS), except screws and gaskets. Each item can be assembled with the stainless steel sets. Interchangeable stainless steel/plastic codes.

Wall conduits in ABS

FOR LINER AND PREFABRICATED POOLS

Range of 300 mm long conduits for Ø 2" inlets and Multiflow that can be cut to different lengths, depending on the thickness of the pool wall. Made of ABS. The ribs of the end plates have holes for fitting the wall conduit to the pool structure, which makes assembly straightforward. The inlet's end plate ensures that it fits flush to the pool wall so that the liner remains flat against the wall and does not swell. This system is aesthetically pleasing as only the face plate can be seen.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3

FILTER SELECTION GUIDE

HOW DO YOU SELECT THE FILTER THAT YOU NEED?

A key factor in cleaning pool water is its passage through the filter. This process works in a fully closed circuit. The quality and type of filter are therefore two decisive aspects so that when the water circulates through the system it comes out completely clear.

A filter should be selected based on the following criteria:

1. **Type of filter medium.** This is a basic decision for setting the level of water clarity, characteristics of use and maintenance.
2. **Tank manufacture technology.** This directly affects its resistance, durability and quality of finish.
3. **Flow rate** (m^3/h). Set according to the volume and recirculation time of each pool. Ensure that this matches the recommended flow rate when selecting the pump.
4. **Features and added extras**.

Remember to always check the space available in your facility to both access and run the filter once selected.

Aster Filter

THERE ARE 3 MAIN TYPES OF FILTER

DIATOMACEOUS EARTH FILTERS

Filtration method that delivers maximum filtration fineness. However, this system requires more time for maintenance.

- Excellent filtration quality
- Compact solution
- Expert installation and maintenance

CARTRIDGE FILTERS

One or more cartridges are used to deliver a high level of filtration fineness. This is also the ideal solution when there are restrictions on space, water consumption and water for filter backwashing.

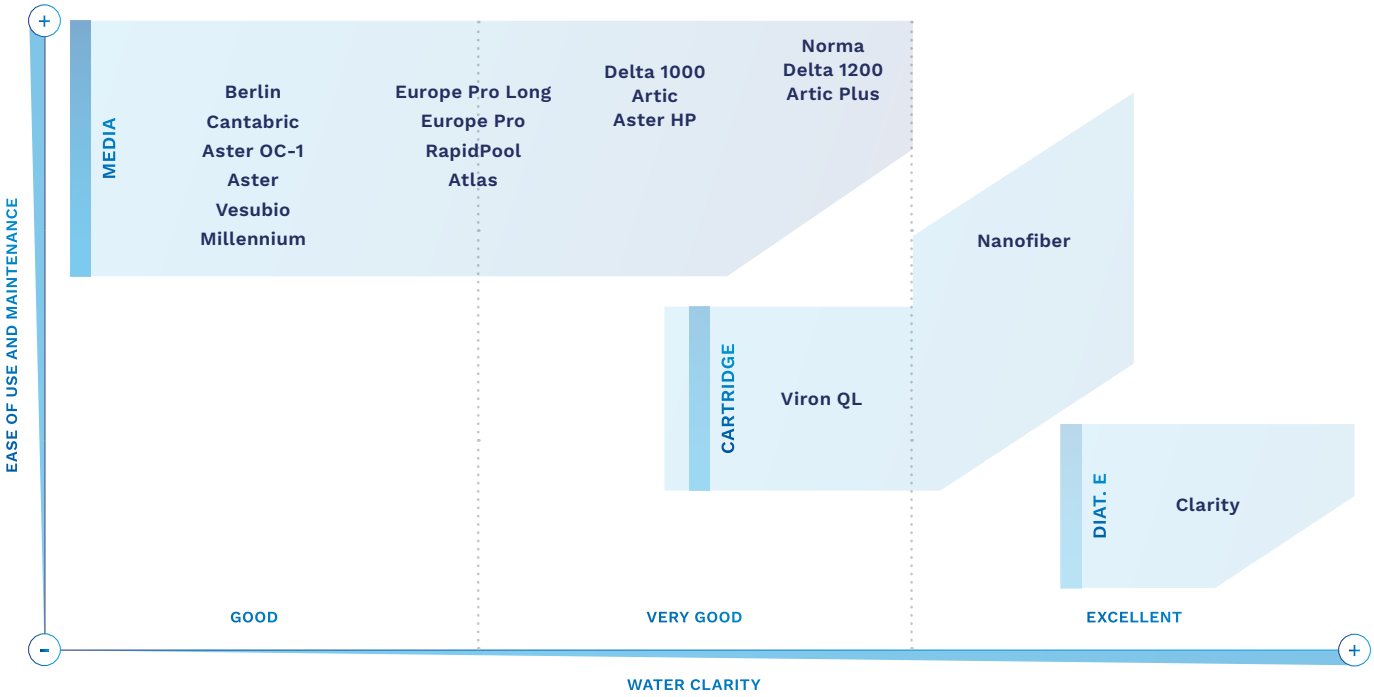
- Very good filtration quality
- Low water consumption
- Compact solution

MEDIA FILTERS

Commonly called **sand filters**, as this is the most widely used filter medium in this type of filter. Other media can be used, such as glass and anthracite, which optimize their performance.

To obtain maximum filtration quality and performance, use filters with the highest filter bed, several layers of filter media and a low filtration speed.

- Robust technology with a great capacity for recovering unkempt water
- Easy to use and maintain
- Value for money



FILTER FEATURES AND SELECTION

FILTER			TANK	PRODUCT FEATURES					
			Material and technology	Rob. & durab.*	Flow m³/h	Diameter	Filtration quality	Connec-tions	Warranty (t/c)**	Other
DIAT. E		Clarity	Polyester + FG Laminated	5	11-27	610	5	1½"-2" Lateral	2/2	Excellent filtration quality. Durability and reliability of body and components.
CARTRIDGE		Nanofiber	Injection-molded thermoplastic	3	10-18	402	5	2" Lateral	5/2	Single nanofiber cartridge filter and excellent filtration quality. Manual and automatic backwash using the multiport valve.
		Viron QL	Injection-molded thermoplastic	3	< 30	690	4	D50	5/2	Multi-cartridge filter. Long period between each cleaning of cartridges.
BED OF MEDIA		Cantabric	Injection-molded thermoplastic	4	6-30	400-900	2	1½"-2½" Lateral/ Top	10/2	A flagship in filtration for residential pools. High quality and design for good performance over time.
		Berlin	Polyester + FG Bobbin-wound	6	9-56	500-1,200	2	1½"-D90 Lateral	2/2	Extraordinary reliability and durability due to its dual-layer body. Large cover in diameter to facilitate access.
		Norma	Polyester + FG Laminated	5	10-34	650-1,200	4	D75-D140 Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Delta 1200	Polyester + FG Laminated	5	13-45	650-1,200	4	1½"-D90 Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Artic Plus	Polyester + FG Laminated	5	16-56	650-1,200	4	1½"-4" Lateral	2/2	High performance in residential pools. Filter bed height of 1.2 m. Wide range of added extras and accessories.
		Delta 1000	Polyester + FG Laminated	5	8-45	500-1,200	4	1½"-D90 Lateral	2/2	High performance in residential pools. Filter bed height of 1.0m. Wide range of added extras and accessories.
		Artic	Polyester + FG Laminated	5	9-56	500-1,200	4	1½"-4" Lateral	2/2	High performance in residential pools. Filter bed height of 1.0m. Wide range of added extras and accessories.
		Aster HP	Polyester + FG Laminated	5	9-31	500-900	4	1½"-2½" Lateral	2/2	Filter bed height of 0.8 m in all models with collector arms. Filter bed height of 0.6m in all models with nozzle plates.
		Atlas	Polyester + FG Laminated	6	9-30	500-900	3	1½"-2½" Lateral	10/2	Top quality and features in its category. Filter designed for the most exacting professionals.
		Europe Pro Long	Polyester + FG Laminated	5	9-30	500-900	3	1½"-2½" Lateral	2/2	Easy to access thanks to its large cover in diameter. Transparent or polyester cover as options.
		Europe Pro	Polyester + FG Laminated	5	9-30	500-900	3	1½"-2½" Lateral	2/2	Easy to access thanks to its large cover in diameter. Transparent or polyester cover as options.
		RapidPool	Polyester + FG Laminated	5	6-24	400-800	5	1½"-2" Lateral	2/2	Rapid access cover. No need for tools to access inside.
		Aster	Polyester + FG Laminated	5	5-31	350-900	2	1½"-2½" Lateral/ Top	2/2	A classic in AstralPool's filtration with the widest range of choices. Robustness, user friendliness and reliability all in one.
		Aster OC-1	Polyester + FG Laminated	5	8-32	450-900	2	1½"-2½" Lateral	2/2	Filter specially designed for the cutting-edge medium, OC-1. Saves energy, water and time spent on maintenance.
		Vesubio	Polyester + FG Laminated	5	8-32	450-900	2	1½"-2½" Lateral/ Top	2/2	Excellent value for money in its category. A laminated filter suitable for any size of pool.
		Millennium	**Blow-molded thermoplastic**	2	6-17	380-660	2	1½" Lateral/ Top	2/2	Magnificent finish and resistance in the category of blow-molded filters. Cover all your filtration requirements with the Millennium monobloc.

· All media filters in this table can work equally with sand or glass, except for the Aster OC-1 range.

· Performance based on internal tests and comparisons.

* Robustness and durability

** Warranty for tank / components

DIATOMACEOUS FILTERS

Complies with Standard EN 16713-01

Clarity filter

DESCRIPTION

Made in polyester and fibreglass. Supplied with pressure gauge, air vent and side mounted multiport valve. Filtration velocity 4.9 $m^3/h/m^2$.

Nanofiber filter

Complies with Standard EN 16713-01

Auto versions can be connected to a 07444 manual valve, or a 70769 automatic valve

DESCRIPTION

Filter for residential pools up to 90m³ characterised by its high-quality filtration: 5-8 microns, self-cleaning function, small size. The NanoFiber filter uses an innovative material that delivers better quality filtration due to its network of nanofibers.

- Easy to use
- Reliable
- Lower water consumption
- Higher water filtration quality
- Compact
- Easy to clean
- Dirt slow to build up without limescale
- Compatible with current filter systems on the market
- Replacement filtration media

CARTRIDGE FILTERS

Viron cartridge filter

Water Conservation

Complies with Standard EN 16713-01

DESCRIPTION

- Manufactured in injection-moulded plastic and suitable for high-pressure applications.
- Easy-access closing system, filtration surfaces of 39m² or 50m² enabling prolonged intervals between each cleaning operation or cartridge replacement.
- Includes water purge, oil pressure gauge and connection accessories.
- 5-year guarantee on the tank.
- Complies with filtration requirements as per standard EN 16713-1.

PRE-FILTERS

Hydrospin & Hydrospin Compact

Water Conservation

DESCRIPTION

- Hydrocyclone pre-filters can be fitted to filtration systems in both new and old installations.
- Hydrospin is able to treat flows up to 30 m³/h with a maximum working pressure of 2.5 bars.
- It is fitted between the pump and the filter and separates out solids of up to 40 micra.
- Saves water reducing by half the amount of water consumed for cleaning the filtration system.
- Easy to use, it can be cleaned using just five liters of water without having to stop the pump.

OC-1 FILTERS

Aster OC-1 filter

Complies with Standard EN 16713-01

DESCRIPTION

White laminated polyester and fibreglass filter. Internal parts with special sides for OC-1 media. Filter for side selector valve. ¼" air and water purge. Transparent lid with screws. Maximum temperature: 50°C Maximum pressure 2.5 bar. Maximum filtration speed 50m³/h/m². Filter for OC-1 filtration media. Not compatible with sand, glass or other filter loads.

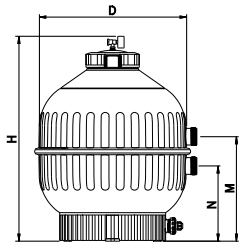
Complies with Standard EN 16713-01



- Injection-moulded filter in technical plastics.
- Ivory. Thermal-welded joining of top and bottom filter parts.
- Fitted with a pressure gauge and manual water and air purge valves.
- Selector valve included.
- Maximum filtration speed (50 $m^3/h/m^2$).
- Maximum working pressure: 2.5 kg/cm^2.
- Sand and glass compatible (see page 189).
- Complies with filtration requirements as per standard EN 16713-1.

Cantabric top filter

ASTRALPOOL

DESCRIPTION

Top mounted multiport valve. Threaded filter locking ring in ABS.

Fitted with sand dump port of Ø 2" in Ø 750 mm & Ø 900 mm models, and of 1½" in Ø 400, Ø 500 & Ø 600 mm models.
* 8 hours turnover rate.

- Blow-moulded in a single seamless piece of plastic.
- Fitted with a pressure gauge and integrated air purge and manual water drain.
- Selector valve included.
- Maximum working pressure: 2.5 kg/cm² for filter Ø 380 mm, Ø 430 mm and Ø 480 mm, and 2 kg/cm² for filter Ø 560 mm and Ø 660 mm.
- Sand- and glass-compatible (see page 189).
- Complies with filtration requirements as per standard EN 16713-1.

Complies with Standard EN 16713-01

Optional:
Standard American sizes

- Filters manufactured in fibreglass and polyester resin.
- With a gelcoat external finish. As a result, the body is highly resistant, durable and has an excellent finish.
- Internal components and accessories in high quality engineering plastics.
- Compatible with sand and glass, among others (see page 189).
- They comply with filtration requirements as per standard EN 16713-1.

Atlas filter

Complies with Standard EN 16713-01

DESCRIPTION

Sand and glass filters, among others, made from reinforced polyester. Complies with filtration requirements as per standard EN 16713-1.

Technical features:

- Made of polyester resin and fibreglass.
- Excellent finish with gel-coat colour RAL 8029.
- The filter has been designed with higher coefficient of security, to guarantee a perfect operation.
- The union of the two bodies of the filter is carried out through a seal specially reinforced with fibreglass and polyester resin.
- Transparent plastic cover highly resistant to chemicals.
- High reliability screw-in cover.
- Fitted with 1" collector arms and diffuser made from unplasticized PVC.
- Interior pipe with tubes of PN-16.
- 2½" sand discharge outlet.
- Fitted with pressure gauge, air purge and manual water drain.
- Connections to multiport valve with six positions: filter, backwash, rinse, recirculate, waste and closed.
- Innovation by AstralPool: the filter has a built-in safety valve to prevent pressure surges.
- Maximum pressure: 2.5 kg/cm^2.

LAMINATED SAND FILTERS

Aster filter

DESCRIPTION

Filter laminated in polyester and fibreglass. Grey, polypropylene base, screw-free lid, cap for sand and water discharge, pressure gauge and side selector valve. Maximum pressure 2.5 bar. Maximum filtration speed 50/h/m². Complies with filtration requirements as per standard EN 16713-1. Sand and glass compatible (see page 189).

Vesubio filter

Complies with Standard EN 16713-01

DESCRIPTION

The Vesubio range has been expanded to reach both the public and private pool sectors. Filters manufactured using simultaneous projection of resin and fibreglass. Threaded lid with high-resistance screws. Ø 210mm top mouth. Ø 1050mm and Ø 1200mm models also available with a top mouth of Ø 400mm. Maximum pressure 2.5 bar. Sand and glass compatible (see page 189).

- **Laminated filters with higher filter bed for enhanced performance and filtration quality, both for single-layer and multi-layer filters.**
- **There are various options to help choose the model that best suits usage and maintenance requirements.**
- **Compatible with sand, glass and anthracite, among others (see page 190).**
- **They comply with filtration requirements as per standard EN 16713-1.**

Norma filter

ASTRALPOOL

RECOMMENDED COMMERCIAL POOLS
PROFESSIONAL ADVICE RECOMMENDED

UNE-EN 16713-01

Complies with Standard EN 16713-01

Filtration bed 1.2 m

DESCRIPTION

Filter laminated in fibreglass-reinforced polyester (FRP). For single layer or multilayer filling. Maximum pressure 2.5 bar. The Norma filter is designed according to Germany's DIN 19643/19605 standard. Available with a plate collector system (0.5 mm slot) including a manhole cover for inspection of the bottom. Fitted with a sight glass, Ø 200mm top lid for loading sand and Ø 200mm or Ø 400mm side mouth depending on model. Fitted with pressure gauge, air purge and manual water drain. Interiors in PVC and PP. A4 screws and EPDM gaskets. Standard colour: ivory. Options. Vinyl ester coating (ozone resistant, concentrations <0.4 ppm and max. temp 40°C). Sand and glass compatible (see page 189).

Maximum pressure: 2.5 kg/cm²
Filtration velocity 30

Delta 1200 filter

Complies with Standard EN 16713-01

Filtration bed 1.2 m

DESCRIPTION

Filter laminated in polyester and fibreglass available in diameters of 650, 800, 1000 and 1200 mm. It has a 1.2-m filter bed and is available with an arm collector system and a plate collector system. Complies with filtration requirements as per standard EN 16713-1.

- DN 200 filter lid with quick-locking system for 650 and 800 models and DN 400 bolt down lid for 1000 and 1200 models.
- DN200 lateral manhole with bolt down cover.
- Filter interior left with natural resin finish.
- EASTAR sightglass as standard. Further sight glasses are available on request.
- Inner pipe and fittings in PVC, PP and ABS.
- Pressure gauge included in filter lid.
- Gaskets in EPDM and all screw fittings in stainless steel.
- Vinylester option. In this case, internal layer is manufactured from vinylester resin (and not only the top layer in contact with the water), to a maximum chemical resistance of 0.4 ppm of ozone dissolved and to a maximum temperature 50°.
- Comes in RAL 5024 blue.

Maximum pressure: 2.5 kg/cm²
Conventional collector arms.

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Delta 1000 filter

Complies with Standard EN 16713-01

Filtration bed 1 m

DESCRIPTION

Filter laminated in polyester and fibreglass available in diameters of 650, 800, 1000 and 1200 mm. It has a 1-m filter bed and is available with an arm collector system and a plate collector system. Complies with filtration requirements as per standard EN 16713-1.

- DN 200 filter lid with quick-locking system for 650 and 800 models and DN 400 bolt down lid for 1000 and 1200 models.
- DN200 lateral manhole with bolt down cover.
- Filter interior left with natural resin finish.
- Optional methacrylate sight glass on the Delta 10 model. More than one sight glass can be placed if desired.
- Inner pipe and fittings in PVC, PP and ABS.
- Pressure gauge included in filter lid.
- Gaskets in EPDM and all screw fittings in stainless steel.
- Vinylester option. In this case, internal layer is manufactured from vinylester resin (and not only the top layer in contact with the water), to a maximum chemical resistance of 0.4 ppm of ozone dissolved and to maximum temperature 50°.
- Comes in RAL 5024 blue.

HIGH-PERFORMANCE LAMINATED SAND FILTERS

Artic Plus filter

Complies with Standard EN 16713-01

Filtration bed 1.2 m

Nozzle plate detail

Collector arms detail

DESCRIPTION

Range of high-capacity retention filters with optimal backwash performance. Manufactured in polyester with an external gel-coat finish. Body of just two parts; ivory. Maximum working temperature of 50°C. Internal parts made from PVC plastic. Ø 400 lid to remove sand from bottom part of filter (optional) in Ø 1050 and Ø 1200 versions. Ø 650, 800, 950, 1050 and 1200 filters available with collector arms or nozzle plate. Compatible with sand and glass, among others (see page 189). Complies with filtration requirements as per standard EN 16713-1.

Artic filter

Complies with Standard EN 16713-01

Filtration bed 1 m

DESCRIPTION

Range of high-capacity retention filters with optimal backwash performance. Manufactured in polyester with an external gel-coat finish. Body of just two parts; ivory. Maximum working temperature of 50°C. Internal parts made from PVC plastic. Ø 400 lid to remove sand from bottom part of filter (optional) in Ø 1050 and Ø 1200 versions. Ø 650, 800, 950, 1050 and 1200 filters available with collector arms or nozzle plate.
Compatible with sand and glass, among others (see page 189). Complies with filtration requirements as per standard EN 16713-1.

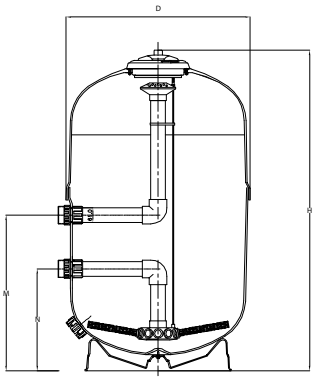
HIGH-PERFORMANCE LAMINATED SAND FILTERS

Aster filter - high quality of filtration

Complies with Standard EN 16713-01

Filtration bed 0.8 m



DESCRIPTION

Laminated filter made of fibreglass and polyester. Filter bed 800 mm in depth. Grey in colour, polypropylene base, fast open lid, water drainage plug, flowmeter and side multiport valve. Maximum pressure 2.5 bar. Top filtration speed of 50 $m^3/h/m^2$. The filter can be used with a single layer or a multi-layer combination of gravel with sand, glass or anthracite. Quick-release lid. Has a 2½" sand discharge out let at the bottom of the filter. Optional sand discharge outlet of 200 mm. Optional vinylester interior finish for treatment with ozone. Maximum temperature 50°.

- Filters made of fiberglass and polyester resin with Internal components and accessories in high quality engineering plastics.
- Thanks to its double coating, the resulting body is extremely resistant, durable and reliable.
- Compatible with sand and glass, among others (see page 189).
- They comply with filtration requirements as per standard EN 16713-1.

Complies with Standard EN 16713-01

Berlin filter

ASTRALPOOL

DESCRIPTION

Ø 230mm screw-down lid, injection-moulded. Fitted with manual air and water bleed valves, a pressure gauge and a side mounted multiport valve. Maximum filtration speed ($m^3/h/m^2$) Complies with filtration requirements as per standard EN 16713-1. Sand and glass compatible (see page 189).

MONOBLOCKS

Galactic monoblock

DESCRIPTION

Filter made made from high resistant blow-molded thermoplastic.

Includes 6-ways multiport valve, pressure gauge, manual air purge, water purge, compact self-priming pump with electrical cord and plug, hose, fittings, base and accessories to completely assembly the whole set.

Maximum working pressure 2,4 bars.

Fittings included, D38 and D50mm, for a maximum versatility to install.

Complies with filtration requirements as per standard EN 16713-1.

- A wide range of valves which offers the New Generation series, the Classic series and Flat series with 1½" and 2" valve configurations.
- The Magnum series with 2½" and 3" valves completes the range.

Six positions multiport valve

ASTRALPOOL

DESCRIPTION

A six positions multiport valve able to perform several functions in a hydraulic circuit: filtration, empty, closed, backwashing and rinsing of the filter. Its extremely functional design means that it can be fitted up to any installation. All joints will be perfectly sealed and it is easy to operate.

Its minimum friction and resistance, maximum safety were decisive factors to choose the best materials of its components: ABS body, lid and handle, PPO distributor, EPDM gaskets, metal parts in stainless steel.

Classic Plus

- Manual multiport valves with six channels to carry out different functions in an hydraulic circuit.
- Connection to filter through a sweep elbow instead of a 90° elbow and new design to offer a reduced pressure loss.
- Diverter gasket placed in the diverter instead of the body to improve performance and maintenance.

22490

New Generation

- Manual multiport valves which incorporate a bayonet closing system (replacing bolts).
- This eases dismantling for maintenance and prevents rust.
- The range includes the 1½" and 2" versions, including a "Top Eco" version available in 1½".

New generation

1½" multiport valve. Top ECO version

DESCRIPTION

6-way multiport valve for above ground pool filters where the pressure does not exceed 1.5 bar, of maximum diameter 380 mm. Bayonet closing system.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
1½" multiport valve. Top ECO version	32583	6	8.83	0.082

Flat

- Multiport valve which features a special compact look thanks to its single-level design (compared to the normal twin-level set-up in other multiport valves).
- This reduced size makes the equipment especially suitable in installations where space is at a premium, such as in filter housing or monoblocks.

Flat

1½" lateral multiport valve with filter connections

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Configuration 3	34543	6	9.3	0.08

Flat

1½" lateral multiport valve - Flat

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Configuration 3 (bottom port threaded)	34544	6	9.3	0.08
Configuration 3 (bottom port solvent socket)	34545	6	9.3	0.08

Flat

1½" TOP multiport valve - Flat

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
	34546	6	9.3	0.08

Magnum

- Specially designed to support high working pressures and connection to large filters which require special connections.
- Choose from the models offered: 2 ½", 3" and 4" multiport valves.

Magnum

2½" multiport valve with filter connections

DESCRIPTION

Multiport valve wih filter connections.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
2½" multiport valve - Configuration 3	24837	1	9.5	0.060
2½" NPT multiport valve - Config. 3	24840	1	9.5	0.060

Magnum

2½" multiport valve

DESCRIPTION

Filter inlet from the side and outlet from the bottom. With threaded outlets.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
2½" multiport valve - Configuration 3	24838	1	8.2	0.061
2½" NPT multiport valve - Config. 3	24839	1	8.2	0.061

Magnum

3" multiport valve

DESCRIPTION

Side mounted multiport valve for connecting to filters. Body and cover injected in ABS with fiberglass. Handle injected in ABS. Sealing system by stainless steel screws. Supplied with two plugs so that the customer can adapt the valve to the most suitable configuration.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
3" multiport valve	28515	1	9.8	0.064
3" NPT multiport valve	30798	1	9.8	0.064

MULTIPORT VALVES

VRAC Flat

1½" automatic multiport system valve

DESCRIPTION

Basic automatic multiport valve model that stands out for its easy operation.

Voltage 230/115 volts. Controls filtration, backwashing, rinsing and emptying.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
TOP 1"½ mutliport valve with actuator	43512	1	4.1	0.02
SIDE 1"½ mutliport valve with actuator	43513	1	3.9	0.02

VRAC III

automatic multiport valve

DESCRIPTION

Improved automatic multiport valve operated via button keypad. It makes possible to control filtration, backwashing, rinsing, emptying, recirculation and closed positions.

NEW in 2021!

Better features to the automatic multiport valve replacing the pressure switch for an analog pressure sensor.

- Easy program of the pressure set point for backwashing - Pressing a button.
- Avoid corrosion - No metalic elements.
- Friendly set up Fluidra Connect Box - System VRAC Basic III
- Adaptable: For using in all devices with a media filter, and it is quick and easy to install.
- Comfort: With a simple programming using the keypad, you will receive a fully automated filtration for your pool.
- Hygiene: You will obtain an optimal water quality for swimming, optimizing the wash cycles (daily, weekly or by pressure monitoring).
- Safety: The automatic valve continuously monitors the filtration system and the valve, thus preventing potential breakdowns. New power surge protection. Spring coated to prevent rusting.

LED lights for quick look of basic information.

Fluidra Connect compatible

A multiport safety valve (code 41898 or 41899) is recommended.

Substituted codes:

72433 in substitution of 70768 and 57186.

72434 in substitution of 70769 and 57187

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Basic 1½" side mounted, Config. 3	72433	1	4.27	0.023
Basic 2" side mounted, Config. 3	72434	1	5.75	0.033

Hydraulic safety valve

DESCRIPTION

The 1 ½" hydraulic safety valve in the drain is specially designed for installation in the drain outlet of an automatic multiport valve on a pool sand filter.

Using it prevents water loss when the valve changes its working position or when the electricity flow fails and the valve remains in a position in which it could empty the pool.

It is recommended in installations with SYSTEM VRAC multiport valves.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
With 50 mm straight double connection	41898	2	1.8	0.02
With 1 ½" BSP double pipe connection	41899	2	1.8	0.02

Gauge panel unit

DESCRIPTION

Including air vents.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
With pressure gauges 3 kg/cm²	00729	1	1	0.007
With pressure gauges 6 kg/cm²	00730	1	1	0.007

OC-1 filtration media

DESCRIPTION

OC-1 filtration load: The future of pool filtration

OC refers to Open Cell and OC-1 is a mechanical filter that uses open-cell filtration technology to filter water with a high quality, increasing the water saving and energy potential. The filtration media is an extruded plastic compound comprising a base of High Density Polyethylene with Calcium Carbonate.

- Saves water: exclusive filtration method that reduces water consumption by more than 40%.
- Saves power: lets you use a smaller pump or lower the power to get the same flow you would with traditional filtration media.
- Saves time: OC-1 reduces backwash frequency to less than a third of traditional methods, meaning more leisure time for you.
- The OC-1 media has been tested in accordance with current European standard EN16713-1.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
OC-1 50L filtration media bag	69752	1	9.0	0.05
OC-1 20L filtration media bag	69753	1	3.6	0.02

Active Clear Glass

DESCRIPTION

AstralPool sells Active Clear Glass filtration material.

Active Clear Glass has the following benefits:

- More efficient and ecological filtration with water and energy savings.
- Higher filtration capacity with a cleaner bed that traps bacteria.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³

FILTERS

A COMPLETE FILTRATION RANGE

> A FILTER FOR EVERY POOL

Central component of the filtration system, **the filter contains a filtration medium (that may be sand, glass, cartridge or another material, depending on the filter type).** So, debris and impurities are trapped in the filter tank.

An efficient filtration system is **essential for the effectiveness of water treatment.**

Zodiac® offers 2 filter ranges to best meet varying user needs:

> CS CARTRIDGE FILTERS

+ very compact filters that can be installed in confined technical rooms
+ ultra-fine filtration up to 15-20 µm for translucent water
+ saves water during maintenance (no backwash)
+ no need to connect to the drain

3 YEAR WARRANTY ALL PARTS · 5 YEAR WARRANTY ON TANKS · ALL TYPES OF SWIMMING POOLS · FINE FILTRATION · ECO FRIENDLY · Water Conservation

> MS MEDIA FILTERS

+ long-lasting glass-fibre reinforced polyester filters
+ designed to work with sand and filtration glass (Crystal Clear)
+ easy maintenance

3 YEAR WARRANTY ALL PARTS · 10 YEAR WARRANTY ON TANKS · ALL TYPES OF SWIMMING POOLS · EASY MAINTENANCE

COMPARATIVE TABLE OF THE RANGE

	CS Eco-friendly cartridge filters for fine filtration	MS Simple and long-lasting sand filters
Warranty	5 years (tank) / 3 years	10 years (tank) / 3 years
Easy installation	Yes (VersaPlumb® kit)	-

ASTRALPOOL PUMPS

EXCELLENCE AT THE HEART OF POOLS

At AstralPool, we don't just strive for good performance or innovative products but for the highest quality & reliability. Because what really makes the difference in the world of pumps is that everything goes the right way, as pumps are the heart of the pool.

And the only way to achieve this is through excellence every step of the way, from conceptualization to industrialization.

RELIABILITY IN DESIGN AND MANUFACTURING

A 30-YEAR-OLD EXPERTISE

At AstralPool, we have more than 30 years of experience designing, manufacturing, and supervising every aspect of the whole process in-house.

With **our 5 worldwide R&D centers** and **factories in Europe**, we are giving the best of ourselves to produce high-quality pumps as our customers deserve nothing but the best.

Our expertise has led us to become one of the market leaders, **more than 0.5 million pumps delivered annually** to the pool industry.

EUROPEAN ENGINEERING & MANUFACTURING

We use the latest technologies such as computer-aided design and engineering (CAD/CAE) , flow and mechanical simulations (CFD/FEA) to deliver **high-performing, reliable and efficient pumps.**

Our more than a year long prototyping and industrialization processes, in which everything is adjusted to its detail, piece by piece, mould by mould, assure us that **all products are equally perfect.**

During all the processes, we ensure that the quality of our pumps meets our expectations. This is why we develop **with more than 500 R&D tests** and more than **200 endurance tests annually**. Additionally, **we test 100% of our pumps** produced in our own factory under the quality certification of ISO 9001.

BEST IN CLASS SERVICE

Our dedicated team is here to offer an **efficient & close service** to support our customers during the whole journey through a committed sales team, detailed product training, wide logistic network and all the organization focused on customer satisfaction.

Thanks to our more than **100 Fluidra Pro centers** and direct presence in more than 35 countries, we are committed to bringing **proximity, service, and flexibility.**

Want to know more about AstralPool pumps? Check our video by flashing this QR code.

A WIDE RANGE TO MEET EVERY NEED

VARIABLE SPEED PUMPS

The sustainable solution, that ensures crystal-clear water and quietness while enabling great energy savings.

COMFORT SINGLE SPEED PUMPS

The widest range of pumps, able to fit any pool, that combines high performance and easy maintenance.

COMPACT SINGLE SPEED PUMPS

Small sized to fit everywhere, suitable for small to medium pools.

A UNIQUE TRACK RECORD

Many emblematic institutions around the world have trusted us for their pumps. We provide pumps for all kind of installations: swimming pools, aquariums, wellness, spas, fountains and lagoons.

ASIAN GAMES — INDONESIA

NEWCASTLE GREAT EXHIBITION OF THE NORTH — UNITED KINGDOM

AQUATICUM WATER PARK — HUNGARY

PUMP SELECTION GUIDE

HOW DO YOU SELECT THE PUMP THAT YOU NEED?

The selection of the pump is essential for running a pool's water treatment system.

The pump is the heart of a water facility and provides the power that makes the water circulate.

Its main use is to filter the water so that it is clear and to ensure its full recirculation. The main steps for selecting a pump are:

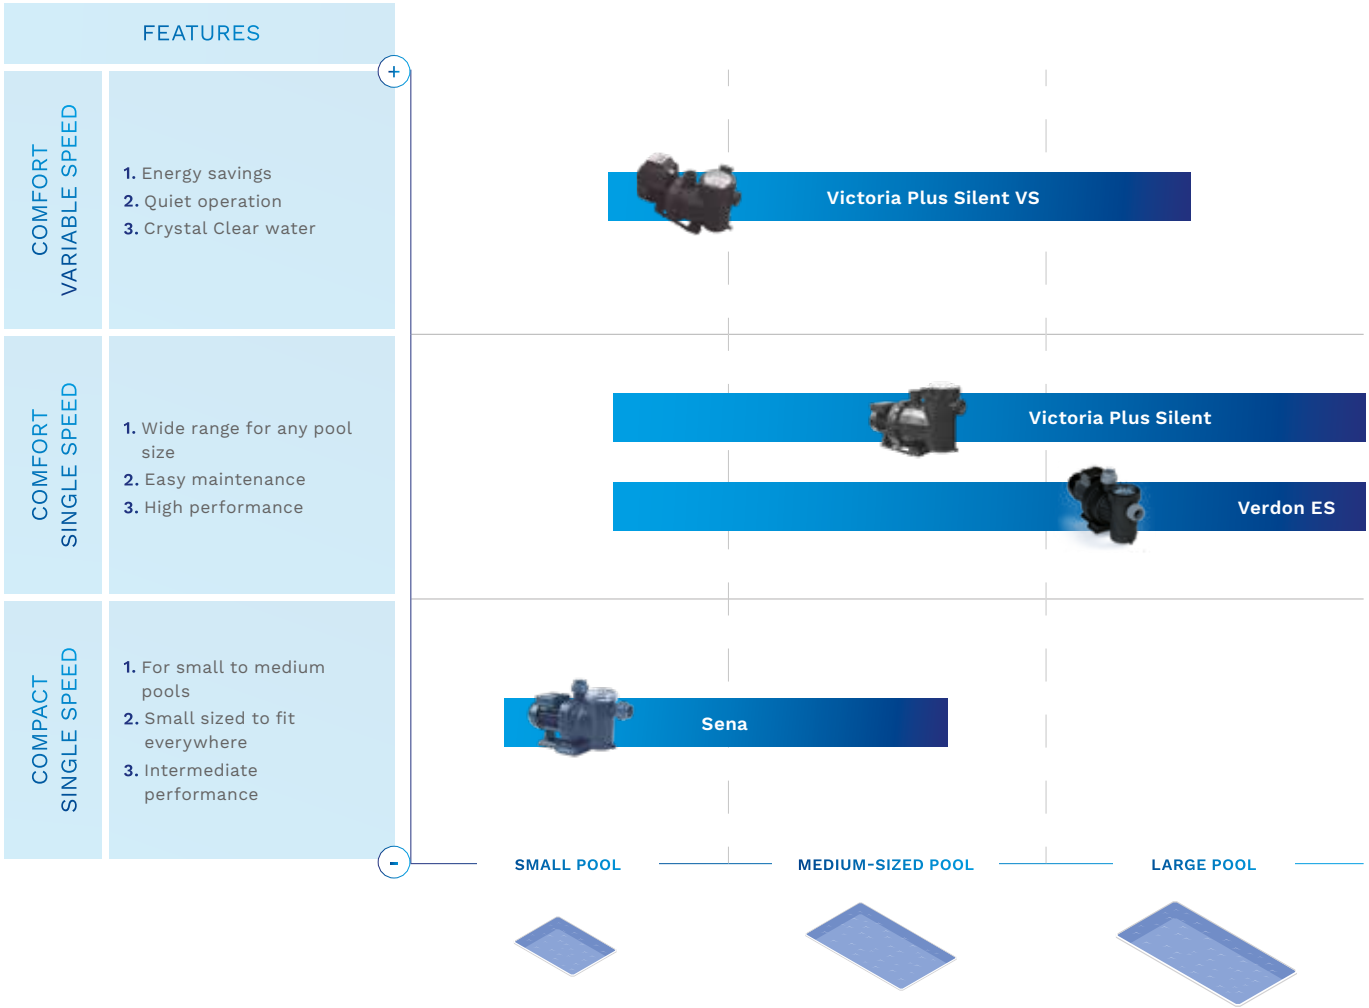
- **→ Setting the flow rate required depending on the pool's volume and dirt load. The flow rate must always be suitable for the filter fitted. It is very important that it neither be too slow nor too fast.**
- **→ Setting the pressure required depending the hydraulic facility's features.**
- **→ Taking into account any other units that may have been installed, such as salt chlorinators and heat pumps, whenever they involve constraints on the flow rate or pressure. For example, if a minimum flow rate is required for a unit to run.**
- **→ Selecting the pump ranges that supply this flow rate and pressure.**
- **→ Choosing the pump with the features that are best suited to a pool's requirements and those of its owner.**

Pumps also have other uses, such as running water features and massage jets. In such cases, read the specifications for each use and select the right pump.

Variable speed technology delivers the highest levels of comfort and features. It is without a doubt the best choice for the most exacting users.

PUMP RANGES AND MAIN ADVANTAGES

To select the right pump, you can use the following table that shows the features according to pool size.



PUMP FEATURES AND SELECTION

+ Optimized filtration quality

DESCRIPTION

The Victoria Plus Silent pump for residential pools comes with two motor powers, has variable speeds and can be automatically controlled.

This pump has been designed for both new-build pools and as a replacement for pumps already fitted.

Significant power savings can be made thanks to the use of variable speeds and the timer.

The pump is compatible with the Fluidra Connect platform.

It has a built-in HMI controller with the possibility of mounting it on a wall for better usability.

Bathers experience a greater feeling of well-being due to the reduced noise level.

There are digital inputs and outputs for the smooth running of all pool units, such as the salt chlorinator and heat pump. It includes a power factor correction function for reducing current flow. It does not require an external power pack for Fluidra Connect.

SELF-PRIMING PUMPS

Victoria Plus Silent

+ Long service life
+ Superior performance
+ For all pools

DESCRIPTION

A self-priming pump with single-phase and three-phase motors. A prefilter is mounted on the body of the pump to prevent foreign bodies from entering it that may damage its hydraulic parts. The motors supplied come with an IP-55 protection rating and have been prepared to withstand hot environments and high levels of humidity. GS marking. The main characteristics of Victoria Plus Silent are:

- Low noise level: between 61 dB and 70 dB.
- Easy to use: Prefilter cap with 2 levers included (no spanner needed).
- Compatibility: Fully compatible in pools fitted with a Victoria Plus pump.
- Larger front bearing for improved axial thrust.
- PVC accessories assembly included in pump.

* Check conditions for the warranty extension. Only available in selected countries.

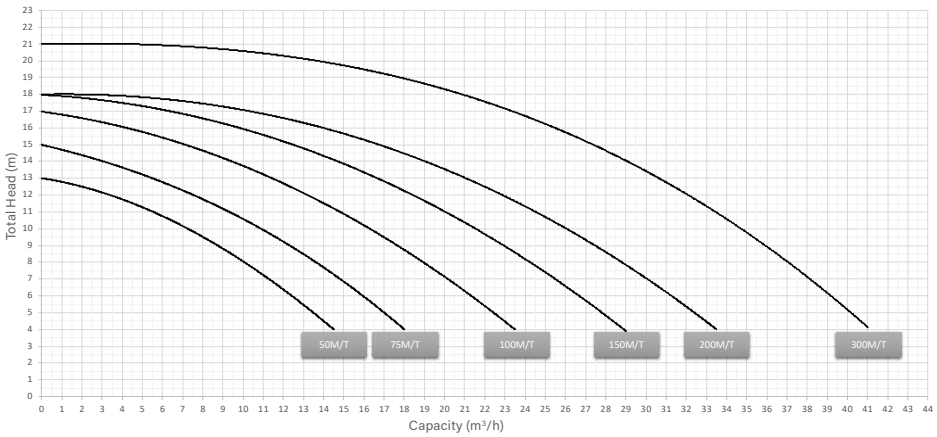
PERFORMANCE



Verdon ES

- + Simple and reliable
- + For all pools
- + Easy maintenance

DESCRIPTION

Verdon ES is a wide range of self-priming pumps. Designed and produced to serve professional performance, to be reliable and with an exceptional value for money.

Ease of use and maintenance thanks to its large prefilter.

PVC accessories included in the pump.

PERFORMANCE

- IP-65 protection.
- Glass panel with lock and key.
- All units are compatible with:
  - 220/240V 1-phase (P+N+T) 50Hz/60Hz
  - 380/415V 3-phase (3P+N+T) 50Hz/60Hz
  - 220/230V 3-phase (3P+T) 50Hz/60Hz
- 24h programming clock with hourly programming.
- Connection for remote control of pump (on/off,...) and for auxiliary equipment (cold detector, level control...).
- All products supplied with:
  - Electrical diagram
  - Connection diagram
  - Instructions for installation
  - CE conformity certificate
  - Stuffing box at every cable entrance
  - Screws and plugs (4) for fixing to wall
- The control box model should be selected according to the nominal voltage of the pump:

Basic NL nozzle set for both stainless steel and plastic housing	65489	1	-	-

Basic ND countercurrent kit

ASTRALPOOL

DESCRIPTION

Countercurrent kit made up of:

- Return inlet (air-water) made of AISI-316 stainless steel.
- Illuminated ON-OFF piezoelectric push button made of AISI-316 stainless steel.
- Suction grille with a capacity of 60 m^3/h made of polished AISI-316 stainless steel.
- 5.5 HP pump.
- Flow rate of 60 m^3/h.
- Power control cabinet.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Basic ND unit for concrete pools	65498	1	-	-
Basic ND unit for liner pools	66044	1	-	-

Basic ND works only at 400 V III.

Advance ND countercurrent kit

ASTRALPOOL

DESCRIPTION

Countercurrent kit made up of:

- Return inlet (air-water) made of polished AISI-316 stainless steel.
- Illuminated ON-OFF and +/- piezoelectric push button made of AISI-316 stainless steel.
- Suction grille with a capacity of 60 m^3/h made of polished AISI-316 stainless steel.
- 5.5 HP pump.
- Flow rate adjustable from 23 m^3/h to 60 m^3/h thanks to a variable-speed drive.
- Power control cabinet.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Advance ND unit for concrete pools	65497	1	-	-

Rectangular hand grips

in painted AISI-316L Stainless Steel

ASTRALPOOL

DESCRIPTION

Specially designed for 11015 & 11501 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
09447	1	1.4	0.013

Rectangular hand grips

in polished AISI-316L Stainless Steel

ASTRALPOOL

DESCRIPTION

Specially designed for 11015 and 11501 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
00246	1	1.48	0.01

Round Hand grips

in painted AISI-316L Stainless Steel

ASTRALPOOL

DESCRIPTION

Specially designed for 11016 & 11500 nozzles. Nevertheless can be mounted on any of the other nozzle sets except for the 11013.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
07536	1	1.6	0.02

Semicircular grab rail

in polished AISI-316L Stainless Steel

ASTRALPOOL

DESCRIPTION

AISI-316L polished stainless steel. Specially indicated for Marlin counter current swimming kit models; Marlin 30 II, Marlin 30 III and Marlin 45 III, although it may be mounted on any of the inlet sets, except for model 11013.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
37214	1	1.62	0.018

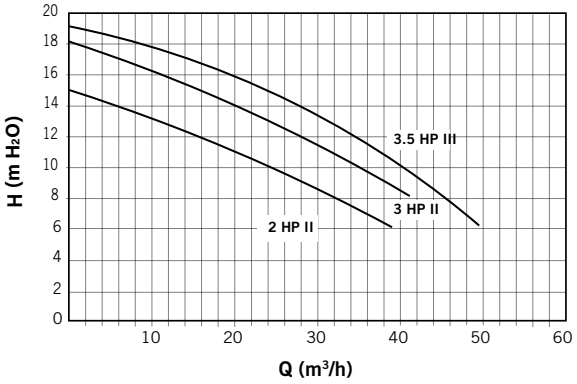
PERFORMANCE



CCIV vertical drive pumps

DESCRIPTION

Specially designed for countercurrent equipment with high performance output with larger diameter of discharge and suction. It is important not to add any special features to the installation as they may limit the performance significantly. All the pumps metal components in contact with water are manufactured in AISI-316L Stainless Steel, highly resistant to corrosion.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³

Marlin XS countercurrent

swimming equipment

DESCRIPTION

Set nozzle Mini Eco counter current unit. Highly competitive in its hydraulic performance. It can be installed in both concrete and prefabricated pools. Manufactured in white plastic parts. Consists of front panel nozzle set, stop/start push button and housing. Supplied with installation kit. Does not include pump or control box.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Marlin XS	45618	1	1.553	0.015

Marlin:

+ Inexpensive countercurrent swimming unit.
+ The innovative design and concept supplied as a kit (including face plate, housing, control box and pump) makes it a feature that will add significant value to your pool.
+ A highly competitive product thanks to its high performance hydraulic features, the Marlin countercurrent system is available in 3 models: the Marlin 30 II, the Marlin 30 III and the Marlin 45 III.
+ Grab rails and hydromassage hose may be added as optional features.

Marlin 30 II (single-phase)

DESCRIPTION

Consists of: Nozzle faceplate, plastic housing, control box and pump 2.2 kW (3 HP) 230 V II 50 Hz.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Marlin 30 II	35375	1	37.4	0.260

Marlin 30 III (three-phase)

DESCRIPTION

Consists of: Nozzle faceplate, plastic housing, control box and pump 2.2 kW (3 HP) 400 V III 50 Hz.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Marlin 30 III	35376	1	37.4	0.260

Marlin 45 III (three-phase)

DESCRIPTION

Consists of: Nozzle faceplate, plastic housing, control box and pump 3.3 kW (4.5 HP) 400 V III 50 Hz.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Marlin 45 III	35377	1	42.2	0.260

Part 11503 required for liner pools.

PUMPS

A COMPLETE RANGE TO SUIT EVERY NEED

> VARIABLE SPEED, THE NEW ECO-SILENT STANDARD

The variable speed pump can operate for a longer daily duration at a lower speed, while offering **4 essential advantages:**

1) SILENT OPERATION

Zodiac® variable-speed pumps emit up to 24 dB(A)* less than a single-speed pump, which is equivalent to the noise level in a library.

Did you know?

A reduction of 3 dB(A) represents a noise that is perceived to be twice as quiet to the human ear.

2) ENERGY SAVINGS

Thanks to their TEFC** permanent magnet synchronous motors using ECM*** technology, Zodiac® variable-speed pumps help **reduce electric consumption by up to 90%**. So, in comparison with a single-speed pump, it pays for itself in just a few seasons.

3) OPTIMISED WATER TREATMENT

Operating at a slower speed and with the flexibility to adapt to all pools, the speed at which the water passes through the filter is reduced and **filtration is greatly improved**. This also reduces the chances of the filter clogging.

Did you know?

The combined use of a variable-speed pump and a cartridge filter gives you an eco-friendly system that consumes less water (no backwash).

4) CONNECTIVITY

With the new iAqualink+ embedded connectivity and the iQPUMP Wi-Fi connecting device, it's now possible to **remotely manage Zodiac VS pumps thanks to the iAqualink+ and iAquaLink apps**.

3 YEAR WARRANTY

LOW NOISE LEVEL

ENERGY SAVING

EASY RETROFIT

Energy Efficient

Available on the App Store

ANDROID APP ON Google play

* Compared to a standard filtration pump emitting at least 66 dB(A). Values expressed in A-weighted acoustic power level according to ISO standard 3741.
** TEFC = Totally-Enclosed Fan-Cooled
*** ECM = Electronically Commutated Motor (= electronically controlled "brushless" motor)

DESIGNED TO ATTRACT YOUR CLIENTS

Our pumps range has been created based on the needs expressed by a panel of consumers*. So, this new range and its specific advantages will be sure to win your customers over.

> STRONG GUARANTEES

86%* of consumers are looking for reliable, long-lasting products

- 3-year warranty all parts, including wear parts (pre-filter basket, joints, etc.).

3 YEAR WARRANTY ALL PARTS

> EASY MAINTENANCE

75% of consumers favour the ease of maintenance

- All our pumps come fitted with a very large pre-filter basket (2.6 L) for easy maintenance, meaning you can wait longer between cleyears.

LARGE CAPACITY

UP TO 117% LARGER

> ENERGY SAVINGS

66% of consumers want to take control of their energy consumption

- Our variable-speed pumps are incomparably energy-efficient.
- Our single-speed pumps are high-performance, which means you can use less powerful models (depending on the instalation).

ECO FRIENDLY

*"Use and Attitudes" consumer survey conducted in France in 2015 on a representative sample of 779 people.

EASY TO INSTALL

Our filtration range has been well thought-out to make your everyday life easier: **simple, quick to install and easy to maintain.**

> PUMPS THAT ARE EASY TO INSTALL, EVEN WHEN REPLACING

All Zodiac® filtration pumps are available from a unique platform that guarantees the same installation, replacement and maintenance advantages, for all models in our filtration range.

Strengths:

1. Suction and discharge with **double thread** (external and 2" internal),
2. Exclusive 63/50 mm **union connectors**,
3. **Bases to elevate the pump** (included with FloPro™ VS, optional for other models)

- **Easy Retrofit:** Pumps can be installed without changing the piping and can be **easily fitted into the majority of existing installations, thanks to the bases.**
- Easy Retrofit system is valuable for both single speed and variable speed versions of a same pump model.
- Replacement compatibility based on data published by manufacturers. A tolerance of +/- 10 mm is acceptable if [intake pipe length] = 4x[pipe diameter], according to applicable hydraulics standards.

Pump models written in purple are Easy Retrofit compatible for both inlet and outlet.
Pump models written in blue are Easy Retrofit compatible for inlet only (slight outlet pipe modification needed).

PUMPS

> SINGLE-SPEED PUMPS, LONG-LASTING AND EFFICIENT FOR ALL POOLS

FloPro™ pumps are designed with corrosion-resistant materials. The body of the pump is made of very thick polypropylene, **which makes it long-lasting and silent.**

Equipped with highly energy-efficient asynchronous motors, the range is available in 9 models (from 0.5 to 2.0 HP, available in mono- or tri-phase, except for the 0.5 HP model) **to meet the needs of most pools.**

The FloPro™ platform is compatible with most equivalent pumps on the market with no restrictions and no need to alter piping, thanks to the "Easy Retrofit" system.

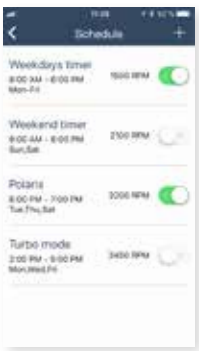
Operating mode(s)	Wi-Fi connection for remote access and control using iAquaLink(tm) app User interface onto Wi-Fi device for initial setup and on-site manual control.
Compatible with	FloPro™ VS AUT (dedicated model) FloPro™ VS pump (all manufacturing years are compatible)

TECHNICAL SPECIFICATIONS

Model	iQPUMP
Protection rating	IPX4
Power supply	Connected to the pump FloPro™ VS (RS485 cable provided)
Wi-Fi connectivity	Wi-Fi 802.11b/g/n/ac *
Wi-Fi range	Up to 150 m **
Length of RS485 cable	4.3 m
Dimensions (l x h x w)	13.7 x 31.0 x 3.2 cm

*: ECM = Electronically Commutated Motor
**: Totally-Enclosed Fan-Cooled



PUMPS

SSP

AQUA SPHERE NEW 2023

DESCRIPTION

- Self-priming range of pumps for residential swimming pools
- Including a 1,6 liters prefilter and D50mm couplings
- Single-phase motors, IP-X5 protection and insulation class F
- Range of flows from 12,5 to 19,5 m3/h at 10 m.c.w.

30 kg	15985	1	540	-

Multi-action 250-g tablet

These new codes only affect new formulas with low boric (European legislation)

DESCRIPTION

Slow-dissolving, 250-g tablet that acts as an algicide, bactericide and flocculant.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Square packaging	1 kg	75159	18	540	-
Square packaging	5 kg	75160	4	720	-
	25 kg	75161	1	450	-

Special multi-purpose tablet
for hard water

These new codes only affect new formulas with low boric (European legislation)

DESCRIPTION

Solid compound in tablet form, specially formulated so that a single dose will remove bacterias, viruses and microorganisms from pool water, which prevents algae from growing, limescale from forming and keeps the water crystal clear.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
5 kg	75154	4	720	-
25 kg	75155	1	450	-

For minimum amounts, ask your dealer

Disinfectants

Bromine tablets

ASTRALPOOL

DESCRIPTION

Slow-dissolving 20-g bromine tablets for the continuous disinfection of pools and spas. Does not smell of chlorine. High tolerance to pH levels. Powerful disinfectant and oxidising agent.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
5 kg	16550	4	400	-
20 kg	28740	1	540	-

Chlorine stabilizer

ASTRALPOOL

DESCRIPTION

Prevents the rapid breakdown of chlorine by the sun's UV rays.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
4,5 kg	72812	4	648	-

Chlorine and bromine neutralizer

ASTRALPOOL

DESCRIPTION

For the removal of excess residual chlorine or bromine.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
6 kg	16578	4	864	-

Algicides

Algicide

ASTRALPOOL

DESCRIPTION

Prevents the formation of algae in pools.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
5 l	11417	1	640	-
25 l	11418	1	600	-

Algicides

Algicide with brightener

DESCRIPTION

A powerful bactericide, algicide and fungicide.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
5 l	11414	4	640	-
25 l	11415	1	600	-

Algicide Extra

DESCRIPTION

Highly efficient non-foaming algicide that also acts as a flocculant.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
5 l	11423	4	640	-
25 l	11424	1	600	-

PhosFree

DESCRIPTION

Concentrated product that prevents the formation of algae as a result of chemicals, garden fertilizers and other contaminating agents. It removes the phosphates on which algae feed, thus inhibiting their growth.

Suitable for use in all types of pools, filters and disinfection treatment systems.

- Is easy to use.
- Improves the performance of salt chlorinators.

Recommended use:

The concentration of phosphates should be kept below 125 ppb (parts per billion) to prevent the formation of algae.

Initial treatment for high phosphate levels:

1. Ensure the filter is clean and that the system is working properly.
2. Pour the required concentration of PhosFree in a container with water and spread the solution evenly across the surface of the pool.
3. Keep the filtration system running for at least 24 hours following application.
4. Test the phosphate level of your pool using a phosphate test kit 48 hours later. If necessary, repeat the treatment.

Instantly removes what algae feed on.

Concentrated product: lasts for 13 weeks*

* 80 ml a week for a 50 m³ pool.

Format		Code	Standard Pack	Standard weight in kg	Standard volume in m³
PhosFree	1 l	65957	12	480	-

Algicide Power

More power in each drop!

Concentrated product: 25 weeks (1 l)

DESCRIPTION

A fast-acting compound formulated from surfactants that displays great properties as an algicide and fungicide, which therefore prevents the formation and growth of algae in pool water.

Prevention is better than cure:

Concentrated maintenance product that keeps pools free of all types of algae thanks to its powerful properties.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
1 l	63124	12	480	-

Algicide Power Plus

Non-foaming.

Concentrated product: 20 weeks (1 l)

DESCRIPTION

An extra strong, fast-acting algicide with micro-flocculant properties that makes it better able to prevent the appearance of algae that live suspended in the water. Non-foaming.

Concentrated maintenance product that keeps pools free of all types of algae thanks to its powerful properties.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
1 l	63126	12	480	-

AlgiStop

DESCRIPTION

Antialgae concentrated recovery, removes all kinds of algae, even black. Fast-acting, recommended even for liner and polyester pools (does not stain).

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
1 l	72824	5 l	640	-

Flocculants

For minimum amounts, ask your dealer

Natural Flocculant

The natural way to make water clean and transparent.

Concentrated product: 25 weeks (1 l)

* 40 ml a week for a 50 m³ pool.

DESCRIPTION

This natural clarifier made from chitosan (crustacean shells) is the most effective weekly treatment for preventing the formation of foam and cloudiness in pool water. It removes all traces of body oils and lotions, as well as excess metal precipitates.

Suitable for use in all types of pools and filters.

- Keeps water crystal clear, which helps the filter collect dirt.
- Removes excess metal precipitates.
- Helps make cleaning filters quicker and easier.
- Improves the performance of salt chlorinators.

Recommended use:

To keep your pool water crystal clear, treat it with the recommended dose of Natural Flocculant once a week. For home pools that are used a lot or for public pools, treat the pool water with twice or three times the recommended dose.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
1 l	65956	12	480	-

CrystalBlock – Single dose gel flocculant

DESCRIPTION

The easiest way to enjoy crystal clear water. No handling or complicated dosing systems required. It has never been easier to enjoy crystal clear water. Ideal for all pool types, except ones with cartridge or diatomaceous earth filters.

The single dose gel blocks will enable you to add the exact amount of the product with next to no effort. CrystalBlock collects colloidal particles and algae spores so that they are filtered better.

- Increases filter efficiency.
- Helps keep your pool water crystal clear.
- Improves the efficiency of disinfectants.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
36 UN	67558	72	10.800	-

Liquid flocculant

DESCRIPTION

Clarifies water by eliminating the colloidal particles that cause cloudiness in water.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³

5 l	16555	4	640	-

Winterising products

For minimum amounts, ask your dealer

Winterizer

DESCRIPTION

Prevents the proliferation of algae and bacteria in the water. Prevents water from going stagnant and the build-up of limescale. Takes the strain out of spring cleaning. Non-foaming.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
5 l	11430	4	640	-

Winterizer copper free

DESCRIPTION

Prevents water putrefaction and slows the growth of algae and bacteria. Compatible with all treatments. Including the PHMB.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
5 l	16553	4	640	-

More power in each drop!

Concentrated product: 0,5 L / 40 - 50 m^3

Winterizer Power

DESCRIPTION

Concentrated winterizer specially formulated for liner and polyester pools that will enable you to keep your pool water in top condition during winter as it prevents the formation of algae and bacteria. Saves water as it can be used from one season to the next.

The revolutionary dosing cap will enable you to add exactly the amount of the product you need, thus helping you to make savings and use it more efficiently.

At the end of the bathing season before ending regular maintenance treatment, a super-chlorination should be performed using dichlor granules.

It is advisable to repeat the process halfway through the winter season.

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
1 l	63165	12	480	-

More power in each drop!

Concentrated product: 0,5 L / 40 - 50 m^3

Winterising products

Chlorine, bromine and pH
comparison test kit

ASTRALPOOL

DESCRIPTION

Comes in a modern, practical design. Packaged in a blue plastic box. Comes with phenol and DPD tablets.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
26155	25	4.8	0.019

Liquid active oxygen tester

ASTRALPOOL

DESCRIPTION

For testing the residual liquid active oxygen in the water.

Code	Standard Pack	Standard weight in kg	Standard volume in m³

3-in-1 test strips: MPS

DESCRIPTION

Tests for potassium monopersulphate, pH and total alkalinity. Each pack contains 50 strips.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
57500	-	-	-

4-in-1 test strips: free chlorine

DESCRIPTION

Quick and easy test for free chlorine, pH and total alkalinity in pools treated with chlorine. Each pack contains 50 strips.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
11732	-	-	-

4-in-1 test strips: bromine

DESCRIPTION

Quick and easy test for bromine, pH and total alkalinity in pools treated with bromine. Each pack contains 50 strips.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
54467	-	-	-

AstralPool water testers

Salt test kit

DESCRIPTION

Salt test strips for checking salt levels. Salt levels must be checked on a regular basis as the water is renewed.

Code	Standard Pack	Standard weight in kg	Standard volume in m^3
07937	-	-	-

TruTest test strips

DESCRIPTION

50 TruTest 3-in-1 test strips (test for free chlorine and bromine, pH and total alkalinity).

Code	Standard Pack	Standard weight in kg	Standard volume in m^3
40817	-	-	-

Pocket gauges

Dissolved solids pocket gauge

DESCRIPTION

A small, practical pocket gauge for quickly measuring the solids dissolved in the water.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
41928	1	-	-

Redox pocket gauge

DESCRIPTION

A small, practical pocket gauge for quickly measuring the redox level in pool water.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
28583	1	-	-

pH pocket gauge

DESCRIPTION

A small, practical pocket gauge for quickly measuring the pH level in pool water.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
43447	1	-	-

Conductivity pocket gauge

DESCRIPTION

A small, practical pocket gauge for quickly measuring conductivity.

Code	Standard Pack	Standard weight in kg	Standard volume in m³
Range: 0.1-19.9 mS/cm.	43428	1	-	-

Test kits and photometers

3-in-1 photometer PC test kit

ASTRALPOOL

DESCRIPTION

- Chlorine range: 0.05–6.0 mg/l
- ph range: 6.5–8.4
- Cyanuric acid range: 0–80.0 mg/l

Code	Standard Pack	Standard weight in kg	Standard volume in m³
54567	1	1.0	0.049

Lumiso Pooltest 3

ASTRALPOOL NEW 2023

DESCRIPTION

Your ideal photometer for effective managment of Spas and outdoor pools.

Paramaters :

- Chlorine 0 – 5 mg/L
- Chlorine 0 – 10 mg/L
- Cyanuric Acid 0 – 150 mg/L
- pH Phenol Red 6.5 – 8.4

Features Included:

- Highly accurate electronic pool tester, ideal for monitoring outdoor pools
- Lightweight kit design, with all required accessories and reagents
- USB connectivity to enable data management and compliance
- Easy to operate and quick to deliver results

Code	Standard Pack	Standard weight in kg	Standard volume in m³
74430	1	1.0	-

Test kits and photometers

Lumiso Pooltest 4

DESCRIPTION

Your ideal photometer for effective managment of Spas and indoor pools.

Paramaters :

- Bromine 0 – 10 mg/L
- Chlorine 0 – 5 mg/L
- Chlorine 0 – 10 mg/L
- pH Phenol Red 6.5 – 8.4
- Total Alkalinity 0 – 500 mg/L

Features Included

- Highly accurate electronic pool tester, ideal for monitoring indoor pools
- Lightweight kit design, with all required accessories and reagents
- USB connectivity to enable data management and compliance
- Easy to operate and quick to deliver results

Code	Standard Pack	Standard weight in kg	Standard volume in m^3
74431	1	1.0	-

Lumiso Pooltest 6

DESCRIPTION

Simple and effective pool tedting for service engineers and pool managers .

Parameters :

- Bromine 0 – 10 mg/L
- Calcium Hardness 0 – 500 mg/L
- Chlorine 0 – 5 mg/L
- Chlorine 0 – 10 mg/L
- Cyanuric Acid 0 – 150 mg/L
- pH Phenol Red 6.5 – 8.4
- Total Alkalinity 0 – 500 mg/L

Features Included

- Maintain water balance with Lumiso high accuracy electronic meter
- Lightweight kit design, with all required accessories and reagents
- USB connectivity to enable data management and compliance
- Easy to operate and quick to deliver results

Code	Standard Pack	Standard weight in kg	Standard volume in m^3
74432	1	1.0	-

Test kits and photometers

Pool-Control-Direct

DESCRIPTION

Multiparameter photometer that enables a wide range of tests to be performed that cover all pool water readings. Intended for pool dealers.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Pool-Control-Direct	41922	1	1.9	0.023

Parameters tested (the reagents required can be ordered):

Alkalinity: 10 – 500 mg/l
Aluminium: 0.02–0.5 mg/l
Ammonia: 0.01–1.0 mg/l
Cyanuric acid: 2–200 mg/l
Biguanide: 2–100 mg/l
Bromine: 0.04–10.0 mg/l
Calcium hardness: 5–500 mg/l
Chloride: 10–500 mg/l
Free chlorine: 0.01–5.0 mg/l
Total chlorine: 0.01–5.0 mg/l
Free chlorine released: 0.01–10 mg/l
Total chlorine released: 0.01–10 mg/l
Chlorine range: 1–250 mg/l
Total copper 0.03–5.0 mg/l
Free copper: 0.03–5.0 mg/l
Total hardness: 5–500 mg/l
Phosphates: 0.03–4.0 mg/l
Iron: 0.01–1.0 mg/l
Manganese: 0.001–0.03 mg/l
Nitrates: 0.02–20 mg/l
Ozone: 0.01–2.0 mg/l
Hydrogen peroxide: 1–100 mg/l
pH: 6,8 – 8,4
Salt level: 0–10.000 mg/l
Sulphates: 5–200 mg/l

5-in-1 photometer PC test kit

DESCRIPTION

- Chlorine range: 0.05–6.0 mg/l
- ph range: 6.5–8.4
- Cyanuric acid range: 0–80.0 mg/l
- Alkalinity range: 5–200 mg/l
- Calcium hardness range: 50–500 mg/l

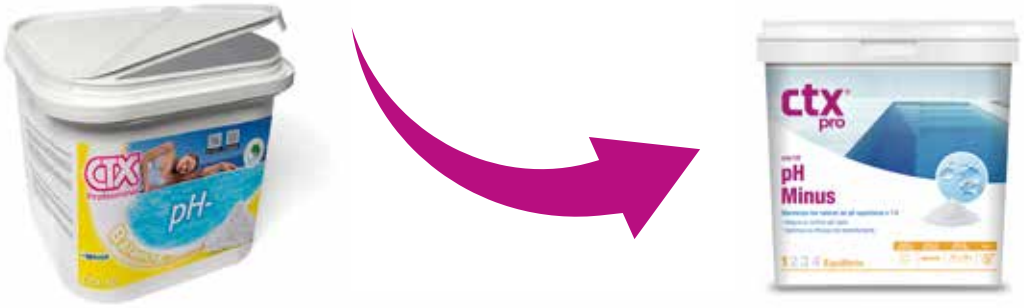
ctx® pro

We know, we take care, we live the water.

Our formula is unique: care, technology, knowledge.
Now with a new design, clearer and more functional.



New design

- Reference
- Name of the product
- Benefits and advantages of the product
- Family & type of product
- Format of the product
- Usage guide

Everything you need for a healthy and perfect water in 4 steps:

1 Balance

Maintains water parameters at optimal levels.

2 Disinfection

Disinfects water and kills microorganisms.

3 Algicide

Prevents algae, preventing their appearance.

4 Crystal Water

Removes dirt and cloudiness, crystal clear water.

Take care of the elements of your pool for a perfect efficacy.

Cleaning products

Take care of your pool during Winter.

Winter products

And if any type of problem arises, or you need extra care, a complete range of **CTX Solutions.**

Regulators

CTX 10 pH Minus

DESCRIPTION

Reduces pH values over 7.6.

- Enhances bathing comfort, preventing irritation of the eyes and mucous membranes and destruction of the skin's natural protective layer.
- Optimizes disinfectant efficacy.
- Prevents limescale.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		150g / -0,2pH / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 10 pH Minus	1.5 kg	03105	18	600	-
CTX 10 pH Minus	5 kg	74650	4	720	-

CTX 15 pH Minus

DESCRIPTION

Reduces pH values over 7.6.

- Enhances bathing comfort, preventing irritation of the eyes and mucous membranes and destruction of the skin's natural protective layer.
- Optimizes disinfectant efficacy.
- Prevents limescale.
- Ideal for pump dosing.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE

Regulators

CTX 20 pH Plus

DESCRIPTION

Increases pH values under 7.2.

- Enhances bathing comfort, preventing irritation of the eyes and mucous membranes, and destruction of the skin's natural protective layer.
- Optimizes disinfectant efficacy.
- Prevents metal corrosion.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		150g / +0,2pH / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 20 pH Plus	1 kg	16723	18	400	-
CTX 20 pH Plus	5 kg	74895	4	720	-

CTX 25 pH Plus

DESCRIPTION

Increases pH values under 7.2.

- Enhances bathing comfort, preventing irritation of the eyes and mucous membranes, and destruction of the skin's natural protective layer.
- Optimizes disinfectant efficacy.
- Prevents metal corrosion.
- Ideal for pump dosing.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		350ml / +0,2pH / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 25 pH Plus	20 l	17182	1	480	-

Regulators

CTX 21 Alka Plus

DESCRIPTION

Alkalinity has an important role as a regulatory effect of pH changes, correcting an unstable pH in the case of low alkalinity.

- Prevents pH fluctuations when alkalinity is between 125-150 ppm.
- Shores up water balance.
- Enhances bathing comfort.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		180g / +10ppm / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 21 Alka Plus	6 kg	03212	4	864	-

CTX 22 Calc +

DESCRIPTION

Increases water hardness at values below 175 ppm to prevent the corrosion of pool materials.

- Water hardness should be between 175 and 300 ppm.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		150g / 10ppm / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 22 Calc +	5 kg	03214	4	720	-

Disinfectants

CTX 200/gr ClorShock

DESCRIPTION

Chlorine treatment for water recovery.

- Fast-dissolving.
- High water solubility makes it quick to obtain the necessary residual chlorine amount.
- Stable chlorine, lasts longer in the water.
- Does not modify pH.

GRANULATED	EFFICACY	ALL, SPECIALLY LINER AND POLIESTER	DOSAGE
	IMMEDIATE		150g / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 200gr Clor Shock	1 kg	03135	18	400	-
CTX 200gr Clor Shock	5 kg	03137	4	720	-
CTX 200gr Clor Shock	25 kg	10905	1	450	-

CTX 250 ClorShock

DESCRIPTION

Chlorine treatment for water recovery.

- Fast-dissolving.
- The tablets have an effervescent effect ensuring swift rise in chlorine rate.
- Stable chlorine, lasts longer in the water.
- Does not modify pH.
- Recommended for use in tiled pools or in skimmer.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
30g	IMMEDIATE		7 tablet / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 250 ClorShock	1 kg	75133	18	432	-
CTX 250 ClorShock	5 kg	75134	4	720	-
CTX 250 ClorShock	25 kg	75135	1	450	-

These new codes only affect new formulas with low boric (European legislation)

Disinfectants

CTX 12 Chlorine-bromine neutralizer

DESCRIPTION

Reduces chlorine or bromine residual excess.

- Quickly removes the disinfectant excess so bathers can enjoy the pool safely.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		10g / -0.5ppm / 10m³

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³	
CTX 12 Chlorine-bromine neutralizer	6 kg	03211	4	576	C01

CTX 300 ClorLent

DESCRIPTION

Chlorine treatment for disinfecting the pool.

- Essential for ongoing pool treatment since the disinfectant is released as the water needs it.
- Stable chlorine, lasts longer in the water.
- Suitable for shock treatments and general maintenance.

POWDER	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	DAILY		10g / 10m³

Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 300 ClorLent	1 kg	03147	18	400	-

CTX 300/gr ClorLent	25 kg	19195	1	450	-

These new codes only affect new formulas with low boric (European legislation)

CTX 370 ClorLent

DESCRIPTION

Chlorine treatment for disinfecting the pool.

- Slow-dissolving and continuous disinfection.
- Stable chlorine, lasts longer in the water.
- Dosing from the skimmer or in a floating dosing device is advised. Avoid direct contact with pools made with a polyester or vinyl liner or painted pools as it can cause discolorations.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
250g	WEEKLY		1 tablet / 25m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 370 ClorLent	1 kg	75136	18	540	-
CTX 370 ClorLent	5 kg	75137	4	720	-
CTX 370 ClorLent	25 kg	75138	1	450	-

Disinfectants

CTX 370SB ClorLent boric free

Chlorine treatment for disinfecting the pool.

- PureDrop technology:
  - 0% boric acid
  - 50% long-lasting than standard tablets
  - Leaves no residue in the water.
- Slow-dissolving and continuous disinfection.
- Stable chlorine, lasts longer in the water.
- Dosing in the skimmer or in a floating dosing device is advised. Avoid direct contact with pools made with a polyester or vinyl liner or painted pools as it can cause discolorations.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
250g	7 / 10 DAYS		1 tablet / 30m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 370SB ClorLent	4 kg	69866	4	864	-

CTX 120 Hypocal

Calcium hypochlorite treatment for disinfecting the pool.

- Fast-dissolving.
- Unstabilized chlorine, no cyanuric acid is added to the water.
- Suitable for shock treatments and general maintenance.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	DAILY		10g / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 120 Hypocal	5 kg	03130	4	360	-
CTX 120 Hypocal	25 kg	03131	1	600	-

Disinfectants

CTX 400 ClorProtect

Keeps water disinfected for longer.

- Extends the disinfect action of chlorine since it prevents the rapid destruction caused by ultraviolet sunlight.
- Supplement for salt electrolysis or unstabilized chlorine treatments.
- For outdoor pools.
- Introduce the product in the skimmer or pump prefilter.

POWDER	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		400g / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 400 ClorProtect	4.5 kg	73127	4	648	-

CTX 161 ClorLiquid

DESCRIPTION

Liquid chlorine for continuous water disinfection.

- Unstabilized chlorine, no cyanuric acid is added to the water.
- Suitable for shock treatments and general maintenance.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	DAILY		500ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 161 ClorLiquid	20 l	47191	1	560	-

Disinfectants

CTX 390 / gr Multiaction

DESCRIPTION

Multi-action, occasional-use chlorine treatment.

- Stable chlorine, lasts longer in the water.

GRANULATED	EFFICACY	ALL, SPECIALLY TILE POOLS	DOSAGE
	DAILY		15g / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 390gr Multiaction	5 kg	07897	4	720	-
CTX 390gr Multiaction	25 kg	19196	1	450	-

These new codes only affect new formulas with low boric (European legislation)

CTX 342 Multiaction 5

DESCRIPTION

Multi-action chlorine treatment for pool maintenance.

- Slow and continuous dissolution.
- Disinfection, antialgae, flocculant, coagulant, chlorine stabilizer.

TABLET	EFFICACY	ALL, SPECIALLY LINER AND POLIESTER	DOSAGE
250g	WEEKLY		1 tablet / 25m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³

Disinfectants

CTX 391 Multiaction 10

These new codes only affect new formulas with low boric (European legislation)

DESCRIPTION

Multi-action chlorine treatment for pool maintenance.

- Slow and continuous dissolution.
- Disinfection, antialgae, algiastatic, flocculant, coagulant, chlorine stabilizer, antical, metal scavenger, corrosion protector, pH reducer.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
250g	WEEKLY		1 tablet / 25m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 391 Multiaction 10	5 kg	75147	4	720	-

CTX 393SB Multiaction 10 Boric Free

DESCRIPTION

Multi-action chlorine treatment for pool maintenance.

- Slow and continuous dissolution.
- Disinfection, antialgae, algiastatic, flocculant, coagulant, chlorine stabilizer, antical, metal scavenger, corrosion protector, pH reducer.

Pure Drop technology:

- 0% boric acid
- 50% long-lasting than standard tablets
- Leaves no residue in the water.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
250g	7-10 days		1 tablet / 30m³

CTX 393SB Multi action 10	4 kg	69868	4	864	-

Disinfectants

CTX 230 Dosilong

DESCRIPTION

Floating dosing device for multi-action treatment for pool maintenance.

- Ensures ongoing and constant dosing, keeping the water disinfected and promoting an algaecide and flocculant action.
- Specially designed for pools with a skimmer.
- Easy to use, no product handling.

FLOATING DISPENSER	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	3-4 WEEKS		1 / 50m³

These new codes only affect new formulas with low boric (European legislation)

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 230 Dosilong	1.75 kg	75149	6	96	-

CTX 130 Bromine

DESCRIPTION

Bromine treatment to disinfect the pool.

- Very slow-dissolving and continuous disinfection.
- Pleasant bathing, no odors.
- Does not irritate eyes.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
20g	WEEKLY		1.0 - 3.0 ppm

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 130 Bromine	5 kg	03183	4	400	-
CTX 130 Bromine	20 kg	27129	1	540	-

Disinfectants

CTX 17 Genbrom

DESCRIPTION

Inorganic compound that transform the active chlorine generated by a salt electrolysis treatment into bromine to disinfect the pool and keep it clean and hygienically pure.

- Bromine disinfectant efficacy is not reduced in contact with organic matter.
- More pleasant bathing without irritating the eyes or unpleasant odors.
- Ideal for covered pools treated with salt electrolysis.

GRANULATED	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		500g / 10m³

Algicides

CTX 575 Algae destroyer

DESCRIPTION

Concentrated product that successfully removes all type of algae, including hard-to-budge black algae.

- Fast-working, long-lasting.
- Non-foaming.

LIQUID	EFFICACY	ALL, EXCEPT LINER AND POLYESTER	DOSAGE
CONCENTRATED	4 to 8h		200ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 575 Algae destroyer	1 l	71653	12	480	-
CTX 575 Algae destroyer	3 l	71654	6	576	-

Algicides

CTX Phosfree

DESCRIPTION

Concentrated product to instantly remove algae-producing phosphates by inhibiting their growth.

- Prevents the appearance of algae.
- Compatible with all disinfectants.
- Enhances salt electrolysis output.
- With an easy-to-use dosing bottle.
- Phosphate concentration should be kept below 25ppb to prevent algae formation.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
CONCENTRATED	WEEKLY		12ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX Phosfree	1 l	63108	12	480	-

CTX 500C Algastop Power

Concentrated product that prevents algae formation and growth.

- High bactericide, algaecide, and fungicide power.
- Fast-working, long-lasting.
- With an easy-to-use dosing bottle.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
CONCENTRATED	WEEKLY		8ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 500C Algastop Power	1 l	63120	12	480	-

Algicides

CTX 530C Algastop Ultra Power

DESCRIPTION

Concentrated product that prevents algae formation and growth, with a flocculant effect.

- High bactericide, algaecide, and fungicide power with a microflocculant power boosting its capacity to prevent the appearance of floating algae.
- Fast-working, long-lasting.
- Non-foaming, making it ideal for pools with counterflow systems or similar, water parks, etc.
- With an easy-to-use dosing bottle.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
CONCENTRATED	WEEKLY		12ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 530C Algastop Ultra Power	1 l	63122	12	480	-

CTX 500 Algastop

DESCRIPTION

Prevents algae formation and growth.

- High bactericide, algaecide, and fungicide power.
- Fast-working, long-lasting.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		50ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 500 Algastop	5 l	03194	4	640	-
CTX 500 Algastop	25 l	03195	1	600	-

Algicides

CTX 60 AlgaStop Cristal

DESCRIPTION

Prevents algae formation and growth.

- Clarifies the water, increasing transparency.
- Keeps water blue.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		50ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 60 AlgaStop Cristal	5 l	03190	4	640	-

CTX 530 Algastop Ultra

DESCRIPTION

Prevents algae formation and growth.

- High bactericide, algaecide, and fungicide power.
- Fast-working, long-lasting.
- Non-foaming, making it ideal for pools with counterflow systems or similar, water parks, etc.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		25ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 530 Algastop Ultra	5 l	03204	4	640	-
CTX 530 Algastop Ultra	25 l	03205	1	600	-

Flocculants

CTX 39 Pool Gel

DESCRIPTION

Single-dose flocculant gel for crystal-clear water.

- Increases filter and disinfectant efficacy.
- Easy to use, no product handling.

MONODOSE	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	15 DAYS		1 MONODOSE / up to 60m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 39 Pool gel	Pack 36 un.	61363	2	7200	-
CTX 39 Pool gel (un)		61363UN		-	-

CTX Care Pods

DESCRIPTION

Multifunctional water-soluble film, single-dose.

- Stops water turning cloudy.
- Prevents algae growth.
- Prevents foam generation.
- Immediate effect.
- Efficacy unaltered by possible temperature rises or pH variations.

MONODOSE	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		1 MONODOSE / up to 50m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX Care Pods	35 g	73119	-	816	-
CTX Care Pods (un)	35 g	73119UN	-	816	-

Flocculants

CTX Natural Flocculant

DESCRIPTION

Naturally sourced concentrate that keeps water crystal-clear.

- Removes remains of body creams and oils, foam and excess metal.
- Suitable for salt electrolysis, boosting output.
- Compatible with all disinfectants.
- Easy-clean filter.
- With an easy-to-use dosing bottle.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	WEEKLY		8ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX Natural Flocculant	1 l	63107	12	480	-

CTX 43 Flocculant Deluxe

DESCRIPTION

Removes the particles from the water that turn it cloudy.

- Clean, crystal-clear water.
- Fast flocculation, continuous clarification.
- Improves disinfectant output.

CARTIDGE	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	10 DAYS		1 CARTRIDGE / up to 50m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 43 Flocculant Deluxe	1 kg	46664	14	490	-

Flocculants

CTX 42 Flocculant

DESCRIPTION

Removes the particles from the water that turn it cloudy.

- Improves water transparency.
- Coagulant action.
- Place tablet in skimmer.

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
100g	10 DAYS		1 TABLET UP TO 50m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 42 Flocculant	5 kg	03119	4	480	-
CTX 42 Flocculant	25 kg	03120	1	450	-

CTX 37 Xtreme Floc

DESCRIPTION

Shock treatment to completely remove particles from the water.

- For crystal-clear water.
- Slow and controlled dissolution.
- Coagulant and flocculant action.
- Improves filter and disinfectant output.
- Removes metal ions like iron and manganese and eliminates organic matter

TABLET	EFFICACY	ALL TYPES OF POOLS	DOSAGE
20g	8h		1 TABLET / 20m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 37 Xtreme Floc	20 un.	60044	8	144	-

Flocculants

CTX 41 Flocculant

DESCRIPTION

Shock treatment that removes the particles from the water that turn it cloudy.

- Clarifies the water, restoring transparency.
- Fast-acting.
- Improves disinfectant output.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	8h		100ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 41 Flocculant	5 l	03117	4	640	-
CTX 41 Flocculant	25 l	03118	1	600	-

Cleaners

CTX 51 WallCleaner Plus

DESCRIPTION

Cleans the pool basin.

- Detergent cleaner specially formulated to remove the limescale, organic residues, and mineral sediments that form over time and attach to pool surfaces.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	30min		2l / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 51 WallCleaner Plus	5 l	03124	4	640	-
CTX 51 WallCleaner Plus	25 l	03125	1	600	-

Cleaners

CTX 53 WallCleaner Liner

DESCRIPTION

Cleans the pool basin.

- Detergent cleaner specially formulated to remove the limescale, organic residues, and mineral sediments that form over time and attach to pool surfaces.
- Special for liner or polyester pools.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	30min		2l / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 53 WallCleaner	5 l	07882	4	640	-

CTX 56 Netoline

DESCRIPTION

Cleans the waterline.

- Gel detergent specially formulated to remove oil, dirt, and limescale from pool edges, walls and surrounds as required.
- Due to gel consistency it sticks to the walls, preventing splash-back.

GEL	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		SPONGE

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 56 Netoline	5 l	38811	4	640	-

Cleaners

CTX 75 Waterline Cleaner

DESCRIPTION

Cleans the waterline.

- Gel detergent specially formulated to remove oil, dirt, and limescale from pool edges, walls and surrounds as required.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		SPONGE

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 75 Waterline Cleaner	5 l	03222	4	640	-
CTX 75 Waterline Cleaner	25 l	03223	1	800	-

CTX 70 Surfosan

DESCRIPTION

Sanitizer multi-surface.

- Does not alter water parameters.
- Respectful with the surface.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		SPONGE

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 70 Surfosan	1 l	73941	9	432	-
CTX 70 Surfosan	5 l	05453	4	640	-
CTX 70 Surfosan	25 l	05454	1	600	-

Cleaners

CTX 600 Descaler

DESCRIPTION

Prevents limescale.

- Removes and prevents limescale. Helps stop filters from clogging up and corrosion of metal parts in the recirculation and filter system.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		SPONGE

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 600 Descaler	5 l	03229	4	640	-

CTX 700 Descaler Super

DESCRIPTION

Prevents limescale and iron stains.

- Prevents limescale formation on walls, ladders, bottoms and filters as a result of hard water.
- Keeps the water recirculation, pump, and heat-exchange circuits clean.
- Prevents stains forming on the basin as a result of iron in the water.
- Non-foaming.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	IMMEDIATE		SPONGE

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 700 Descaler Super	5 l	03231	4	640	-

Cleaners

CTX 800 Inhibical

DESCRIPTION

Prevents the limescale produced by using liquid chlorine that clogs up dosing systems (dosing pumps, tubes, etc.).

- Prevents the corrosion of metal pool parts.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	DAILY		500ml / 50 cl liquid

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 800 Inhibical	5 l	20265	4	640	-

CTX 35 Descaler electrolyte cells

DESCRIPTION

Removes limescale that forms and sticks to electrodes and reduces electrochlorinator output and performance.

- Extends electrochlorinator life.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	8h		100ml / $10m^3$

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 35 Descaler	5 l	31127	4	640	-

Cleaners

CTX 57 Netalfilter

DESCRIPTION

Cleans the inside of sand filters.

- Removes limescale caused by salts in the water and dirt deposited inside sand filters.
- Non-foaming.
- For stainless steel or sand/polyester, silex or ecoglass.

LIQUID	EFFICACY	POOLS WITH SAND FILTER	DOSAGE
	4h / 8h		2 l / 10kg sand

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 57 Netafilter	5 l	08671	4	640	-

Maintenance Kit

CTX 205 Baby Pool

DESCRIPTION

Complete kit for small inflatable or removable pools.

- Keeps the water clean without having to empty the pool
- It contains 0.5 l of dichlor granules and 0.5 l of concentrated algicide.

KIT	TYPES OF POOLS	DISINFECTION	EFFICACY	ALGICIDE	EFFICACY
with dispenser	Mini Pools		DAILY		WEEKLY

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 205 Baby Pool	1 uni.	03176	14		-

Winterising products

CTX 550 WinterStar

DESCRIPTION

Complete treatment in winter.

- Prevents algae and bacteria proliferation.
- Prevents the formation of lime.
- Non-foaming.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	3 MONTHS		500ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 550 WinterStar	5 l	03226	4	640	-
CTX 550 WinterStar	25 l	20906	1	600	-

CTX 551 WinterStar Liner

DESCRIPTION

Complete treatment in winter.

- Prevents algae and bacteria proliferation.
- Non-foaming.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	3 MONTHS		830ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 551 WinterStar Liner	5 l	17228	4	640	-

Winterising products

CTX 551C WinterStar Power

DESCRIPTION

Concentrated product for complete treatment in winter.

- Prevents algae and bacteria proliferation.
- Non-foaming.
- With an easy-to-use dosing bottle.

LIQUID	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	3 MONTHS		200ml / 10m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 551C WinterStar Power	1 l	63163	12	480	-

CTX 235 Sleepy

DESCRIPTION

Floating dosing device for complete treatment in winter.

- Prevents algae and bacteria proliferation.
- Easy to use, no product handling.

FLOATING DISPENSER	EFFICACY	ALL TYPES OF POOLS	DOSAGE
	3 MONTHS		1ml / 50m³

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 235 Sleepy	1.75 kg	75150	6	96	-

These new codes only affect new formulas with low boric (European legislation)

SPA sensations

The performance of CTX products now available for your spa

The caring formula

SPA range

CTX 911 pH Minus

DESCRIPTION

Granulated product to reduce the pH of the spa water. Fast dissolution without residues.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 911 pH Minus	1 kg	75976	9	324	-

CTX 912 pH Plus

DESCRIPTION

Granulated product to increase the pH of the spa water. Fast dissolution without residues.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 912 pH Plus	1 kg	75977	9	324	-

CTX 913 Hardness Stabilizer

DESCRIPTION

Liquid to prevent limescale. Prevents stains and save water from becoming cloudy.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 913 hardness stabilizer	1 l	75978	9	324	-

CTX 921 Bromine Tablets

DESCRIPTION

Bromine tablets for water disinfection without smell and with a long-lasting effect.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 921 bromine tablets	1 kg	75979	9	324	-

SPA range

CTX 922 Granulate Chlorine

DESCRIPTION

Chlorine granules to disinfect and guarantee hygienic spa water.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 922 granulate chlorine	1 kg	75980	9	324	-

CTX 931 Clarifyer

DESCRIPTION

Concentrated liquid to prevent cloudy water problems in the spa. For all types of filters.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 931 clarifyer	1 l	75981	9	324	-

CTX 932 Anti Foam

DESCRIPTION

Liquid to remove spa foam. Fast and effective action.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 951 anti foam	1 l	75985	9	324	-

CTX 941 Filter Cleaner

DESCRIPTION

Liquid for cleaning cartridge filters.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m³
CTX 941 filter cleaner	1 l	75982	9	324	-

SPA range

CTX 942 Surface Cleaner

DESCRIPTION

Concentrated liquid for cleaning the interior lining of spas. For all types of surfaces.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 942 surface cleaner	1 l	75983	9	324	-

CTX 943 Pipework Cleaner

DESCRIPTION

Liquid to degrease and clean hydraulic circuit.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 943 Pipework Cleaner	1 l	75984	9	324	-

CTX 961 Test Strips

DESCRIPTION

Strips to determine the pH value, chlorine, bromine, alkalinity and hardness of the spa water..

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 961 test strips	-	75986	-	-	-

CTX 971 Kit Bromine

DESCRIPTION

Kit for the disinfection of spa water with bromine.

	Format	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
CTX 971 Kit Bromine	-	75987	72	288	-

- **Disinfection management and pH management represent 20% of pool water treatment but 80% of daily in-store enquiries.**
- **Correctly managing disinfection and pH is then key for a perfect pool experience. AstralPool® offers 4 product families to relieve the pool owners from constraints.**

HOW TO CHOSE THE MOST ADAPTED WATER TREATMENT SOLUTION?

Our water treatment product portfolio allows pool owners to adapt their equipment to their needs, from lowering maintenance constraints to increasing bathing comfort, connectivity or environmentally friendly solutions. The chart below will help you chose the best option for your pool.

For an optimal disinfection against pathogens (bacteria, viruses, fungi...), you may combine UV treatment with chlorinated treatment. It delivers a larger efficacy spectrum ensuring pool's water is disintected AND disinfectant.

Elite Connect

ASTRALPOOL

+ A connected and evolutive salt water chlorinator platform with pH & chlorine regulations and built-in pool equipment control.

Fluidra Connect compatible

DESCRIPTION

- Connected product with built-in Ethernet port and PoolStation app (available on iOS & aOS).
- NN Thing: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- Scalable control functions with S-Driver® plug-in modules (pH, Rx and Cl ppm).
- 2.8" OLED colour touch screen with enhanced display
- Integrated timer scheduling for all controlled pool features.
- 4 digital inputs and 4 digital outputs (relays) to control filter pump, heater, lighting, etc.
- Equipped with a gas sensor, a flow switch and a compact sensor holder as standard.
- Equipped with high quality electrodes, with a service life of up to 12,000 hours under normal conditions.
- Output control from 0 to 100%.
- pH dosing pump included with pH option.
- Low-salt version (1–2 g/l).
- Optional VSP S-Driver® that can control 3-speed variable speed pumps and backwash piston valves.
- Optional Relay Box to ease the installation between Elite Connect and the controlled pool equipment. See page 315.

Possibility of upgrading the unit with S-Driver® modules

Smart Next

+ A salt water chlorinator with optional pH and ORP automated control.

Fluidra Connect compatible

DESCRIPTION

- Smart Next is available as a salt water chlorinator, or with regulations: pH only or pH & ORP for chlorination control.
- Equipped with a gas sensor (optional flow switch) and compact sensor holder (pH and pH/Rx options) as standard.
- Monitors temperature and salinity.
- Equipped with high quality electrodes, with a service life of up to 10 000 hours under normal conditions.
- Output control from 0 to 100%.
- pH dosing pump included with pH and pH/Rx options.
- 24h Boost mode.
- "Bio pool" mode with specific pH & ORP setpoint thresholds.
- NN Thing: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- **New : Now controllable via the iAquaLink+ app with the addition of the iQBridge RS WiFi gateway (available separately as an option)**.

Optional iQbridge RS WiFi gateway for remote control with iAquaLink+ app

pH accessories
(provided with pH & pH/Rx models)

ORP accessories
(provided with pH/Rx models)

DID YOU KNOW?

Bring connectivity with iQBridge RS

Smart Next can be remotely controled with iAquaLink+ free app using the optional iQBridge RS for anytime & anywhere management. iQBridge RS is a plug & play WiFi gateway to easily connect Smart Next to the homeowner WiFi network and benefit from iAquaLink+ app control experience.
See "Internet of Pools" section for more details about iQBridge RS and iAquaLink+ app benefits.

Which models ?

All Smart Next manufactured starting 2023. The power pack is equipped with a dedicated plug to connect iQBridge RS.
Simply look for the "iAquaLink+ compatible" sticker on the Smart Next carton.

Energy Sel

DESCRIPTION

Self-cleaning salt water chlorinator thanks to polarity reversal. Flat screen design. Easy to install and use. On / off push button located in the lower part to avoid involuntary disconnections. It is recommended for pools up to 85 m³. Relay for automatic cover. Optional flow switch (code 300227 includes D.63 collar; code 300228 includes D.50 collar).

	Chlorine output:	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Up to 40 m³	9 g/h	71650	1	3.50	0.025
Up to 55 m³	13 g/h	71651	1	3.65	0.025
Up to 85 m³	19 g/h	71652	1	3.70	0.025

Sel Clear

DESCRIPTION

Self-cleaning salt water chlorinator thanks to polarity reversal. Easy to install and use. It is recommended for pools up to 85 m³. Relay for automatic cover. Optional flow switch (code 300227 includes D.63 collar; code 300228 includes D.50 collar).

	Chlorine output:	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Up to 40 m³	9 g/h	54041	1	3.50	0.025
Up to 55 m³	13 g/h	54042	1	3.65	0.025
Up to 85 m³	19 g/h	54043	1	3.70	0.025

Bering Sel

DESCRIPTION

Self-cleaning salt water chlorinator thanks to polarity reversal. For pools up to 35 m³. Compact design. Manual output adjustment (from 0 to 100%). 3 indicators: solid green = running, solid red = in standby mode, flashing red = failure (lack of water, lack of salt).

	Chlorine output:	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Up to 35 m³	8 g/h	64315	1	6.0	-

Salt test kit

DESCRIPTION

Salt test strips for checking salt levels. Salt levels must be checked on a regular basis as the water is renewed.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Salt test strips bottle	07937	1	0.8	0.001

Earthing anode

DESCRIPTION

Easy-to-install stainless steel earthing anode to remove roaming curents that might be present with salt water. Provided with saddle clamp kit.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
For Ø 50 mm	25894	1	0.6	0.001
For Ø 63 mm	25895	1	0.6	0.001

+ Neolysis 2 is the most advanced water treatment from AstralPool. It is a patented hybrid sanitation system combining UV treatment with salt water electrolysis to deliver an unrivalled efficiency against pathogens.

+ A connected and eco-friendly hybrid system with pH & chlorine regulations and built-in pool equipment control.

Neolysis 2

DESCRIPTION

- Water suitable for watering.
- Hybrid disinfection based on UV and electrolysis.
- Unbeatable water quality.
- Sustainable and healthier treatment.
- Connected product (Poolstation app) with pool equiplment control capability (4 inputs & 4 outputs).
- UV LP high quality lamps (13,000 h).
- High quality electrolysis electrodes (12,000 h).
- Patented process.
- Optional Relay Box to ease the installation between Neolysis 2 and the controlled pool equipment. See page 315.

Possibility of upgrading the unit with S-Driver® modules

+ Heliox UV LP systems (LP = Low Pressure) are designed to be used in residential pools. They work on a wavelength of 254 nm, which is ideal for removing microorganisms. They will enable you to benefit from the latest ultraviolet light technology in the field of water treatment.

DESCRIPTION

- Stainless steel and polyethylene versions.
- Double lamp version (LP30 and LP30+).
- Plastic injection power box.
- Fluidra technology (design and manufacturing).
- Lamp "ON" indicator.
- Electronic counter for working time and ignitions (lamp lifetime control).
- Flow switch (optional, included in LP+ versions).
- LP+ versions come with a built-in pH/ORP controller (complete package).
- LP+ versions come with a flow switch, pH/ORP sensors and sensor holder (dosing pumps not included).

Lyriox UV-C

+ Affordable & sustainable UV-C treatment solution for pools & spas.
+ Eco-friendly sanitation : drastically reduces the use of residual disinfection products.
+ Compact & easy to install.

DESCRIPTION

- Corrosion free : 100% made of PVC, hence suitable for use in combination with salt water
- Integrated ballast casing
- Also exists in a compact U-shape version for easier installation (50W model)
- UV-C high quality lamps (9 000 h).
- Provided with 50mm or 63mm unions (depending on model) to ease installation.

Control Connect

Fluidra Connect compatible

DESCRIPTION

A fully automated multi-parameters control unit for a balanced and disinfected swimming pool. A range of models suitables to different needs with either pH & ORP automatic regulations and dosing or pH & PPM free chlorine automatic regulations.

- Connected product using built-in Ethernet port and PoolStation app (available on iOS & aOS).
- NN compatible: Smart control within Fluidra Connect pool automation and NN app (available on iOS & aOS).
- Available in stand-alone version (code 71537) or in a complete panel version with low flow chamber (codes 71538 & 71539).
- 2.8" TFT colour touchscreen.
- 4 digital inputs and 4 digital outputs (relays) to control the filter pump, heat pump, lighting, refill system, etc.
- Water temperature reading as standard.
- Equipped with a flow switch as standard.
- Equipped with dedicated outputs for pH & chlorine dosing pumps.
- pH and chlorine dosing pumps NOT included to give maximum flexibility depending on pool type. Kit 70054 can be used (1.5 L/h peristaltic pumps).

Relay Box

Elite Connect, Neolysis 2, Control Connect

DESCRIPTION

Pre-wired cabinet that facilitates the installation between Elite Connect, Neolysis 2 or Control Connect and the pool equipment that can be controlled using 4 power outputs (filter pump, heater, lighting, etc.). See Elite Connect on page 304, Neolysis 2 on page 309 and Control Connect on page 314.

- IP55 watertight casing.
- All outputs are protected by a fuse.
- Control features :
  1 x 230 Vac output for :
  - Filter pump up to 3 HP
  - Or any device up to 10A / 2.3 kW
  3 x 230 Vac outputs for :
  - Filter pump up to 1/3 HP
  - Any device up to 6.5A / 1.5 kW

Dual pH-EV Basic Control Plus

Fluidra Connect compatible

DESCRIPTION

The DUAL pH-EV Basic Control Plus dosing device has been specifically designed for automatically controlling pH and ORP levels. It is a must in home spas and pools. It can work with a salt chlorinator or chlorine tablets, as it has relay output for enabling the chlorinator, in addition to controlling a pool's pH levels though a peristaltic pump.

Small in size, it comes with all of the components required for proper installation. Depending on the device that has been connected, the control function can be set to the ON-OFF setting or proportional setting (ideal for solenoid valves).

General technical features

- Automatic pH or redox control and dosing system.
- Measurement range of 0–14 (pH) and 0–100 mV (redox).
- Includes full installation kit comprising a pH and Redox sensor, sensor holder, standard solutions, suction and blow pipes and suction- and blow-pipe fittings.
- ABS casing with IP65 protection rating.
- Digital screen that gives pH, redox (ORP) and temperature (optional Pt100) readings
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.
- Chemical product level inlet.
- Alarm relay.

Flange for PT100	66759	-	-	-

Control Basic Plus

Fluidra Connect compatible

Check sensors and installation kit on page 317

DESCRIPTION

Small in size, it has been designed to prevent siphoning, require little maintenance, be easy to install and is protected from the spraying of chemical products. The device automatically measures and checks a pool's pH or ORP level.

Supplied without sensors or calibration solutions. Installation kit included.

- Plastic housing with IP-65 protection rating
- Backlit LCD display comprising 2 lines and 16 characters.
- Self-calibration of sensors.
- Quality control of sensors.
- Dosing pause during alarms and notification by a blinking LED.
- Proportional dosing.
- Adjustable set point.
- Flow rate: 1,5 l/h or 5 l/h.
- Back pressure: 1.5 bar.
- pH measurement range: 0.00 to 14.00.
- Redox measurement range: -999 to + 999 mV.
- Switch.
- Alarm relay.
- Minimum chemical product level input.
- PT100 temperature inlet (optional sensor).

Redox Basic EV Plus

Fluidra Connect compatible

Check sensors and installation kit on page 317

DESCRIPTION

Small in size, it has been designed to prevent siphoning, require little maintenance, be easy to install and is protected from the spraying of chemical products. Recommended for use with any chlorinator without ORP regulation.

Supplied without sensors or calibration solutions. Installation kit included.

- Plastic housing with IP-65 protection rating
- Backlit LCD display comprising 2 lines and 16 characters.
- Self-calibration of sensors.
- Quality control of sensors.
- Dosing pause during alarms and notification by a blinking LED.
- Proportional dosing.
- Adjustable set point.
- Redox measurement range: -999 to + 999 mV.
- Switch.
- Alarm relay.
- Output relay for external component.
- Minimum chemical product level input.
- PT100 temperature input (optional sensor).

Control Basic Next

DESCRIPTION

The Control Basic Next device has been specifically designed for the automatic control of pH and redox levels. It can be set to control whichever of these two functionalities is required.

It is the most simple control and dosing device in the market. Small in size, it has all of the components required for immediate installation.

General technical features

- Automatic pH or redox control and dosing system.
- Measurement range of 0–14 (pH) and 0–100 mV (redox).
- It comes with a full installation kit, made up of a pH or redox sensor (depending on the model), a sensor holder, standard solutions, suction and blow pipes, and suction and blow pipe fittings.
- ABS casing with IP65 protection rating.
- Digital display screen for both pH and redox readings.
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Control Basic pH 1.5 l/h NEXT (pH sensor included)	66162	1	-	-

Control Basic ORP 0,4 l/h NEXT SPA (ORP sensor included)	66157	1	-	-

Redox Basic EV Next

DESCRIPTION

The Redox Basic EV Next device has been specifically designed for automatically controlling ORP levels. It is the most simple control and dosing device in the market. Small in size, it has all of the components required for immediate installation.

It can work with a salt chlorinator, a simple dosing pup or even chlorine tablets thanks to its relay output automatically enabling the sanitation feature when needed.

General technical features

- Automatic redox control and dosing system.
- Measurement range of 0-1000 mV.
- It comes with basic installation kit, made of an ORP sensor, a sensor holder and standard buffer solution (no piping kit as device is made to control a separate sanitizer appliance).
- ABS casing with IP65 protection rating.
- Digital screen that gives redox readings.
- Remote on-off input (230 VAC) that keeps display lit up for calibration and programming.

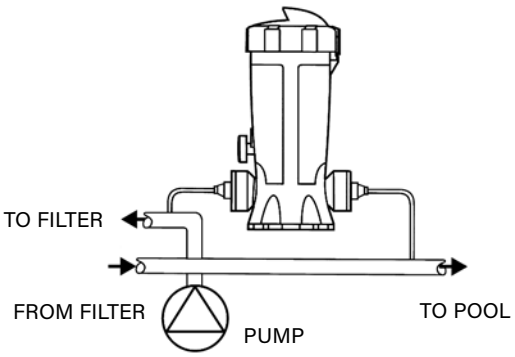
Code 24430 OFF-LINE



Woltmann type turbine

flow meter

DESCRIPTION

Axial turbine meter, Woltmann type, direct reading on numbered rollers. Dry dial counter, with magnetic drive. Clockwork and easily removable turbine.

Pre-equipment of pulse transmitter with plug and play system, with non-configurable pulse emitter. Meters between DN50 and DN125: 1 pulse each 100 liters and between DN150 and DN200: 1 pulse every 1000 litres. Ask for other configuration.

- No need for rectilinear sections, neither at the entrance nor at the exit of the meter. U0-D0.
- High precision in the measurement Metrology R160 horizontal position and vertical R100.
- Vacuum sealed dial(IP68).
- Cold water use 0,1 - 30°C.
- The Predator water meter can reach up to 16 bar.
- Potable water and irrigation type certificate.
- Easy installation of the pulse emitter.
- Pulse transmitter cable not included (code 71721).

5 RANGES OF WATER TREATMENT PRODUCTS

Water is an unstable and continually changing element, particularly in a swimming pool. Physico-chemical treatment of the water is therefore necessary to make it healthy, clear, balanced, disinfected and antibacterial.

Zodiac® offers 5 product families to free swimming pool owners from the burdens of water treatment:

- **Stand-alone pH regulators** to provide the optimum pH whatever the type of disinfection used,
- **Stand-alone ORP regulators** to manage chlorine disinfection automatically,
- **Easy-to-Install, long-lasting and upgradeable salt chlorinators** (specific models with regulations, or optional add-ons regulation modules on certain models), offered in 3 different levels of range,
- **Patented exclusive MagnaPool® solution** for a complete magnesium-based chlorination, focused on water clarity, bathing comfort and the environment (see specific pages),
- **Nature² mineral purifier for spas disinfection** with less chlorine.

POSSIBLE COMBINATIONS OF THE DIFFERENT SYSTEMS

Disinfection

Water disinfection that adapts to every need and every budget.

Hydroxinator® iQ

PH REGULATION SYSTEMS

For perfect water balance

Zodiac pH regulation systems incorporate proportional dosing technology to **maintain an ideal pH automatically** for the comfort of bathers. For optimal water balance, it includes a function to adjust injection cycles depending on the total alkalinity (TAC) of the water. **A choice of 3 settings is available:**

Low alkalinity	Standard alkalinity	High alkalinity
TAC < 10 °f (100 ppm $CaCO_3$)	Default setting	TAC > 15 °f (150 ppm $CaCO_3$)

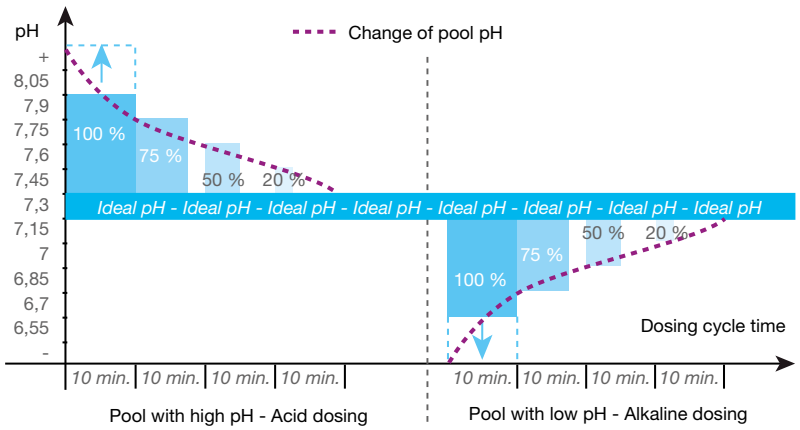
> SAFE, AUTO-ADAPTIVE OPERATION

Depending on the value measured by the sensor, Zodiac® pH regulation systems automatically adjust the pH of the swimming pool up or down, using a peristaltic dosing pump.

The dosing time depends on **the difference between the pH of the swimming pool and the ideal pH (set point value).** The water balance in the swimming pool is maintained at the desired value without taking any action.

Zodiac® pH regulation systems are equipped **with an exclusive overdosing safety device** (called 'OFA') to prevent excessive injection. The safety device is adjustable and operates in 3 steps to determine whether or not it is necessary to inject correcting product.

EXCLUSIVE AUTO-ADAPTIVE DOSING



> FOR GREATER COMFORT

For the comfort of bathers, the pH of the swimming pool must be kept between 7.0 and 7.6:

- Below this, the water is aggressive.
- Above this, larger doses of disinfectant are needed to maintain healthy water and combat the growth of algae.
- The ideal pH for the swimming pool water is also the average pH of the human body, and more especially the blood, which is between 7.35 and 7.45.

PH SCALE

ACID	IDEAL	ALKALINE
- Irritation to eyes and skin - Corrosion of metal equipment	- Optimum efficiency of water treatment - Perfect bathing comfort	- Alteration of disinfection efficiency - Irritation to eyes and skin - Limescale deposits

DID YOU KNOW?
The pH must be controlled and adjusted, whatever the disinfection system used. As a result, Zodiac pH regulation systems can be used in all types of pools.

ACCESSORIES INCLUDED IN THE PACK

pH Sensor

Buffer solutions kit

Plumbing kit

Wall mounting kit

Suction Pipe

FOR WHICH POOL?

Model	pH Expert
Volume of treated water (temperate climate)	150 m^3
Dosage	Acid or alkaline

DESCRIPTION

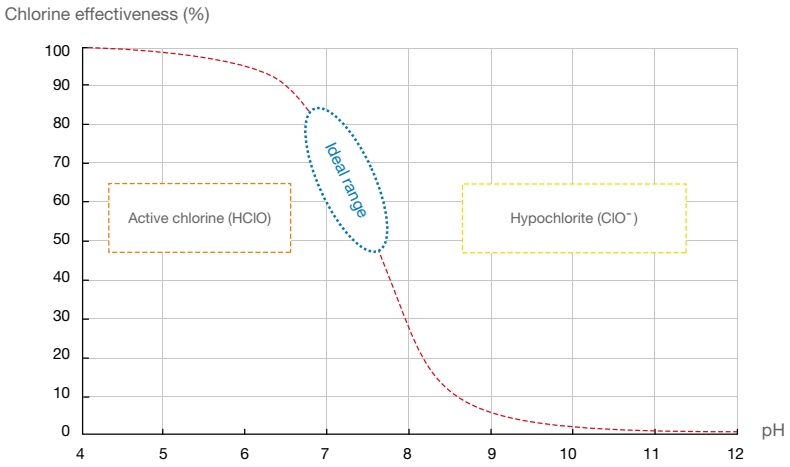
Model	pH Expert
Standard Model	W500708
User interface	1-line, backlit LCD screen
Languages	6 (FR-EN-ES-DE-IT-NL)
Calibration	Semi-automatic, 1 or 2 step(s) (Buffer solutions kit included)
Setpoints	Factory setting: pH = 7,4
Sensor position	Vertical
Safety	Configurable 'OFA' three-level over-feed alarm (settings from 0 to 6 h, default 4 h) Level sensor on intake pipe (equipped with anti-fumes cap)

TECHNICAL SPECIFICATIONS

Model	pH Expert
Sensor type pH or ORP	Combined sensor, simple-junction and simple-porous, Ø12 mm glass body
Reading scale	0,0 - 14,0 pH
Reading accuracy	0,1 pH
Sensor Tolerances	0-60 °C, water speed ≤ 2 m/s
Maximum counter pressure (injection point)	1,5 bar
Peristaltic pH pump flow	1,5 L/h
Fixing collar**	For 50 mm pipes (standard) or 63 mm (accessory)
Protection index	IP65
Size (l x h x p)	19,5 x 23,6 x 8,5 cm
Power supply	220-240 VAC / 50-60 Hz

* Excluding consumable parts that have 1 year warranty (buffer solutions, peristaltic tube, one-way valve)
** not needed if the "POD Kit" option is used.

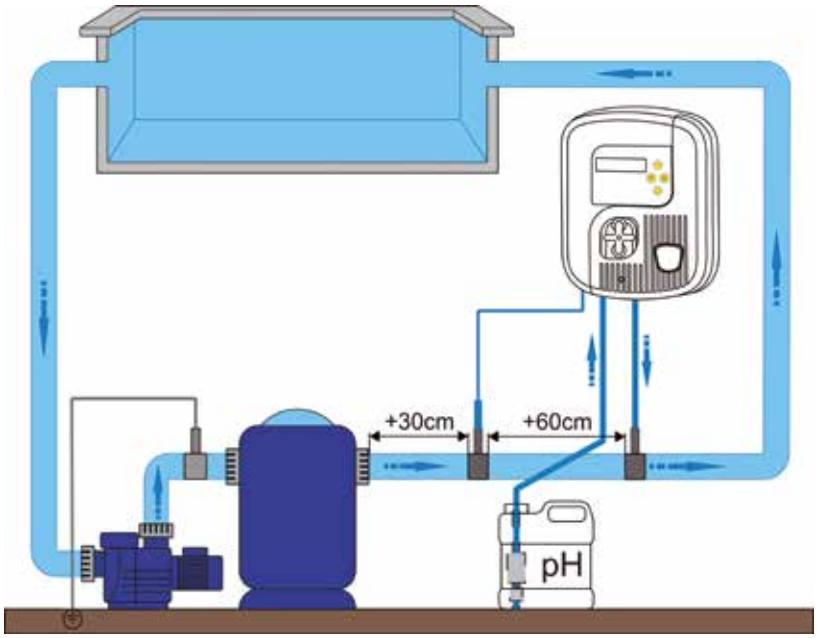
pH value is essential to maintain chlorine effectiveness:



INSTALLATION

- The sensor must be placed more than 30 cm before or after any elbow fittings (otherwise, use the Pod Kit)
- The sensor must be installed vertically (maximum tolerance: 45°) Its cable (BNC type) is 5 m long.
- It is recommended to ground the pool water, so as to avoid parasitic currents.

pH Expert installation diagram



OPTIONAL ACCESSORIES

POD Kit	63mm saddle clamp	pH 4 and pH 7 buffer solutions (x6 + x6)	Earthing anode
R0534900	R0839600	R0824400	R0673800

ORP REGULATION SYSTEMS

For automated chlorination

Zodiac ORP regulation systems incorporate proportional dosing technology to **maintain an ideal chlorine level automatically** for the comfort of bathers. It uses the "ORP" method (also called Redox), otherwise known as measuring the "disinfectant capacity of the water".

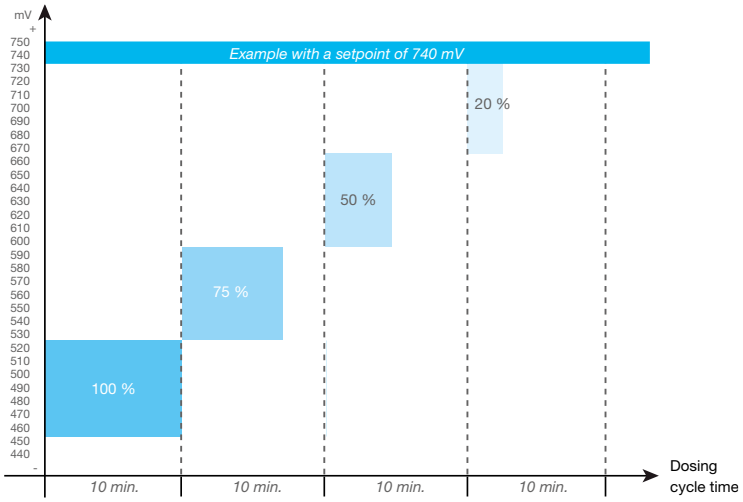
> SAFE, AUTO-ADAPTIVE OPERATION

Depending on the ORP value measured by the sensor, Zodiac® ORP regulation systems will automatically adjust the chlorine level using a peristaltic dosing pump.

The dosing time depends on **the difference between the ORP value of the swimming pool water and the optimum value (set point value).** The quantities of liquid chlorine injected are automatically adjusted to meet the demand for disinfection.

Zodiac® ORP regulation systems are equipped **with an exclusive overdosing safety device (called 'OFA') to prevent excessive injection.**
The safety device is adjustable and operates in 3 steps to determine whether or not it is necessary to inject liquid chlorine.

EXCLUSIVE AUTO-ADAPTIVE DOSING



> FOR GREATER COMFORT

- For the comfort of bathers, the ORP level of the water must be between 600 mV and 750 mV; this is equivalent to about 1.0 mg/L free chlorine at pH 7.4 (variable depending on the stabiliser concentration).
- To maintain optimum water quality, the pH regulation system (pH Expert) is the essential partner to the ORP regulation system. **In this case the** 'POD kit' will be the ideal option for a simple installation and accurate measurement.

DID YOU KNOW?

ORP (and by extrapolation, the chlorine level) can vary depending on several parameters.

For optimum treatment, 5 values must be met:

- pH = 7.0 to 7.6
- TAC (alkalinity) = 8 to 15 °f (or 80 to 150 ppm $CaCO_3$)
- Cyanuric acid (stabilizer) < 30 ppm
- Water temperature = 20°C to 28°C
- Borehole water and rainwater prohibited

It is essential to check and adjust these parameters, as necessary, to ensure optimum operation of the ORP regulation system.

SALT WATER CHLORINATORS

Automatic, easy and efficient disinfection

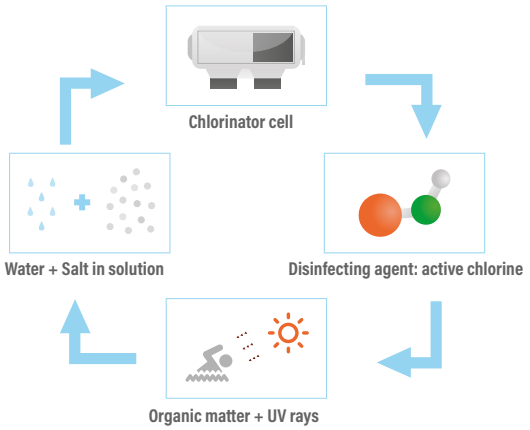
Simple to install and use, salt water chlorinators provide complete treatment with reduced maintenance.

> HOW DOES IT WORK?

The principle of salt electrolysis is simple. The swimming pool water is very slightly saline (from 2 to 4 g/L, meaning from 9 to 18 times less than sea water). By an electrolysis reaction across the cell of the system, chloride ions - from the salt dissolved in the water - are converted to chlorine gas, a powerful disinfectant that dissolves in the water instantaneously. **The resulting active chlorine (HOCl) destroys all the micro-organisms in the cell and provides an adequate level of free chlorine in the pool.** The active chlorine, which is removed by combining with organic matter and under the effect of UV rays in sunlight, is continuously renewed by the cell without action by the user.

For optimum efficiency of the chlorinator, **the pH of the swimming pool must be kept between 7.0 and 7.6.**
All Zodiac® chlorinators have cells with **high quality, long-lasting titanium electrodes,** ensuring peace of mind for the user.

CYCLIC REACTION OF SALT ELECTROLYSIS



REFERENCE POINT
Zodiac® control units and salt chlorinator cells will be repaired or exchanged during the guarantee period, whatever the causes of damage.

SALT WATER CHLORINATORS

Ei²

- + Long lasting
- + Suitable for all installations
- + Easy to install

ACCESSORIES INCLUDED IN THE PACK

Installation Kit

FOR WHICH POOL?

Model	Ei² 12	Ei² 20	Ei² 25
Volume of treated water (temperate climate, 8h/day filtration)	50 m³	90 m³	110 m³
Nominal Chlorine production	12 g/h	20 g/h	25 g/h
Nominal output Amps	2,5 A	4,0 A	5,0 A

DESCRIPTION

Model	Ei² 12	Ei² 20	Ei² 25
Standard Model	WW0000244	WW0000245	WW0000246
User interface	Leds		
Operating modes	Normal; Low (Adjustable cover mode from 0 to 20 %)		
Timer	Controlled by filtration timer		
Polarity reversal	Yes : 5 h		
Required salt level - minimum	4 g/L - 3,0 g/L minimum		
Safety	Low salt' indicator light: Reduced production to protect the electrode 'No flow' indicator light: Production is interrupted as long as conditions are not ideal		
Cell position	Horizontal or vertical		
Plumbing compatibility	DN50 mm, DN63 mm, 1 ½" (48 mm)		

TECHNICAL SPECIFICATIONS

Model	Ei² 12	Ei² 20	Ei² 25
Power supply	220-240 VAC / 50 Hz (mains power cable with moulded plug)		
Working life of cells*	7 500 h (titanium plates, SC6 ruthenium coating)		
Electric power	70 W	110 W	140 W
Minimum flow rate (needed to purge air from the cell)	5 m^3 / h		
Maximum flow rate (limited by pressure drops in the pipe)	18 m^3/h (Bypass mandatory over this level)		
Maximum authorised cell pressure	2,75 bar (KPa)		
Maximum water temperature	40 °C		
Minimum water temperature	5 °C		
Length of the cell cable	1,8 m		
Protection index	IPX5		
Cell size (L x w x h)	16,5 x 22,5 x 12,5 cm		
Control box size (L x w x h)	28,5 x 40,5 x 12,5 cm		

* Under good operating conditions.

INSTALLATION

- With an IPX5 rating, the casing can be installed anywhere, including in the pool area (see IEC 60529 standard).
- The distance between the control unit and the cell is 1.5 m.
- The control unit MUST be linked to the filtration unit. Power supply is cut off when the filter pump is turned off.

eXPERT

Versatile salt water treatment

2 YEAR WARRANTY

UNCONDITIONNAL WARRANTY UNCONDITIONNAL

EASE OF USE

With a large touchscreen and oversized fonts, eXPERT makes it easy to set up and adjust. Check your pool's status at-a-glance with the user-friendly information display.

MAXIMUM VERSATILITY

Available in a wide range of options to treat pool volumes up to 180 m^3, eXPERT guarantees long-lasting water treatment thanks to its sturdy cell.

AUTONOMOUS WATER QUALITY

eXPERT provides full water treatment features with water balance management (pH regulation) and automatic regulation of chlorination (ORP regulation)*.

* Depending on the model.

> DID YOU KNOW ?

BRING CONNECTIVITY WITH IQBRIDGE RS

eXPERT can be remotely controled with iAquaLink+ free app using the optional iQBridge RS for anytime & anywhere management . iQBridge RS is a plug & play WiFi gateway to easily connect eXPERT to the homeowner WiFi network and benefit from iAquaLink+ app control experience.
See "Internet of Pools" section for more details about iQBridge RS and iAquaLink+ app benefits.

iAquaLink COMPATIBLE

WHICH MODELS ?

All eXPERT manufactured starting 2023. The power pack is equipped with a dedicated plug to connect iQBridge RS.
Simply look for the "iAquaLink+ compatible" sticker on the eXPERT carton.

> A UNIQUE INTERFACE TO ADAPT TO EACH NEED

eXO® iQ & eXO® iQ LS

WATER CONTROL WITH A DOSE OF SERENITY

The eXO® salt water chlorinator solutions

The eXO® platform is an efficient and automatic disinfection solution. Easy to use, it offers complete water treatment, controlling the pool's equipment for optimal water quality.

eXO® iQ

eXO® iQ LS

All-in-one control

All pool water quality management functions are centralised in a single interface:

- automatic pH and chlorination regulation (Redox method) with the complementary pH Link & Dual Link modules
- pool device control: filter pump, heater, lighting, etc.

Peace of mind

With its long-lasting electrode and high-quality sensors, the eXO® solution offers optimal water quality all the time. As proof of reliability, the chlorinator comes with a 3-year unconditional warranty[1].

Built-in Wi-Fi

The iAquaLink™ app allows you to have remotely and real-time control of your water quality and your pool's equipment[2] from you smartphone or tablet.

[1] 3 years unconditional (device), 2 years (pH sensor), 1 year (ORP sensor)
[2] Connected to the eXO® solution.

Hydroxinator® iQ

INCOMPARABLY GENTLE, PURE AND CRYSTAL CLEAR WATER

Exclusive magnesium-based chlorinator solution

This solution combines the properties of MagnaPool® magnesium-based minerals with an exceptionally fine filtration system for a natural and incomparably crystal clear water.

MagnaPool® Mineral Pool Science

Hydroxinator® iQ

Gentle water for skin and eyes

MagnaPool® naturally slows the development of chloramines, so you can enjoy gentle water without unpleasant smells or skin and eyes irritation.

A pure crystal clear swimming pool

MagnaPool® provides exceptionally clear water without adding any sanitizing chemicals.

Environmentally- friendly water treatment

Crystal Clear filter media for MagnaPool® swimming pools consists of thousands of pure glass crystals. It is not receptive to bacteria and only requires a short filter backwash.

PATENTED MAGNESIUM WATER TREATMENT

For incomparably gentle, crystal clear water

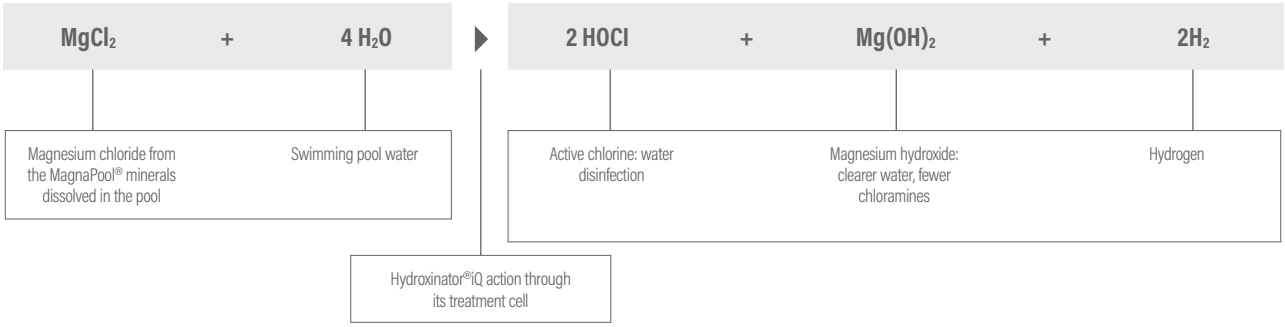
The patented MagnaPool® solution combines the clarifying properties of magnesium with a filtration system of exceptional quality, for a perfectly healthy and balanced, mineral-enriched swimming pool.

> HOW DOES IT WORK?

The MagnaPool® solution combines natural minerals, magnesium and potassium (diluted in the pool), to purify the water while providing an incomparable bathing exerience.

This water treatment solution naturally converts magnesium minerals to magnesium hydroxide, a gentle and silky substance that acts as a clarifier in order to retain all the impurities, even the finest, in the water. Without impurities, bacteria no longer grow and are removed from the pool.

The MagnaPool® Hydroxinator® iQ then generates non-synthetic (or inorganic) chlorine: **this phenomenon is hydroxination.** The resulting chlorine, without addition of chemical products, protects the integrity and quality of the water, without harming the environment in which it is used.



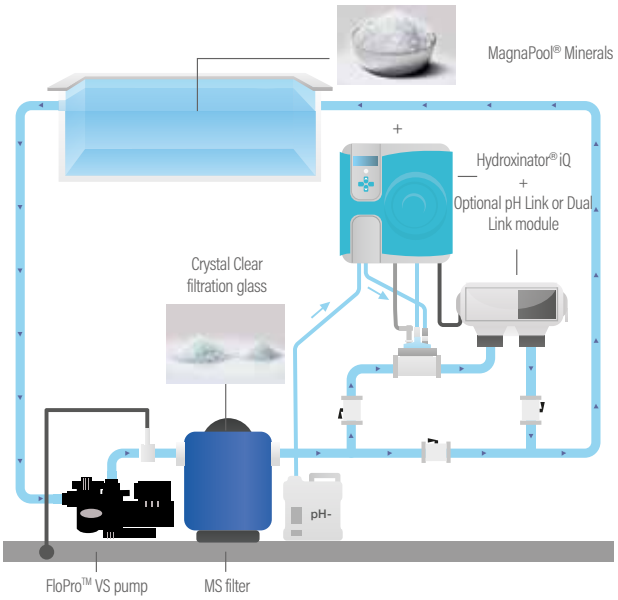
DID YOU KNOW?

MagnaPool® minerals do not contain any sodium chloride («salt» or NaCl). The MagnaPool® minerals do not produce soda, a very basic element that affects negatively the water balance.

STANDARD INSTALLATION

The patented MagnaPool® solution comprises a Hydroxinator® iQ with its treatment cell, Crystal Clear glass filter medium and MagnaPool® minerals. Each of these elements is needed for the MagnaPool® solution to function; they cannot be sold separately.

To obtain a complete MagnaPool® eco-system, the assembly can be combined with Zodiac MS filter and variable speed pump.



MagnaPool® ECOSYSTEM

REFERENCE POINT

The MagnaPool® solution comprises the Hydroxinator® iQ, MagnaPool® minerals and the Crystal Clear filtration crystals.
Zodiac® equipment is compatible with and/or additional to the MagnaPool® system.
Identify all the products in the MagnaPool® ecosystem using this pictogram.

> THE BENEFITS OF THE MAGNAPOOL® SOLUTION

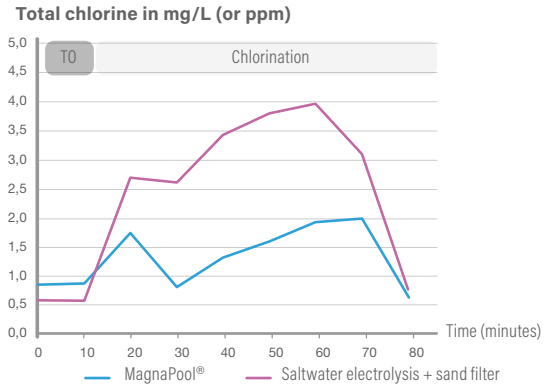
A PURE, CRYSTAL CLEAR SWIMMING POOL

MagnaPool® provides exceptionally clear water without adding chemical disinfection products.
This intense clarity is made possible by combining two innovative factors. Firstly, the powerful natural clarifying properties of magnesium in MagnaPool® minerals.
And secondly, exceptionally fine filtration using Crystal Clear filtration media.

Mg 12 24 Mineral Pool Science

GENTLE WATER FOR SKIN AND EYES

Compared with conventional water treatment systems (manual chlorine addition or salt electrolysis + sand filter), MagnaPool® naturally slows the development of chloramines, molecules that can cause an unpleasant chlorine smell and eye or skin irritation.

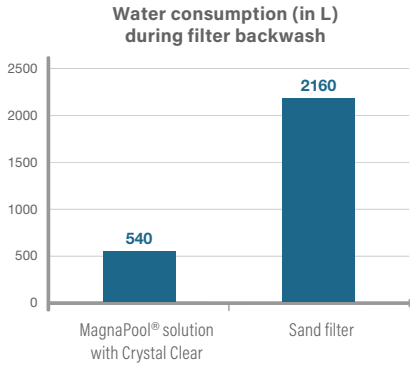


Zodiac laboratory measurement of chloramines (or combined chlorine) after adding organic matter to two pools at the same time, one treated with salt electrolysis + sand filter and the other with MagnaPool®.

ECO FRIENDLY

ENVIRONMENTALLY-FRIENDLY WATER TREATMENT

Crystal Clear filter media for MagnaPool® swimming pools consist of thousands of pure glass crystals.
Unlike sand, it is not receptive to bacteria and only requires a short filter backwash.
Thus, water consumption is reduced by up to 75%.



Value for a pool equipped with a 640 mm filter and a 1.0 HP (or 0.75 kW) pump.

DID YOU KNOW?
Magnesium takes part in more than 300 enzymatic reactions and cell growth in the human body, such as nerve transmission, skin renewal and cell relaxation.
The chlorophyll molecule, basic plant component, is formed around a magnesium atom.

MAGNAPOOL®

Hydroxinator® iQ

+ Unrivalled swimming comfort
+ Crystal-clear water: clarifying effect of magnesium and glass media
+ Eco-friendly: use less water and energy, fewer chemical additives
+ Upgradable: optional pH / ORP regulations (pH Link or Dual Link modules)

FOR WHICH POOL?

Model	Hydroxinator® iQ 10	Hydroxinator® iQ 18	Hydroxinator® iQ 22	Hydroxinator® iQ 35
Volume of treated water (temperate climate, 8h/day filtration)	40 m^3	70 m^3	100 m^3	160 m^3
Nominal Chlorine production	10 g/h	18 g/h	22 g/h	35 g/h
Nominal output Amps	2,8 A	3,6 A	5,0 A	7,2 A

DESCRIPTION

Model	Hydroxinator® iQ 10	Hydroxinator® iQ 18	Hydroxinator® iQ 22	Hydroxinator® iQ 35
Standard Model	WW000172	WW000173	WW000174	WW000175
User interface	4-line, backlit LCD screen			
Languages	11 (FR-EN-DE-ES-IT-NL-PT-CZ-SL-HU-SW)			
App control	iAquaLink			
Operating modes	normal, Boost (100 %); Low (Adjustable cover mode from 0 to 30 %)			
pH Regulation	Yes, option (pH Link)			
ORP Regulation	Yes, option (Dual Link)			
Equipement control	Filter pump (single or Zodiac® variable speed) 2 auxiliaries outputs for: heater control (temp setpoint and heating priority), light control (with dedicated Zodiac® NL LED color selection) any other device			
Timer	24 h clock / 2 chlorination timers 2 single speed or 4 Zodiac variable speed filter pump timers 1 timer per additional equipment			
Polarity reversal	Yes: adjustable from 2 to 8h (Factory setting= 5h)			
Recommended minerals rate - minimum*	4 g/L - 3,3 g/L minimum			
Safety	Temperature sensor: Chlorine production lowered in case of cold water to protect the electrode 'Low salt' indicator light: Reduced production to protect the electrode 'No flow' message: Production is interrupted as long as conditions are not ideal Mechanical flow switch			
Cell position	Horizontal			
Plumbing compatibility	DN50 mm, DN63 mm, 1 ½" (48 mm)			

* Mineral levels are measured using the usual salinity testers. Add 5 x 10kg bags per 10 m^3 to measure a concentration of 4 g/L (4000 ppm).

TECHNICAL SPECIFICATIONS

Model	Hydroxinator® iQ 10	Hydroxinator® iQ 18	Hydroxinator® iQ 22	Hydroxinator® iQ 35
Working life of cells*	10 000h (titanium plates, specific SC6 ruthenium coating)			
Electric power	Max 200 W			
Minimum flow rate (needed to purge air from the cell)	5 m^3 / h			
Maximum flow rate (limited by pressure drops in the pipe)	18 m^3/h (Bypass mandatory over this level)			
Maximum authorised cell pressure	2,75 bar (KPa)			
Maximum water temperature	40 °C			
Minimum water temperature	5 °C			
Length of the cell cable	1,8 m			
Protection index	IP43			
Cell size (L x w x h)	32,0 x 13,5 x 11,0 cm			
Control box size (L x w x h)	32,0 x 37,0 x 12,0 cm			
Power Supply	220-240 VAC / 50-60 Hz			

INSTALLATION

- The control unit is installed in the plant room or beneath a shelter.
- The distance between the control unit and the cell is 1.5 m (the cell cable is 1.8 m long)
- The control unit should be permanently connected to an electrical source (by using internal timers)

NATURE² MINERAL PURIFIERS

Zodiac® mineral purifiers treat and clarify water using fewer chemical products.

> HOW DOES IT WORK?

Nature² technology combines **recognized disinfection and purification efficiency of certain mineral components** and the unique properties of a material used in high-tech industries: ceramic (micro-porous material).

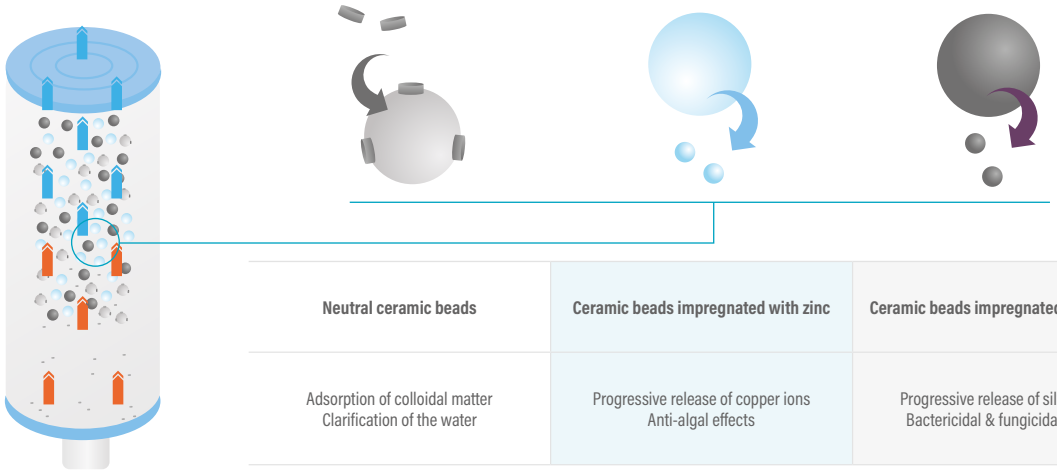
The ceramic beads retain micro-particles (colloidal matter) not stopped by the filter, to clarify the swimming pool water.

Zinc particles, coated on some ceramic beads, give Nature² cartridges algicidal properties.

Silver particles, coated on other ceramic beads, offer bactericidal and fungicidal (disinfection) properties.

The combined action of these 3 properties enables Nature² systems to use **up to 4 times less chlorine** compared to conventional manual treatment: 0.5 ppm free chlorine is enough (depending on conditions of use).

OPERATION OF THE NATURE² SPA CARTRIDGE



Neutral ceramic beads	Ceramic beads impregnated with zinc	Ceramic beads impregnated with silver
Adsorption of colloidal matter Clarification of the water	Progressive release of copper ions Anti-algal effects	Progressive release of silver ions Bactericidal & fungicidal effect

> AN ENHANCED BATHING EXPERIENCE

- Requiring up to 4 times less disinfectant, Nature² systems clearly enhance bathing (less odour, no more unpleasant sensations on the skin, etc.).
- By using fewer chemical products, pH is potentially less disturbed. The water balance, a measure of efficient disinfection treatment, is consequently more stable.
- Depending on models and needs, Nature² can also be used with chlorine, active oxygen, a UV system or ozonator.

ALL TYPES OF DE SPAS

EASY INSTALLATION

ACCESSORIES INCLUDED IN THE PACK

Positioning pins

FOR WHICH POOL?

Model	Nature² Spa Cartridge - 6-packs display
Volume of treated water (temperate climate)	0 - 4 m^3

DESCRIPTION

Model	Nature² Spa Cartridge - 6-packs display
Standard Model	WN000001
Type of disinfectant to use	Stabilised organic chlorine, "dichlor" or "trichlor" type (tablets or granules), calcium hypochlorite inroganic chlorine, liquid chlorine, active oxygen (liquid or powder) or UV treatment may be used. Compatible with salt water chlorination.
Cartridge life-span	6 months from the time the cartridge is placed in the purifier
Compatibility	Nature² Spa is not compatible with bromide and its derivatives, chlorine free disinfectants of the PHMB types (or "biguanides"), products containing copper, stain remover products and metal blockers.

TECHNICAL SPECIFICATIONS

Model	Nature² Spa Cartridge - 6-packs display
Water flow minimum / maximum	Adapted to all spa flow rates
Maximum operating temperature (water)	35 °C
Installation	Inside the spa cartridge filter
Cartridge weight	100 g
Minimum order quantity	1 x 6-pack display

INSTALLATION

- The Nature2 cartridge slides straight into the spa's cartridge filter. Use the positioning pins if necessary, so that the cartridge is positioned in the middle of the filter.

Before any use, ensure it is really needed, especially in places frequented by the general public.
Whenever possible, give preference to alternative methods and products presenting the lowest risk to human and animal health and to the environment.

SUCTION AUTOMATIC POOL CLEANERS

Splasher

DESCRIPTION

Splasher is an hydraulic suction cleaner. It's using the pool filtration system to work and collect the debris in the pump pre-filter.

It is simply connected to the skimmer vacuum plate and works at the same time than the pool filtration.

Its membrane system ensures an optimum and quieter performance.

- Cleaning areas: floor and walls.
- Pool floors types: flat or gentle slopes.
- Pool size: up to 9m length.
- Filter pump minimum required pressure: ½ HP.
- Included in pack : 9,6m hose.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³

Mamba

DESCRIPTION

Mamba is an hydraulic suction cleaner. It's using the pool filtration system to work and collect the debris in the pump pre-filter.

It is simply connected to the skimmer vacuum plate and works at the same time than the pool filtration.

The Mamba's dual suction design ensures the pump and filter are never starved of water. The adjustable bypass valve allows for operation from small to large capacity filtration pumps.

- Cleaning areas: floor and walls.
- Pool floors types: flat or gentle slopes.
- Pool size: up to 9m length.
- Filter pump minimum required pressure: ½ HP.
- Included in pack : 12 x 80 cm hose sections, flow regulator, universal adapter.

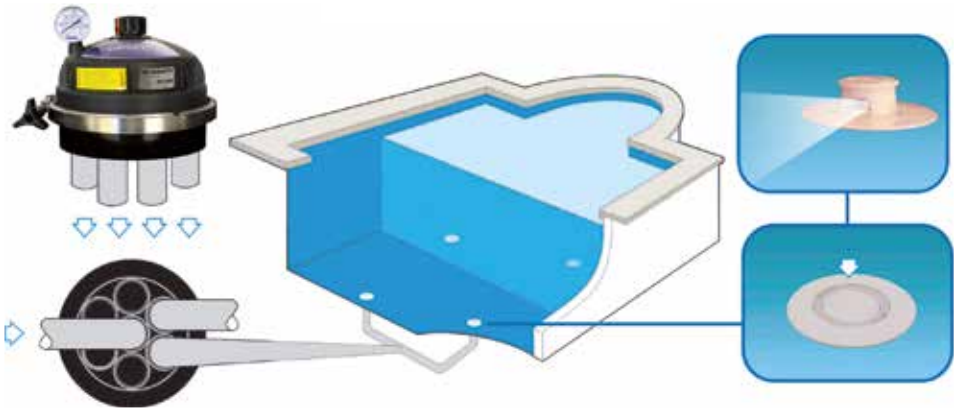
Integrated cleaning system

- The Net'N'Clean is an efficient cleaning system, consisting of a six outlet distributor valve that receives clean water from the filter and distributes it sequentially to a series of nozzles installed on the pool floor.
- This type of distribution from the bottom keeps the particles in suspension so they are collected by the skimmer and main drain and retained by the filter. It helps improve the use and efficiency of chemical products injected in the return piping and reduces heating costs by returning hot water along the bottom.



Net'n'Clean distributor valve Ø 50 mm

DESCRIPTION

Six way distribution valve. This valve is part of the Net'n'Clean cleaning system which is integrated in the pool floor. It distributes water sequentially through its various branches. Made of plastic and AISI 316L it has high resistance to salt water. Maximum working pressure: 1.4 bars. Maximum flow: 15 m^3/h. Connections: 7 x Ø 50 mm. 2 pop-up nozzles for branch recommended.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Net'n'Clean distributor valve: European model	21257	1	1.7	0.015

Net'N'Clean distributor valve Ø 63 mm

DESCRIPTION

Distributor valve optimized for greater hydraulic performance. Maximum working pressure of 1.5 bars. Maximum flow of 25 m^3/h. Connections: 7 x Ø 63 mm or 7 x Ø 75 mm. From 2 to 5 nozzles per branch.

Liner

65232

Net'N'Clean nozzles

DESCRIPTION

Range of Net'N'Clean nozzles with four different outlets. S4 is recommended for pool floor and S1 or S2 for steps. Designed for concrete pools with glass tiling, liner pools and polyester pools. For in-ground pools, both adjustable and fixed nozzles are available, and for liner pools there are self-tapping nozzles or nozzles with metal inserts.

Ø 50 mm (2")				
30 m	01379	1	15.0	0.240

Hose roller

DESCRIPTION

For hoses of up to 15 metres.

	Code	Standard Pack	Standard weight in kg	Standard volume in m³
Hose roller	66042	1	2.4	0.05

3 TECHNOLOGIES FOR POOL CLEANING

To clean a pool, multiple parameters must be considered when **chosing an automatic cleaning equipment**: shape and lining of the pool, pool size, cleaning expectations, etc.

High technology Zodiac® cleaners match the different features of a pool, the cleaning time and every budget.

3 types of technologies are currently available: electric cleaning, hydraulic cleaning and pressure cleaning.

> ZODIAC® ELECTRIC ROBOTIC CLEANERS: A HIGH-PERFORMANCE, STAND-ALONE SYSTEM

Separate from the filtration system and simply connected to the mains power, they are Plug&Play and **stand-alone equipment.**

With no action required and **programmable** (cleaning time, area to be covered, etc.), they reach every corner of the pool, climb the walls, clean the water line and collect impurities in their own filter basket.

There are different models for all types of pools and spas.

> ZODIAC® HYDRAULIC ROBOTIC CLEANERS: A SIMPLE AND AFFORDABLE SOLUTION

Hydraulic robotic cleaners can be easily installed in the pool filtration system. In fact, they work on the energy produced by your pump.

Vacuum cleaners capture debris by suction and accumulate it in the pump pre-filter.

More affordable than electric cleaners, hydraulic cleaners are connected to a pool vacuum point or a skimmer and are **particularly suitable for the simplest pools** (with a flat floor or gentle slope or above-ground pools).

> AUTOMATIC POLARIS® CLEANERS: THE POWER OF A HIGH-PRESSURE CLEAN

These cleaners **use the swimming pool's filtration pump as a power source** for even more efficient and precise high-pressure cleaning.
Instead of being connected to the suction, pressure cleaners are connected to the pool water return, using the vacuum point converted to discharge.
In this way, the pool skimmers remain active and maintain full surface filtration capacity.

Pressure cleaners work with a booster pump and have a canister that collects debris sucked in, preventing the pump pre-filter from becoming blocked.

To optimise the efficiency of these accessories, it is essential to **ensure they are compatible with the pool lining**, filtration equipment, environment, etc.

ELECTRIC POOL CLEANERS

A stand-alone and efficient solution

The electric robots combine **the best of Zodiac® technology.**

Thanks to the embedded cyclone suction, a patented Zodiac® technology, **the cleaning performance is maintained throughout the cleaning cycle**. They even capture the finest debris without filter clogging.

Separate from the filtration system, these Plug&Play devices trap debris in their own filter basket, making them stand-alone.

> TORNAX, EFFICIENCY PURE & SIMPLE

The Tornax robotic cleaner guarantees **efficient cleaning** of your pool, completely autonomously, thanks to its smart movement and its rotating brush, which removes debris before collecting it. Tornax is the **lightest** (5.5 kg) of all the Zodiac® robotic cleaners. It is feather-light, meaning it is quick, easy and **effortless** to operate. Tornax is designed not only to be easy to use but also easy to maintain, as the filter can be accessed from the top so it can be rinsed without touching the debris.

> VOYAGER™, EXCEPTIONAL AGILITY

With its patented cyclonic suction, VOYAGER™ range adapts to all pools and all coatings. Thanks to **embedded sensors** such as gyroscope or accelerometer, the robotic cleaner offers **excellent coverage of each pool**. Also remotely accessible via the iAqualink® application. Its helical brushes, its **dual-stage filter canister** (60 and 150 microns) and its large suction inlet of 23cm allow a thorough cleaning of all areas of the pool.

> VORTEX™ PRO 4WD, ULTIMATE POWER IN A 4 X 4 VERSION

Robotic cleaners from the Vortex™ PRO 4WD range are equipped with Zodiac® patented **extra-powerful and long-lasting suction**. Equipped with **4-wheel drive**, these robotic cleaners are truly all-terrain: they adapt to all kinds of surfaces, perfectly grip the walls and get over obstacles more easily. Most of Vortex™ PRO 4WD robotic cleaners also come with **Lift System** technology, so they are lighter when being removed from water (20% less effort).

> ALPHA iQ™, ULTRA-EFFICIENCY COMBINED WITH INTELLIGENCE

With its Sensor Nav System™, the ALPHA iQ™ range identifies the configuration of your pool **to optimise movements** and cleaning time. The patented cyclone suction garantees **extremely powerful and long-lasting suction**. Thanks to its patented **Lift System**, ALPHA iQ™ is lighter when removing it from the water. Monitor cleaning progress at any time through the **intuitive interface** of the iAqualink® application. ALPHA iQ™ is **upgradeable** thanks to possible optimisations and automatic remote updates.

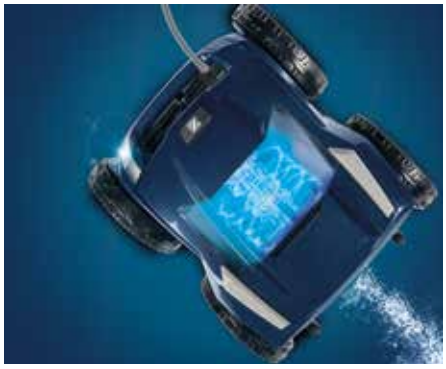
CYCLONIC SUCTION

Patented technology for powerful cleaning

> HOW DOES IT WORK?

Thanks to its unique design, Vortex cleaners feature **Cyclonic Suction** : the flow is **keeping debris in suspension inside the filter** and allows a longer lasting suction while **limiting the clogging.**

Robotic cleaners equipped with cyclonic suction can be found here:
VOYAGER™ , Alpha iQ™



LIFT SYSTEM

Patented innovation for easier removal from the water

> 20% LESS EFFORT

The robotic cleaner positions itself on the chosen wall and cleans right up to the water line. Then a powerful waterjet propels it from the water: **which means you can remove the robot from the water with just 20% of the effort**.

Robotic cleaners equipped with Lift system:
RE 4600 iQ, RE 4700 iQ, RA 6300 iQ,
RA 6500 iQ, RA 6700 iQ, RA 6800 iQ and RA 6900 iQ

SENSOR NAV SYSTEM™

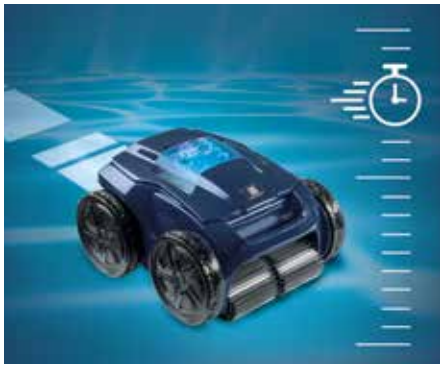
Smart navigation system for efficient and customized cleaning

> PERSONALISED CLEANING OF EACH POOL

Sensor Nav System™ gathers different embedded features which enable the robotic cleaners to learn all about each pool and to adapt its cleaning in the smartest way.

- Recognition and analysis of the pool dimensions and shape to provide an optimized navigation pattern and cleaning time for each pool.
- Focusing on common dirty areas such as bottom of the walls or flat areas of the pool

Robotic cleaners equipped with Smart Nav system™:
Alpha iQ™



SWIVEL

Avoid cable tangling

> HOW DOES IT WORK?

Automatic swivel system prevents cable tangling during cleaner operation in the pool.

The cleaner efficiency is optimized and the cable storage is easier.

Robots equipped with Swivel: **RE 4700 iQ, RA 6300 iQ, RA 6500 iQ, RA 6700 iQ, RA 6800 iQ** and **RA 6900 iQ**

4-WHEEL DRIVE (4WD)

Effective cleaning of all surfaces

> GETTING OVER OBSTACLES MORE EASILY

Equipped with **4-wheel drive**, robots from the **Vortex™ PRO 4WD** and **ALPHA iQ™** ranges adapt to all situations.

> OPTIMAL COVERAGE AND PERFECT GRIP

Thanks to their excellent grip, robots from the Vortex™ **PRO 4WD** and **ALPHA iQ™** ranges get into the tiniest corners of the pool and clean **all kinds of surface**. The robots ensure **the pool is cleaned perfectly**.

Robotic cleaners equipped with 4 Wheel-drive:

RA 6300 iQ, RA 6500 iQ, RA 6700 iQ, RA 6800 iQ and **RA 6900 iQ**

DUAL STAGE FILTRATION

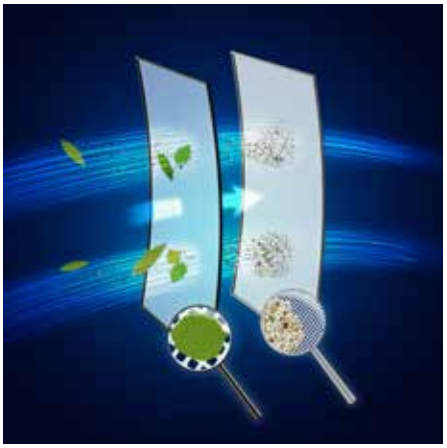
Finer filtration and long lasting suction

> 2 FILTERS FOR LONG LASTING SUCTION AND FINER DEBRIS PICK UP

These 2 combined filters offer a larger mesh surface that a standard filter which allows to postpone the clogging effects. This unique design also allows the ability to use the larger mesh filter alone, which can be very useful at the beginning of the season

> HOW DOES IT WORK?

2 imbricated filters : the dirty water flows through a coarse layer first (150µ) and a finer one after (60µ). The coarse filter will retain the larger debris and the finer one will then allow a finer filtration.



Robotic cleaners equipped with Dual-stage filtration:

RE 4300, RE 4400 iQ, RE 4600 iQ, RE 4700 iQ, RA 6800 iQ and **RA 6900 iQ**

FOR WHICH TYPE OF POOLS?

Types of pools	Private in-ground pools and above-ground pools with rigid walls, maximum 8 x 4 m
Pool shapes	Rectangular, oval, free shape
All Floors	Flat, gentle slope, composite slope
Pool surfaces	Liner, polyester hull, reinforced PVC, painted concrete, Tiles *

DESCRIPTION

Cleaning areas	Floor
Number / Length of cleaning cycles	1 cycle - Floor : 2h30
Power supply	Autonomous, connected to 230V mains supply before the transformer
Steering	Pre-programmed
Drive system	Tracks - 1 motor
Transmission	Gear transmission
Brushes	Yes - front brush
Transparent window	No
Safety	Deck system, out of water safety, diagnostic, electronic motor protector
Filtration system / access	Rigid Filter canister with access over the cleaner
Units / pallet	36

TECHNICAL SPECIFICATIONS

Number of motors	2
Control box supply	100-240 VAC ; 50 / 60 Hz
Power supply	30 VDC
Operating power	100 W
Cable length / Hose length	14 m
Cleaner size (L x W x h)	37 x 29 x 30 cm
Packaging size (L x W x h)	56 x 37 x 38 cm
Cleaner weight	5,5 kg
Packaging weight	10 kg
Filtering surface and level	480 cm^2 / 100µ
Filtering capacity	3 L
Inlet suction size	17 cm

OPTIONAL ACCESSORIES (NOT INCLUDED)

ACCESSORIES INCLUDED IN THE PACK

Control box

Fine Filter canister 100µ

Control box base

FOR WHICH TYPE OF POOLS?

Types of pools	Private in-ground pools and above-ground pools with rigid walls, maximum 9 x 4 m
Pool shapes	Rectangular, oval, free shape
All Floors	Flat, gentle slope, composite slope, diamond shape
Pool surfaces	Tiles, liner, polyester hull, reinforced PVC, painted concrete

DESCRIPTION

Cleaning areas	Floor / walls / waterline
Number / Length of cleaning cycles	1 cycle : - Floor / walls / waterline : 2h
Cleaning cycles	1
Timer	No
Power supply	Autonomous, connected to 230V mains supply before the transformer
Steering	Pre-programmed
Drive system	Tracks - 2 motors
Transmission	Gear transmission
Pressure sensor	No
Brushes	Yes - front brush
Lift System	No
Transparent window	No
Full filter indicator	No
Remote control	No
Water temperature measurement	No
Safety	Deck system, out of water safety, diagnostic, electronic motor protector
Filtration system / access	Rigid Filter canister / Top access
Units / pallet	20

TECHNICAL SPECIFICATIONS

Number of motors	3
Control box supply	200-240 VAC ; 50 / 60 Hz
Power supply	30 VDC
Operating power	150 W
Cable length / Hose length	15m
Cleaner size (L x W x h)	43 x 40 x 30 cm
Packaging size (L x W x h)	56 x 56 x 37 cm
Cleaner weight	8 kg
Packaging weight	14kg
Filtering surface and level	526 cm² / 100µ
Filtering capacity	4L
Inlet suction size	23 cm

OPTIONAL ACCESSORIES (NOT INCLUDED)

Main canister 200µ for single filter	Main canister 150µ for dual stage filter	Over canister 60µ for dual stage filter	Protective cover	Trolley
R0897700	R0897600	R0898100	R0568100	R0639500

Types of pools	Private in-ground pools and above-ground pools with rigid walls, maximum 15 x 7 m
Pool shapes	Rectangular, oval, free shape
All Floors	Flat, gentle slope, composite slope, diamond shape
Pool surfaces	Tiles, liner, polyester hull, reinforced PVC, painted concrete

DESCRIPTION

Cleaning areas	Floor / walls / waterline
Number / Length of cleaning cycles	Multiple from 0h30 to 3h30 with preset cycles: - Quick: floor only 1h15 - Smart: floor/ walls / waterline (calculated time) - Ultra: floor / walls / waterline (2h45) - Waterline only: 0h45
Timer	7-days
Power supply	Autonomous, connected to 230V mains supply before the transformer
Steering	Pre-programmed
Drive system	4 wheel drive - 2 motors
Transmission	Gear transmission
Pressure sensor	Yes
Brushes	Yes (Contact + Brushes)
Lift System	Yes
Transparent window	Yes
Full filter indicator	Yes
Remote control	Remote control mode (with app)
Water temperature measurement	Yes (info in app)
Safety	Deck system, out of water safety, diagnostic, electronic motor protector
Filtration system / access	Rigid Filter canister with access over the cleaner
Units / pallet	16

TECHNICAL SPECIFICATIONS

Number of motors	3
Control box supply	200-240 VAC ; 50 / 60 Hz
Power supply	30 VDC
Operating power	150 W
Cable length / Hose length	21m with Swivel
Cleaner size (L x W x h)	43 x 48 x 27 cm
Packaging size (L x W x h)	56 x 56 x 46 cm
Cleaner weight	10 kg
Packaging weight	20,2 kg
Filtering surface and level	1180 cm² / 60µ
Filtering capacity	5 L
Inlet suction size	24,5 cm

OPTIONAL ACCESSORIES (NOT INCLUDED)

DIAGNOSTIC TOOLS

DIAG BOX

+ Simple system with display for off-line use (without a PC)
+ Possible out-of-water testing in off-line mode
+ Can be connected to a PC for full diagnostic check
+ Multiple light panel provided with colour coding for all products

WHICH PRODUCTS?

All Vortex™ products (including Vortex™1) All Tornax™
All CyclonX™ products
Lazernaut NT, Cybernaut™ NT (2010 ONWARDS)

TESTED ELEMENTS?

In off-line mode: box/motor block/cable/remote control

Voyager/XA Type/CNX, Alpha iQ platforms cannot be diagnose with the Diag Box.
The diagnostic must be performed with its own control box (by entering in Diagnostic mode. See details in the technical procedure or with an Alpha iQ control box which diag Alpha iQ & Voyager/XA Type/CNX models too).

PRODUCT REFERENCE

Product reference: R0685300

Robot type	Elements to be tested	Type of cable to be connected
CyclonX™	Robot	GREY adapter
	Control unit	BLUE adapter
Vortex™ TornaX	Motor block	BROWN adapter
	Robot	Robot floating cable
	Control unit	GREEN adapter
Vortex™1	Robot	RED adapter
Lazernaut, Cybernaut™ NT (>2010)	Robot (via robot control unit)	YELLOW adapter

DIAG CABLE MOTOR BLOCK FOR SELF-DIAGNOSABLE PLATFORMS

WHICH PRODUCTS?

Brown adapter (identical to the one supplied in the Diag box) to diagnose the motor block of models of Alpha iQ™ range by connecting the motor **directly to the control box of the cleaner.**

PRODUCT REFERENCE

Product reference: R0616900

WHICH PRODUCTS?

White adaptator (identical to the one supplied in the Diag box) to diagnose the motor block of models of Voyager/XA Type/CNX ranges by connecting the motor directly to the control box of the cleaner

PRODUCT REFERENCE

Product reference: R0616900

SPABOT™

THE FIRST AUTOMATIC CLEANER FOR SPAS

FREEDOM TO MOVE

RS 0800

EFFORTLESS SPA CLEANING

The very first automatic cleaner for residential spas. Spabot is a cordless robot that is operating thanks to a rechargeable Lithium-Ion battery. The LEDs indicate the level of charge and the state of the cycle.

OPTIMAL COVERAGE

Spabot cleans efficiently the floor, seats and waterline within 60 minutes. It is equipped with a 1L filter basket that provides a filtration of 100 microns, to capture all types of debris.

EASE OF USE

With a weight of 2,5 kg, Spabot is compact and light for easy handling and retrieval from the spa. It floats at the end of its cycle so that you can easily grab it. The transparent window allows a good visibility of the debris, and you can easily remove the filter canister thanks to its top access.

FREEDOM TO MOVE

STANDARD INSTALLATION

- The suction cleaner is connected directly to the vacuum point or skimmer. No electrical connection required.
- The ideal hose length for the pool equals the greatest distance that the cleaner can cover in the pool from the connection point (skimmer) to the farthest corner of the pool, plus a 1 metre section.
- For optimal installation, perform a flow test and adjust the flow rate using an adjusting valve.

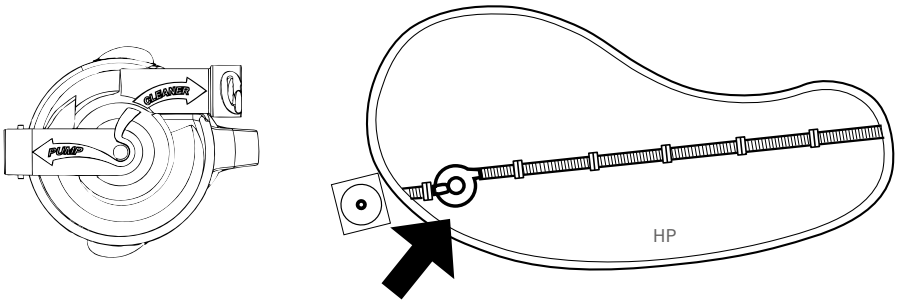
Packaging weight	1,3 kg

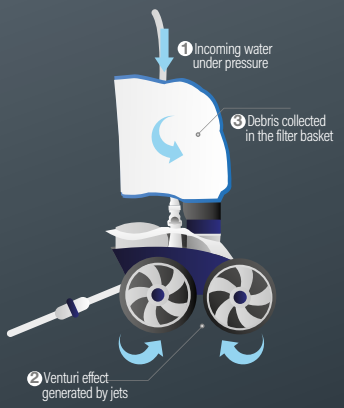


Install at the first hose connection closest to skimmer/or suction line.
Ensure correct orientation using guides (Pump/Cleaner) on Leaf Catcher lid.

> Polaris®
The high pressure cleaner

The cleaner sucks in debris using a physical principle called **'Venturi effect',** which is produced inside the machine and **converts the incoming water into a powerful suction current.**

This characteristic provides maximum efficiency in the minimum time.



EQUIPMENT NEEDED

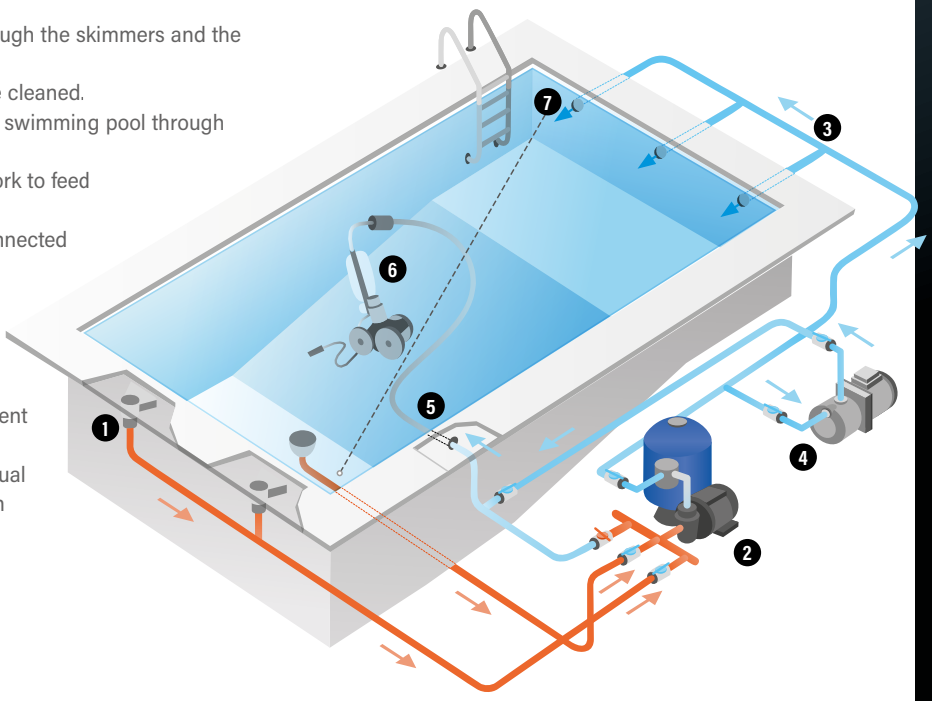
- The pipes of the vacuum point must be made of RIGID 16 bar PVC and not flexible material
- Booster, minimum 1 HP coupled to filtration

For optimum operation, advise your customers to equip their pools with an electrical programming box and a Polaris® booster. This guarantees complete compatibility and ideal suction power.

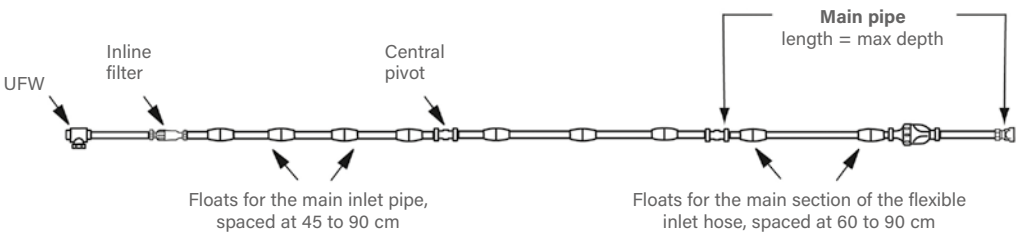
- Minimum operating pressure 1.8 bar

STANDARD INSTALLATION

1. Water is sucked by the pump through the skimmers and the floor drain.
2. The water is sent to the filter to be cleaned.
3. The water is returned clean to the swimming pool through the return discharges.
4. A detour is created on this pipework to feed the booster.
5. Polaris® pressure cleaners are connected to the vacuum point converted into return discharge.
6. The Venturi effect generated by the jets converts the incoming water into a powerful suction current and enables the cleaner to move.
7. The length of the pipe must be equal to the distance between the return pipe (5) and the furthest point (7).



INSTALLATION OF THE PIPE



PRESSURE CLEANER

Polaris 280

+ 2 jets, ultra-powerful suction

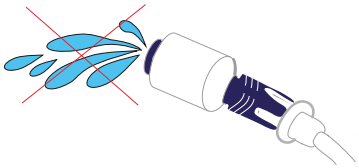
Packaged weight	39 g

GENERAL SPECIFICATIONS

Installation	By the user, on the end of the flexible hose of the pressure cleaner



In the water :
The Trail Sweep Pro® side inlets are used to suck in the water which is re-injected by Venturi effect into the diffuser :
- Increased flow rate
- Optimised removal of debris

Side inlets for water suction or air suction

Diffuser for water dispersion

Out of the water :
As soon as these inlets emerge from the water, the air which is sucked in cuts the injection of water to avoid water being sprayed outside the pool.

Polaris Booster Pump & Control box

+ All water treatment adapted (sea water, chlorine water, demineralized water...)
+ Distance from the pool up to 20 meters

Energy efficiency

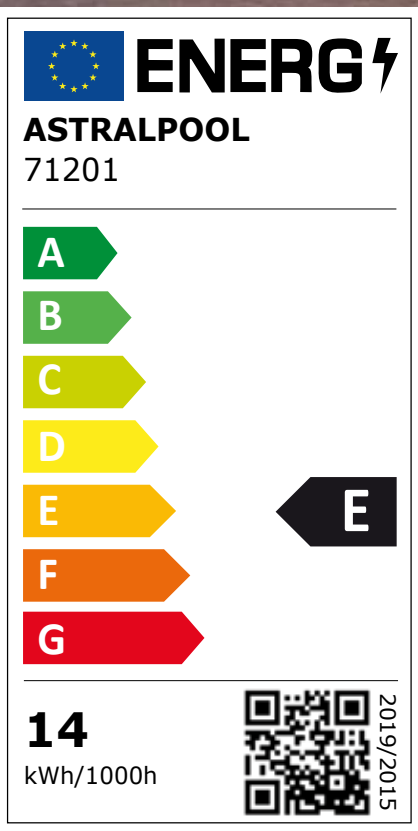
New European regulation of energy labeling for lamps and projectors

NEW ENERGY EFFICIENCY LABEL FOR LIGHTING

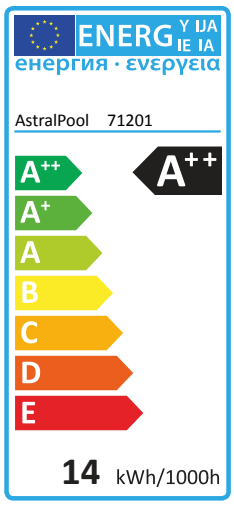
The European Union launches the European Regulation EU 2019/2015 on new energy efficiency labeling in lamps and projectors that starts on September 1st, 2021 and repeals the European Regulation EU 874/2012.

The new Energy Efficiency label allows:

- Providing more information to the installer and customer. Thanks to the new QR code will access the European EPREL base, where the characteristics of the product are available.
- Carrying out a new energy classification promotes evolution of lighting technology.
- Greater control of products manufactured in the EU, with the QR code.



New label



Old label

The new classification must be marked on the unit packagings with the label, and in catalogs and product data sheets with the symbol below.

LumiPlus HIGH EFFICIENCY WHITE LIGHT DC projectors

Lumiplus white light DC projectors are 24Vac.

Advantages of DC vs AC projectors:

- High energy efficiency
- Incudes power pack
- Voltage drop reduction, the section of the electrical cable can be smaller than the AC projectors
- Supplied power pack protects projectors from power surges

To complete the installation of these projectors it is needed to choose the support, that is the niche, inlet, or corresponding fixation. You will find them in page 441.

AstralPool LumiPlus is the most extensive family in the market of underwater spotlights for public, commercial and residential pools.

The entire LumiPlus range is made of high-quality LEDs and electronic components, and is manufactured entirely in the EU to European quality standards.

The AstralPool LumiPlus family delivers:

- Greater energy efficiency.
- High performance projectors with top quality lighting (TQL) technology.
- Enhanced energy efficiency in pools thanks to the use of LumiPlus DC lamps and projectors run from a direct current power source (24 V DC).
- Great control over the range with the inclusion of the Internet of Pools (IoP) concept by Fluidra Connect.
- IP68 protection rating.
- L70 50000 hours lifespan.

PROJECTOR

LumiPlus Flexi & FlexiMini

The LED solution that adapts to every type of pool

The LumiPlus projectors, Flexi & FlexiMini, are characterised by their more stylish finish and their great adaptability to any type of new-build or existing pool, whether a liner or concrete pool, that can be fitted to niches on the surface or in bushings.

“AstralPool’s LumiPlus Flexi & FlexiMini system delivers top flexibility”

PROJECTOR

LumiPlus Flexi

The LED solution that adapts to all types of pool

The family of LumiPlus Flexi spotlights – FlexiNiche, FlexiSlim and FlexiRapid – is characterized by its great adaptability to any type of new-build or existing pool, whether a liner or concrete pool, that can be fitted to niches, on the surface or in bushings. The LumiPlus Flexi system delivers top flexibility.

Its configuration is carried out in two steps in new pools. You need to choose:

1. The color of the light.
2. The faceplate color that best matches your pool, between white, beige, Light grey, anthracite grey and stainless steel (this one only for the FlexiNiche version).

The FlexiNiche version with his unique system of screws can adapt to any niche from diameter 180 up to 230 mm.

FlexiSlim version is compatible with the brackets for Flat, Extraflat and Slim Projectors by AstralPool.

FlexiRapid is compatible with any bushing with 1"½ internal thread.

PROJECTOR

LumiPlus FlexiMini

Compact design. Maxi customization.

The LumiPlus Flexi Mini projector is an underwater projector with reduced dimensions that stands out for its ease and flexibility of installation, being compatible with the Mini V2 and V3 niches, 1 "½ internal thread nozzles, 63mm or 2" cable glands, pipes D63 PN6 and PN10 or D50 PN10 pipes. Its configuration is carried out in two steps in new pools. You need to choose :

1.- The spotlight

2.- One of the 4 models of decorative ring: niche; nozzle L; nozzle S; or, for pipe or wall bushings.

The decorative ring can be made of ABS in a white, light gray, anthracite gray or beige finish; or AISI- 316L stainless steel.

The point of light is available in two powers, V1 for lighting stairs and V2 for lighting the basin, and you can choose between white, warm white and RGB multicolor light. The RGB versions are compatible with ECO, TOP, Wireless, LumiPlus LED App, ModBUS (Connect) and DMX controls (see page 432-433).

Projector Design

DESCRIPTION

The LumiPlus Design projector is a high power underwater projector that can be installed in 180mm diameter niches.

The decorative ring is available in Stainless Steel effect and Pure White finishes.

The light can be white, warm white, and RGB multi-color. The RGB versions are compatible with ECO, TOP, Wireless, LumiPlus LED App, ModBUS (Connect) and DMX controls (see codes in page 432-433).

LumiPlus monocolor white light lamps and projectors are also available in Warm White.

TECHNICAL FEATURES

Projector Design

LumiPlus MICRO projectors

Snap-in MICRO projectors

MADE IN EUROPE

DESCRIPTION

The Micro LED projector is the smallest model in the range, ideal for lighting a pool's steps and/or corners. It is available in cool white, warm white and RGB multicolor light. The multicolor versions are compatible with the ECO, TOP, LumiPlus LED app, ModBUS (Connect) and DMX controllers (see codes). There is a choice between various types of faceplate: ABS or AISI 316 stainless steel.

It is fitted to concrete pools using D 50 PN 10 piping or D 63 PN6 y D 63 PN10 piping if accessories 38818 or 38819 are used.

LumiPlus lamps for PAR56 V1 projectors

DC PAR56 V1 lamp

DESCRIPTION

The RGB model is compatible with LumiPlus ECO, LumiPlus Top, LumiPlus LED APP and LumiPlus Modbus controls.

How to replace a PAR 56 lamp?

TECHNICAL FEATURES

DC PAR56 V1 lamp

	Light Color		Code	Consumption	Luminous flux
	White	E	67515	14W	1485 lm
	Warm white		67515WW		

Rated voltage: 24V DC. Protection rating: IPX8. Includes 220V AC - 24 V DC power pack. Does not work with 220 V AC-12 V AC electromagnetic transformers. It must always be installed underwater.

PAR56 V1 lamp

	Light Color		Code	Consumption	Luminous flux
	White	E	52596	14.5W (20VA)	1485 lm
	Warm white		52596WW		
	RGB	G	56001	22W (29VA)	1100 lm

Rated Voltage: 12V AC. Protection: IPX8. It must always be installed underwater.

	1 lamp + 1 Control Motion	2 lamps + 1 Control Motion	1 lamp RGB 1.11 Wireless	Consumption per lamp	Luminous flux per lamp
G	59126	59127	59124	22W (29VA)	1100 lm

Rated voltage: 12V AC. Protection rating: IPX8. It must always be installed underwater. The LumiPlus Control Motion is not waterproof. Seawater-proof

LumiPlus lamps for PAR56 V2 projectors

DC PAR56 V2 lamp

DESCRIPTION

The RGB model is compatible with LumiPlus ECO, LumiPlus Top, LumiPlus LED APP and LumiPlus Modbus controls. The RGB DMX model requires the LumiPlus DMX 41107 modulator.

How to replace a PAR 56 lamp?

TECHNICAL FEATURES

DC PAR56 V2 lamp

	Light Color		Code	Consumption	Luminous flux
	White	D	67516	32W (32VA)	4320 lm
	Warm white		67516WW		

Rated voltage: 24 V DC. Protection rating: IPX8. Includes 220V AC - 24 V DC power pack.
Does not work with 220 V AC-12 V AC electromagnetic transformers. It must always be installed underwater.

PAR56 V2 lamp

	Light Color		Code	Consumption	Luminous flux
	RGB	G	43411	48W (64VA)	2544 lm
	RGB DMX		45637	48W (64VA)	2544 lm

Rated voltage: 24 V DC. Protection rating: IPX8. It must always be installed underwater.

LUMIPLUS ESSENTIAL

A COMPLETE RANGE OF LEDs. ALL YOU NEED TO LIGHT A POOL.

Like the rest of LumiPlus products, **AstralPool LumiPlus Essential** is made of high-quality LEDs and electronic components, and is manufactured entirely in the EU to European quality standards.

The AstralPool LumiPlus family delivers:

- Greater energy efficiency.
- High performance projectors with top quality lighting (TQL) technology.
- Enhanced energy efficiency in pools thanks to the use of LumiPlus lamps and projectors.
- IP68 protection rating.

LumiPlus projectors for SPA

Snap-in MINI V2 projectors

MADE IN EUROPE

DESCRIPTION

Projectors may be installed both in and out of the water. The RGB model is compatible with LumiPlus ECO, LumiPlus Top, LumiPlus LED APP and LumiPlus Modbus controls. The RGB DMX model requires the LumiPlus DMX 52142 controller (see page 432-433).

LumiPlus monocolor white light lamps and projectors are also available in Warm White.

MINI V2 projector for SPA

	Light Color		Type of decorative ring		Consumption	Luminous flux
			White	S.S.		
	White	F	52132	52133	4W (6VA)	315 lm

Control systems

System			Code	Description	Projectors
LumiPlus RGB ECO			32458	**The simplest and most economical colour change system.** LumiPlus ECO is a push-button switch that allows 14 modes of operation: 7 fixed colours and 7 different colour sequences. Each time the push button is pressed, the colour or sequence will change. By pressing for several seconds, the light is white. The push button must be sized to withstand the power consumed by the number of lights in the facility. Maximum charge 700 VA. Must be connected in the transformer primary.	Any LumiPlus RGB projector.
LumiPlus WIRELESS	LumiPlus Control Motion		59125	**Colour change CONTROL in your hand.** The LumiPlus Control Motion remote control enables wireless projector control, directly offering on/off options, 12 colour changes, 8 sequence changes and sequence speed. It also detects movement, letting you activate colours and sequences by vertical and horizontal movements, respectively. Compatible with the LumiPlus Wireless range of projectors only. Can control 2 wireless projectors and 3 in FlexiMini	Flexi (ABS body) V1 RGB Wireless PAR56 V1 RGB Wireless * Not compatible with stainless steel FlexiNiche projectors.
	LumiPlus Wireless Range Extender		64633	Allows expansion of the signal that the LumiPlus Control Motion sends to the projectors with the wireless control system. Ideal for facilities whose architectural features or projectors installation makes it hard for the LumiPlus Control Motion signal to reach the wireless projectors properly.	
LumiPlus RGB TOP			27818 + 41988	**The LumiPlus TOP system is a professional control of the color.** System comprising the 27818 modulator and 41988 remote control that enables to control a large number of projectors. The modulator has an antenna with a 50m range to receive the signal from the remote control (bought separately). The LumiPlus TOP system enables: Projector on/off action. Colour selection: 12 fixed colours available. Sequence selection: 8 sequences available. Sequence speed selection: 8 speeds available for each sequence. Supplied separately. A total of 10 LumiPlus modulators can be synchronized.	Any LumiPlus RGB projector.
LumiPlus WIFI Access Point +	Existing installation		75813	**Control your pool lighting from your smartphone.** Easily control your swimming pool luminaires from your smartphone with LumiPlus WiFi Access Point +. While wired to a LumiPlus RGB modulator (code 27818) allows the user to choose between 12 still colours, 8 colour changing sequences, 8 colour changing speeds and set an off timer to AstalPool's RGB luminaires. 2 steps setting and ready to play: 1) Once installed, connect LumiPlus Access Point + to a WiFi net. 2) Download the LumiPlus LED app to control the swimming pool luminaires from any smartphone connected to the same WiFi net as the LumiPlus Access Point +. LumiPlus LED is available for free in Apple Store and Google Play. 	Any LumiPlus RGB projector
	New installation		75814		

Control systems

System			Code	Description	Projectors
LumiPlus Modbus FLUIDRA CONNECT				**Control your pool lighting anywhere, anytime.**	Any LumiPlus RGB projector
	Existing installation		57434	The Modbus protocol enables the control of the LumiPlus modulator. It can be used to switch the projectors on and off, change their colours and sequence speed and set the time for putting the projectors in sleep mode. Download the Fluidra Connect app for instant information about the state of your pool 365 days a year. Fluidra Direct is peace of mind, comfort and leisure. In addition to controlling projectors, LumiPlus lets you control the filtration, water treatment and more of your pool through the Modbus protocol. The LumiPlus Modbus should only be installed as an additional feature to the LumiPlus 27818 modulator for correct installation and operation.	
	New installation		57435		
LumiPlus RGB DMX				**Design lighting scenes for fountains and large aquatic spaces**	LumiPlus RGB-DMX projector
	RGB DMX Modulator		41107	DMX LED projector modulator/12V AC DMX receiver for the Flexi, PAR56, S-LIM and Design ranges. Receiving orders from the DMX controller (Astral DMX 74099 or Astral DMX Pro 74500) via the DMX bus and acting on the projectors that are connected.	
	RGB-DMX power pack		52142	Product designed exclusively for use with V2 and V3 Mini LED and RGB DMX Micro projectors. The power pack can control up to 9 projectors, receiving orders from the system's DMX controller (Astral DMX 74099 or Astral DMX Pro 74500) via the DMX bus and acting on the projectors that are connected. The power pack has been designed to be used solely with DMX protocol and 24V DC DMX controllable parts from AstralPool.	
	DMX controller		74099	LumiPlus DMX System makes it possible to control lights individually or by groups. Users will have easy and intuitive full control over a projector or group of projectors. Main advantages / benefits: Very accurate control over the lights: colour and dimming. Plug and play. Projectors can be operated independently or combined. Allows creating new light scenes. LumiPlus DMX system does not require any additional wiring for projectors. Smartphone or tablet control via an app.	
	DMX PRO controller		74100		

Other LED solutions:

PAR56 projectors, PAR56 lamps and Flat projectors

AQUA SPHERE

PAR56 projectors

MADE IN EUROPE

DESCRIPTION

PAR56 underwater lamp, improves energy efficiency compared to the traditional 300 W halogen PAR56 lamps. It must always be installed completely submerged. The lamps PAR56 are directly retrofittable with halogen 300 W lamps / projectors.

Lifespan of 25000 h.

The RGB lamp is controlled by a remote control, which is included, with a 2 m range and can control 2 lamps. The White lamp does not include remote control.

To correctly light a pool it is advisable to install a light from this range every 15 m^2 of water surface.

Note: this recommendation applies to pools light in color with white light spotlights, but if there are RGB spotlights more should be fitted. In dark pools it is recommended to use more projectors per m^2.

How to replace a PAR 56 lamp?

Projectors PAR56 needs a niche (see page 442) to complete the installation. Projector Flat to wall installations is delivered with the accessory to install in concrete and polyester pools. To complete the installation in panel pools needs spare part kit 24765-0500.

NL NICHELESS LED LIGHTS

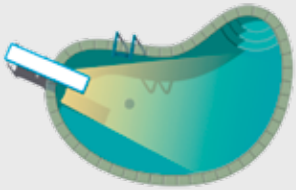
EASY-TO-INSTALL, ECO-FRIENDLY LIGHTING

Pool lighting is an essential asset for enhancing your pool.
Zodiac® NL LED lights enable you to achieve this and they are both **energy saving and easy to install.**
They are installed during the construction stage and enhance all pool types, **using innovative, obstruction-free technology.**

> LED LIGHTING: AN ENERGY-SAVING INNOVATION

Energy efficient: powerful lighting with an **energy saving of up to 90%** (compared to incandescent or halogen spotlights).

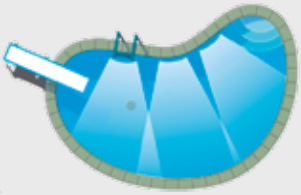
Long lasting: they last up to 10 times longer than traditional incandescent light bulbs.



1 classic spotlight
Total consumption: 300 W
Annual cost = €37

Higher performance lighting > ENERGY SAVING 90%

Calculation based on 4h/day Use throughout the season (6 months) at a price of €0 1694 / kWh (average price witn VAT in France)

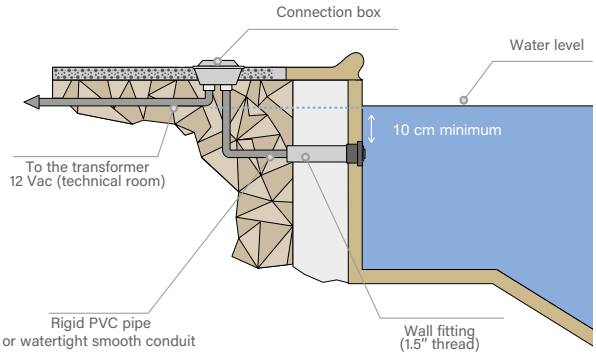


3 12 W NL LED lights
Total consumption: 27 W
Annual cost = 9 €

> "NICHELESS" INSTALLATION: INSTALLED ANYWHERE, QUICKLY AND EASILY!

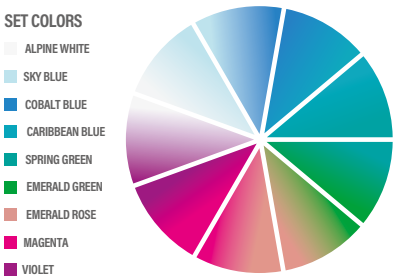
Quickly & easily: With Zodiac® NL LED lights, there's no need to build a niche, they slot directly into a standard 1.5" wall fitting and are compatible with all pool surfaces (liner/PVC, concrete, polyester, etc.).

Compact: They integrate perfectly into the pool, adding to its aesthetic appeal and are compatible with all pool cleaners (no obstructions jutting out from the wall).



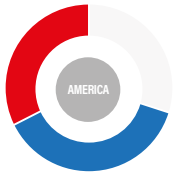
> COMPACT AND POWERFULL LIGHTS: CUSTOMISABLE AMBIANCE LIGHTING!

Freedom and creativity: NL LED lights offer **a wide range of set colors and ambiance lighting** thanks to their RGBW technology.

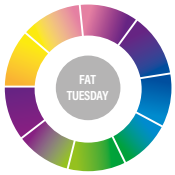


A sophisticated and relaxing atmosphere

An electric atmosphere with over 1,500 constantly changing colors



A star-shaped light show in red, white and blue



A carnival atmosphere with a 32-color display

A night brought to life by hundreds of colors

iAquaLink COMPATIBLE

Simple to use: 100% compatible with Zodiac® AquaLink® TRi automation and eXO® iQ smart salt water chlorinators (LS and standard versions) and Hydroxinator® iQ, NL LED lights can be controlled from your smartphone via the iAquaLink™ app.

DID YOU KNOW?

WITH RGBW LED, THERE'S NO NEED TO CHOOSE BETWEEN WHITE AND COLOR!
Zodiac® NL LED lights are innovative, using RGBW technology (Red-Green-Blue-White) to add white to all 3 primary colors. This enables you to generate an infinite color pallet, with a more natural shade, or pure white lighting.

POOL LIGHTING

New EU regulation*

since 1st September 2021

According to the eco-design regulation, the swimming pool halogen lights can no longer be sold in the European Union market

We are your LED's best partner

With our LED solutions for swimming pools, we'll make it easy for you and your customers

MADE IN EUROPE

100% production in our own facilities

QUALITY CONTROL

360° continuous control from suppliers ISO certifications to finished products

BUILT BY POOL EXPERTS

More than 15 years of R&D experience to design, inject and test watertight solutions

*EU Regulation 2019/2020 (Ecodesign requirements for light sources), halogen lights for swimming pools can no longer be sold in the EU countries. This also applies to the United Kingdom and Qatar.

FLUIDRA

Lamps

According to UE Regulation 2019/2020, from September 1st, 2021 halogen cannot be sold anymore on the European Union market. This is also valid in other countries such as UK and Qatar.

TECHNICAL FEATURES

Lamps for lights

Type of lamp		Code	Consumption
Halogen PAR56	For lights with niche	00370	300W (12 V)
Dichroic GX-5.3	For mini lights	19334	50W (12 V)

Standard light

According to UE Regulation 2019/2020, from September 1st, 2021 halogen cannot be sold anymore on the European Union market. This is also valid in other countries such as UK and Qatar.

DESCRIPTION

All plastic materials. PAR56 300W 12V AC halogen lamp.

For correct pool lighting, we recommend: one projector per 25-30 m^2 of pool area. This recommendation is valid for light coloured pools. For pools in dark colours or stainless steel, we recommend a higher proportion of projectors per m^2.

The projector must be always be submerged in water.

Projectors for installation in "standard" niche (included).

TECHNICAL FEATURES

Standard light

Type of pool	Cable 2x6 mm^2 2.5 m	Type of decorative ring Ø280 mm		Consumption	Niche included
		ABS	S.S.		
Concrete	Yes	07844	07843	300W (300 VA)	Yes
	No		07837		
Prefabricated	Yes		07855		

Rated voltage: 12 V AC. Protection rating: IPX8. Compatible with standard niches (included).

Mini light

According to UE Regulation 2019/2020, from September 1st, 2021 halogen cannot be sold anymore on the European Union market. This is also valid in other countries such as UK and Qatar.

Fast assembly Mini light

DESCRIPTION

Small underwater projector. GX-5.3 50W 12V AC aluminized halogen lamp.

For correct pool lighting, we recommend one projector per 10 m² of pool area. This recommendation is valid for light coloured pools. For pools in dark colours or stainless steel, we recommend a higher proportion of projectors per m².

The projector must be always be submerged in water.

Projectors for installation in bushings or niche, depending on model (not included). To complete the installation the right housing should be purchased for each type of pool (see page 442). This recommendation is valid for light coloured pools. For pools in dark colours or stainless steel, we recommend a higher proportion of projectors per m².

TECHNICAL FEATURES

Fast assembly Mini light

Transformers for pool and fountain lighting

More compact.
More functional.
Specially designed for lighting up fountains and pools.

DESCRIPTION

- Suitable for all types of circuit board.
- Quick and easy installation.
- Connection via terminals protected against indirect contacts.
- Up to 40 m between the spotlight and transformer.
- Made in compliance with Standard UNE-EN-61558-2-6.
- IP-20 protection rating.
- Age-resistant housing.

AQUARMONY UNDERWATER MUSIC SYSTEM

Aquarmony Loudspeaker

ASTRALPOOL

DESCRIPTION

With frontal installation. To listen to music and voice underwater creating a magical and different atmosphere. Aquarmony is a sealed waterproof loudspeaker designed for your pool. It is made of high quality components, innovative technology and with an assembly system assuring a correct operation in salt water or with a high Chlorine content. Easy installation.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Aquarmony Loudspeaker	25680	-	-	-
Niche for concrete pool	00349	-	-	-
Niche for liner pool	00364	-	-	-

Note: The niches come with a stuffing box assembly and a 1.5-m cable grommet specially designed for the Aquarmony range

TECHNICAL FEATURES

Maximum power	60 W
Impedance	4 ohm
Frequency	200-12000 Hz
Maximum area per loudspeaker	80 m^2
Maximum installation depth	40 cm
Weight	5 Kg
Cable length supplied	5 m

Amplifier and loudspeakers

RK400S

ASTRALPOOL

DESCRIPTION

- Built-in SELV power pack with all required protection ratings and safety systems.
- Fully insulated input and output ports, in compliance with standard ENV 61558-1 CEI EN 64-8/7, Section 702.
- RCA stereo input port compatible with any source (CD player, MP3 player, smartphone, etc.).
- Input and output XLR link for connecting other RK400-S devices together.
- Automated equalizers and limiters specially redesigned by Aquarmony.
- Automatic gain control, which does not require volume buttons.
- Four 60 W RMS amplifiers that work separately.
- Output though a gold-plated screw connector.
- On/off and signal display light.

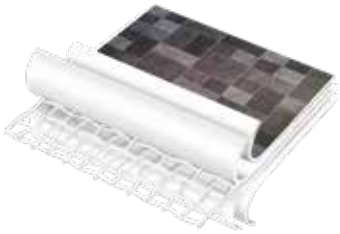
SOPREMA, a world leader in waterproofing solutions, offers a wide range of reinforced synthetic membranes for swimming pools.

+ **New formulation: exclusive varnish in the four layers for the entire SOPREMAPOOL range, thus achieving greater durability and resistance to colour fading, chlorine, stains and microorganisms.**
+ **Optimal welding.**
+ **UV resistance.**
+ **Resistance against microorganisms with "Bio Shield" treatment.**



4 LAYER MEMBRANE

Reinforced synthetic membranes manufactured by induction with high quality raw materials (resins, plasticisers, stabilisers and pigments).

Composed of four layers with different and complementary formulations, introducing a polyester reinforcement between the second and third layers.

This reinforcement provides the membrane with great tensile strength and high dimensional stability.

SOPREMA

3D membrane

+ Attractive and stylish
+ Easy and quick installation
+ Sensory experience
+ Exclusive varnish integrated in all four layers

Sensitive White

Sensitive Bali XL

DESCRIPTION

PVC reinforced membrane of 1.8 mm with exclusive varnish integrated in all four layers and varnished coating for superior protection against UV rays, microorganisms and chlorine.

The 3D range replicates the feel and look of mosaics and natural materials. The stylish embossed motifs add to the characteristic advantages of reinforced PVC lining: simple and quick installation and high protective and waterproofing capacity.

SOPREMAPOOL 3D has been tested for slip prevention according to the European standard EN 13451-1 (according to annex B of EN 15836-2) and DIN 51097 (1992).

- Roll of 1.65 x 25 m.

Warranty:

- 12 years for waterproofing.
- 3 years for stains caused by bacteria.

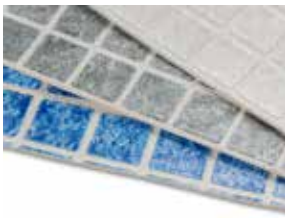
RENOLIT ALKORPLAN CERAMICS

RENOLIT ALKORPLAN CERAMICS

Reinforced membrane



SLIP RESISTANCE Category C

DESCRIPTION

ALKORPLAN CERAMICS is a reinforced 2-mm embossed membrane for pools that imitates the volume of real glass tiling and its joints to look like a mosaic inspired in Greek mythology.

- Watertightness guaranteed.
- Quick to fit in comparison with glass tiling.
- The ceramic pieces on ALKORPLAN CERAMICS do not fall off.
- Minimum maintenance.
- More resistant and long-lasting thanks to its 2-mm thickness.
- Embossed coating that makes it look like real glass tiling.

RENOLIT ALKORPLAN XTREME

Reinforced membrane

RENOLIT ALKORPLAN XTREME
Pools that stand up to anything!!

NOT TOXIC PRODUCT
Healthier ... Less smoke

COMPATIBLE WITH PLANTS & FISH

DESCRIPTION

ALKORPLAN XTREME is the only reinforced membrane in the market whose colour is resistant to chlorine and stains, even those that usually form on the waterline.

ALKORPLAN XTREME is a smooth, flexible and robust reinforced membrane, thanks to the most advanced technological developments, and it has been made to resist the wear and tear inherent to the daily use of a pool. It is even resistant if there is a continuous large influx of swimmers in a pool and aggressive chemical products are used to treat it.

Alkorplus stain remover	53898	-	-	-

RENOLIT ALKORPLAN

RENOLIT ALKORPLUS

Structure Disinfectant

DESCRIPTION

An effective product for cleaning and disinfecting the structure prior to installing the lining, preventing the proliferation of microorganisms between the ground and the liner and, therefore, the appearance of irreversible stains. Transparent.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Pool Shell Disinfectant. 1L Transparent	53890	6	-	-

RENOLIT ALKORPLAN

RENOLIT ALKORPLUS THF Solvent

DESCRIPTION

THF (Tetrahydrofuran) is a solvent normally used to reduce the viscosity of liquid PVC or sealing lacquer. These products leave the factory with the correct viscosity, but since they are manufactured using volatile solvents, over time their viscosity increases. To reduce it, a small quantity if THF is added in the polyethylene bottle that the sealant contains. It can also be used as a PVC accessory cleaner (tubes, piping, etc.), before the application of the specific PVC glue.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
THF solvent. 1L Transparent	64312	6	-	-

RENOLIT ALKORPLAN

RENOLIT ALKORPLUS MEC Solvent

DESCRIPTION

MEC (Methyl ethyl ketone or Butanone) is a solvent used commonly to reduce the viscosity of sealants manufactured with the same MEK solvent. These products leave the factory with the correct viscosity, but as they are manufactured based on volatile solvents, their viscosity increases over time. To reduce it, add a small amount of MEK to the polyethylene bottle containing the sealant. This product is suitable for 81022 (XTREME), 81023 (TOUCH) and 81024 sealants.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
MEC solvent. 1L Transparent	74450	6	-	-

RENOLIT ALKORPLAN

RENOLIT ALKORGLUE

Neoprene-based contact glue

DESCRIPTION

The RENOLIT ALKORGLUE 81045 glue is a neoprene based contact adhesive. It is toluene-free and environmentally friendly. It will form a prefect bond between ALKORPLAN pool liner membrane, and geotextile 81006 to metal, wood, rigid PVC, concrete and other surfaces. It is not suitable for use in contact with expanded polyestyrene.

	Code	Standard Pack
5 L Yellowish colour	70679	1
20 L Yellowish colour	74981	1

RENOLIT ALKORPLAN

RENOLIT ALKORGLUE Zero solvents

DESCRIPTION

Multipurpose glue free of organic solvents suitable for not damaging sensitive materials like geotextile fleece or polystyrene. Thanks to being in an aqueous suspension, it can be used as a wet, semi-wet or contact glue. It is non-flammable.

	Code	Standard Pack
20 L Beige colour	74465	1

RENOLIT ALKORPLAN

RENOLIT ALKORGLUE

Nitrile Rubber based thermo-adhesive

DESCRIPTION

RENOLIT ALKORGLUE is a toluene-free, Nitrile Rubber based glue. The volatile solvent make is quick-drying and it has high resistance to water, ageing and plasticisers. These factors make it especially suitable for mounting the membrane on cement and mortar, and on stairs and corners even when damp. It has the added advantage of being reactivated by a hot-air welder, for those occasions when the membrane has been left open for long periods.

	Code	Standard Pack
Quick-drying glue. 20 L Beige colour	53891	1

CONDITIONS FOR ACCEPTING AN ORDER

Note: The colours shown in the catalogue are approximate

Order:

All orders or enquiries for modifying orders must be made in writing.
For avoiding any delay, the client, at his own risk, must forward the supplier all the necessary liner measurements for executing the work. In case the information supplied by the client is insufficient, he will have to supply the missing information ahead of the manufacturing time.

Implicit data:

If the following information is not supplied in writing with the order, we shall consider the below mentioned data for the liner manufacture:

* Vertical radii of 15 cm.
* Horizontal radii of a maximum of 5 cm (in the pool shell only). Hung-type fastening system.
* The horizontal measurements taken from the pool shell.
* The depth measurements taken from the lower part of the pool's coping stone to the base of the wall.
* The diagonal measurements taken of the right angles, not of the radii.

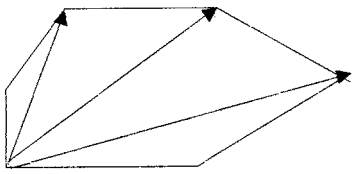
To avoid certain misunderstandings, we suggest you take the following precautions:

For holding the liner:
* Specify the type (hung, overlap or V-fasteners); we anticipate that an additional 15 cm of material will be required for the walls if the overlap fastening system is used.

For steps:
* Check whether the angles between the step tread and rise (flat and vertical step surfaces) are truly rectilinear.
* Installation of a discharge nozzle in the middle of the first step is highly recommended for holding the liner in place.
  * At least 30 cm of water should be left in the pool for maintaining the first step.
* Avoid designing staircases having more than 5 steps.
* To confirm dimensions, give the lengths of each step.
* Check the verticality of pool walls. In case of deficient plumbness, enquire about the order viability.
* Compound inclination safety ledges should be avoided on the liner.

Taking measurements:

Provide the total lengths and widths.
* All heights of the pool shell.
* Width of the safety step on each side.
* Specify the peripheral size of each side.
* Provide the measurements of each corner and slope.
* All dimensions should be provided with horizontal and/or vertical measurements.



If angles are not straight:

* Measure all of the diagonals from a single point.
* The diagonals of the right angles are only required for irregular shaped pools without right angles.

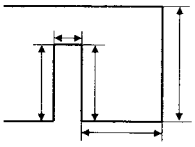
Calculation of arcs of circles:

* The arcs of circles are calculated by their radius.
* If the radius has not been calculated, a template must be used or the triangulation must be calculated to specify it.
* Ellipses are calculated using templates (or a grid plan made at intervals of approximately 1 m).

Sectional views:

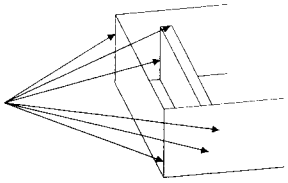
* Three views are recommended: a top view, a front view and a side view.

Templates:



* Make templates for the sky and water sides (or one view).
* Templates are made for the pool's shell or cover.

Shuttering:



* Specify the measurements of the shuttering as shown in the diagram.
* Check that the inside vertical angles of the shutterings are straight.
* Check that vertical pool shell angles shuttering are in a straight line.
* Check that the horizontal angle of the wall and shuttering are in a straight line.

Hydronet

DESCRIPTION

Is a cementitious , single component mortar that protects and waterproofs all types of brick, concrete and mortar joints from water and humidity. Formulated with hydraulic cements and modified with polymers. Resistant to freeze-thaw cycles and to contact with chlorinated water. Membrane suitable for contact with drinking water.

Sealing product suitable for pools made with Mosaic or ceramic and liner.

Deckwell

DESCRIPTION

DECKWELL is an ingenious solution that combines pleasure, aesthetics and safety, available in 4 ready to install kits for pools sized : 3.15 x 3.15 m / 6 x 3 m / 8 x 4 m / 7 x 3.50 m

DECKWELL makes it possible to double the usable area of the outdoor space and to choose as you desire the use of your garden.

- **Safety:** DeckWell is used as a cover, for the safety and protection of the pool. Compliant with the NF P90-308 standard, the DeckWell platform, once closed, makes the pool completely inaccessible.
- **Protection:** As the entire surface of the pool is covered, DeckWell is also a perfect barrier against external pollution.
- **Design:** DeckWell brings a contemporary touch to the outdoor environment. Available in 3 colours: honey, grey and sand, DeckWell fits in perfectly with all styles and matches the pavement surrounding the pool.
- **Optimisation of the outdoor area:** Once covered, the surface of the pool remains a space full of life. Winter or summer, the m^2 of the pool are always available according to your desires!
- **An easy and rapid installation:** The clip-on mounting system of the Deck is very easy and agile. Thanks to that system, the installation can be done rapidly: 2 hours for 2 people to install the entire deck and one day to install a complete DeckWell.
- **A very easy to assemble deck:** The surface of the deck is made up of a 25 mm thick synthetic deck (grating). Each board is pre-cut to size according to the Deckwell model chosen. The assembly of the boards, in one piece over the entire width, and the original and exclusive clip-on process allow a simple installation without the need to drill holes, fixing screws, or any other type of adjustment.

General information

The AstralPool automatic cover

AstralPool is continually incorporating the latest innovations to its products in matters of safety. As such the automatic pool covers have been developed to meet the demands of the French standard NF P90 308, which guarantees maximum user safety.

The AstralPool automatic covers cover the whole pool and are easily rolled up or spread thanks to their built-in motorized roller. The turning of a key is all that is needed to get it working.

Manufactured in rigid slats available in various colours, the design and composition produce a floating cover that fits over the entire pool and makes for very effective heat insulation. We have seven models to cover the equipment needs of new and existing pools: the submerged Roussillon models, the above-ground Carlit models and the above-ground model with a bench, Capcir.

Roussillon submerged automatic models allow for seamless integration with the pool. The roller mechanism is located in a separate sunken compartment sectioned off from the pool by a brick or PVC panel.

The above-ground models (Carlit) are ideal for already existing pools as the winding shaft is fastened in place to the pool decking.

The above-ground models with protective casing (Narbonne) are the basic above-ground models which can be complemented with a bench that covers the mechanical installation, giving it a high-quality finish. For installation in existing swimming pools.

Main advantages

- Increased safety in the swimming pool to protect people and pets from falling accidentally into it. The floating slats cover the entire water surface.*
- Very convenient to use, the swimming pool is covered and uncovered in silence by simply turning a key.
- Represents considerable savings:
    - It acts as a thermal barrier preventing heat losses and extending the pool use season.
    - It is a basic complement for pool heating.
    - It prevents evaporation, therefore it saves water.
    - It reduces algae formation, which results in an important saving in chemical products.
- In indoor pools no condensation is produced in the enclosed hall, thus avoiding deterioration of building materials.
- Lower maintenance costs: reduction of suspended particles.
- The automatic cover enables greater customisation of the swimming pool, increasing its value.

AstralPool service

- The wide AstralPool commercial network offers immediate service.
- We offer our clients pre- and post-sales technical assessment.
- The manufacturing technical sheet will be used to make a cover which is perfectly adapted to your needs.
- All AstralPool covers undergo strict quality control based on the most demanding regulations.
- Assembly and Civil Engineering Manuals are available to allow building the swimming pool with the ideal requirements for subsequent installation of the submerged cover.

(*) Our automatic covers comply with the requirements of the French standard NF P90-308 which demands the use of standardized safety mechanisms to prevent the risk of drowning by accidental falls into the pool.

General information

Advice for use and winterizing

We recommend to follow these basic indications to obtain the optimum performance from the automatic cover:

- Before operating the cover you must ensure that nobody is in the swimming pool and that there are no objects that could become obstacles to its normal operation.
- Maintaining the correct water level is also important, as a level which is too high or too low can cause blockages at the tie beam, partition or the steps.
- During the retrieving and expanding operations the cover should not be blocked, as this action could be dangerous as well as harmful to the operating mechanism.
- If an automatic pool floor cleaner is used make sure that when the cover is extended neither the hose nor the power supply cable is caught up.
- Regular cleaning of the cover with a pressure cleaning device or with a PVC descaling liquid is recommended. This will also prevent leaves from settling on the cover which could otherwise stain the slats.
- In the case of a hail storm we recommend that you retrieve the cover.
- In the Roussillon submerged model we recommend that you always keep the motor housing dry to prevent the geared motor from getting wet.

For good winterization, and in order to find the pool in the best conditions in the spring, we recommend to follow the following indications:

- Leave the cover extended over the water surface.
- Keep the water level constant. An excess should be drained through the main drain or the skimmer box.
- It is advisable to clean the trapdoor and the motor housing with a high pressure cleaner before the pool is winterized.
- Place a number of anti-freeze floats in the trapdoor casing, behind the cover. The skimmers should also be protected in the same way.
- We recommend the installation of a plastic type cover to prevent leaves and other substances from obstructing the trapdoor, which should be cleaned regularly.
- In the case of freezing, avoid forcing or pressing down hard on the slats as they could be damaged.
- If the motor is in risk of flooding it is advisable to cut off the power supply and remove the motor.

Octeo model

DESCRIPTION

- 4 color combinations to choose from.
- A new model designed in collaboration with a designer: modern shape and outline.
- Optional Solar LED Lighting available with a white or grey stand **072202B/072202G**
- Cast aluminum structure.
- Easy to assemble and disassemble.

- Motor: Tubular.
- Pool (interior dim.): 7.5 x 17 m
- Motorized roller
  - With limit switch.
  - With salt chlorinator contact.
- Standard cover.
- 4 stand colors available.

ASTRALPOOL

DESCRIPTION

- Latest generation of stand's streamlined finish. Aesthetic integration into the pool area with its "Full Black" solar panel.
- Ideal for existing pools: easy installation, no electrical connection required.
- Charged battery autonomy: 20 opening/closing.
- Charge regulator to protect the battery from deep discharges.
- Disengageable motor.

- Motor: Tubular.
- Pool (interior dim.): 6.03 x 12 m
- Solar motorized roller
  - With limit switch.
- Shaft in anodised aluminium of Ø 146 mm or Ø 196 mm.
- Stands made of rilsanised aluminium for optimum corrosion resistance.

Zen'It bench

The new AstralPool ZEN'IT bench fits any above-ground automatic covers.

Original 3 in 1: to cover the roller and the stander, to store equipment, to add value to the pool. Bench manufactured with quality materials in powder-coated aluminium, Stainless steel and exotic wood.

Easy-to-mount, in kit. No handling equipment necessary.

Length of 1 module: 1.2 m

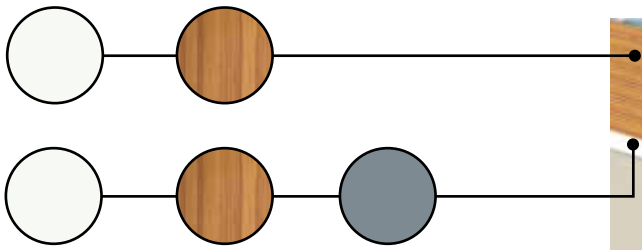
Max. Length of the cover: 9 m with special roller stander.

Sold with or without above-ground roller – contact us for more info.

- **Trendy design**
- **Supplied in kits, easy-to-mount**
- **Multi-purpose**

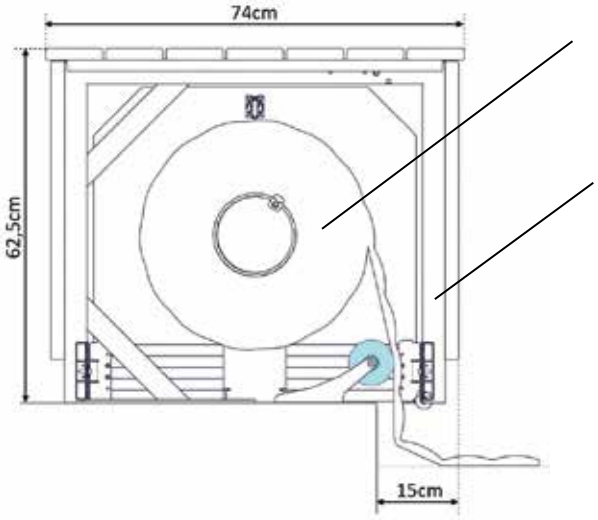
Access to the skimmers and mechanical parts

Different finishes available



With storage area

Overall dimensions



Space saving stander, reducing the footprint of the roller

Guiding system: reduced footprint over the pool

Complete bench shipped on a Euro pallet

Mounting time: 30 min/module
No need for handling equipment

SOLAR OPTION : Kit composed of a solar panel integrated in a wood panel + a charge controller + a 24V battery.

Not compatible with Cover Connect

Code 062016

Submerged models

Roussillon submerged model:

dry well motor

Solution valid for a mechanical installation up to a maximum depth of 55 cm of the water level. For greater depths, please enquire.

DESCRIPTION

The Roussillon automatic cover is the submerged model which incorporates the motor in a separate sunken compartment and both the winding shaft as well as the cover are housed inside the pool at one end. The Roussillon model can cover an indoor pool up to 11 x 20 m.

The submerged pit containing the roller shaft from the main pool should be separated from the main pool by a small concrete partition at the time of construction or with a PVC partition later on.

The basic elements for assembling the cover are the slats, the step slats, the mechanical kit, the embedding kit, the aluminium tie beam and the pit cover.

MECHANICAL KIT

Includes the following elements:

- Extruded aluminium or stainless steel shaft.
- Motor stand.
- Watertight gaskets on bushing side.
- Watertight gaskets on bearing stand side.
- 24V reducer motor with stainless steel stand.
- 220/24V standard switchboard.
- On-off key switch with key. Should be installed in full view of the pool. Works by continuousturning of the key.

Extruded aluminium shaft

On-off key switch

Embedding kit for a standard installation 55 cm above the water level.
Should the shaft have to be installed at a greater height, please consult us.

For further information see the AstralPool product database in the PRODUCTS section at www.astralpool.com.

Submerged models

Roussillon submerged model:

motor in the shaft

DESCRIPTION

The motor is integrated inside the winding shaft and can be installed in already-built pools up to 8 metres wide.

It can cover an indoor pool up to 8 x 12 m.

As in the Roussillon model the submerged part containing the roller shaft should be separated by a small concrete partition at the time of construction or later with a PVC partition. The slat colours available for both models are white, beige and opaque blue.

The Conflent mechanism may be fitted:
- Below the coping stone.
- Against the wall.

Wireless remote controls with key

Cover Connect submerged

DESCRIPTION

Cover Connect, remote control for submerged rollers.
(FOR ABOVEGROUND COVER CONNECT, please contact us.)

COVER CONNECT mobile App

DESCRIPTION

- **NF P90-308 standard-compliant**
- Enables opening and closing of the cover via Bluetooth with distance limitation.
- Secure password access.
- **Easy to install**
- Automatic connection to the wall control unit.
- Guided pairing procedure for easy installation.
- Access to product documentation.
- **Flexibility**
- Android and iOS compatible (downloadable from Play Store and App Store).
- 8 languages available.
- Unlimited number of smartphones can be paired.
- Possibility of pairing 2 wall remote controls and 2 keyring remote controls.
- **Free application without subscription**

Wireless remote control with key

Remote control

for automatic covers

+ One single electrical cabinet for all types of submerged covers
+ Easy installation and maintenance

DESCRIPTION

Chlorination control

Reduced chlorine production with cover deployed

Filtration pump control

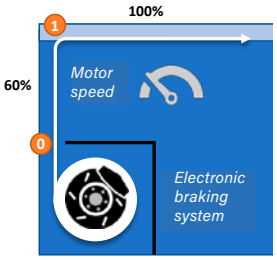
Temporary filtration pump shutdown during cover operation. Useful for infinity pools to avoid cover deviations.

Water level sensor input

The control cabinet is fitted with an automatic water level sensor that blocks cover operations if the water level is too low or too high. It can also be combined with an emergency stop button.

Programmable soft start

- Cover comes out towards the surface of the water at low speed to avoid jamming.
- Position 1 programmable according to the depth of the cover reel.
- Engine speed reduced to 60%.



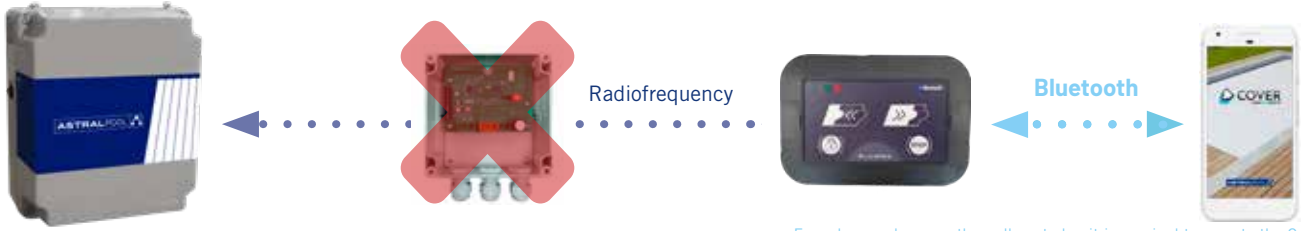
Cover braking during unrolling

- Unlike older enclosures that suffer from Archimedes' thrust causing the cover to accelerate, the universal power supply incorporates a braking system to limit the speed at which the cover comes out towards the surface of the water.
- This braking system is necessary to control the speed at which the cover comes out (soft start).
- This feature is particularly useful for submerged covers with special shapes to prevent them from coming to the surface too quickly.

Compatible with Fluidra Connect

- Remote query of cover status: open / closed
- An advantage for professionals: remote monitoring of installed covers
- Preventive maintenance.
- Pool equipment harmonized with the cover: chlorination, pool robot, heat pump, filtration, etc.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Electrical cabinet				
Power 250 VA	070620	-	-	-
Power 400 VA	070619	-	-	-



The external receiver will not be necessary

For submerged covers, the wall control unit is required to operate the Cover Connect app. Installed near the pool, it enables control of the cover using a smartphone while maintaining the distance limitation required by the NF P-90 30 standard

Wireless remote control with key

PVC slats

DESCRIPTION

The AstralPool automatic cover uses hollow extrusion PVC watertight slats. The end-caps welded at both ends ensure the tightness of the slats and the 20mm wide cap flaps can assure the total length of the slat. Flaps can also be 10 or 30 mm, altering the total width of the pool cover.

The slats measure 71.4 mm long and are 17 mm thick, so that they are able to float. To prevent stains, particularly organic ones, the slats are stabilized with calcium and zinc.

To ensure a cover blends in with its surroundings, a number of slat models are available: white, sand, blue and grey.

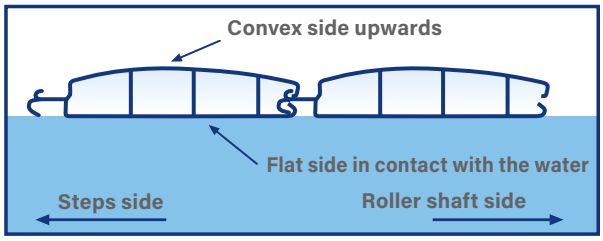
Polycarbonate slats

DESCRIPTION

Main advantages of polycarbonate slats:

- Strong impact resistance: Polycarbonate slats are approximately 8 times more resistant than PVC slats.
- Heat resistance: the deformation point is 140° compared to 80° for PVC.
- Very good ageing resistance thanks to UV protection layer on the top of the slat.
- Polycarbonate's lower density means the slats float better.
- Compliant with standard NF P 90-308.
- 3-year warranty
- Slat dimensions: 71 x 17 mm.



Norme NF 90-308

Step slats

Step slats

In order to adapt to any swimming pool shape, three different standard geometric shapes are available, thus ensuring a perfect fit to the outline of a pool and maximum safety.

The shapes available are: Roman steps, Straight steps and Trapezoidal steps.

METHOD FOR CALCULATING STEPS SLATS

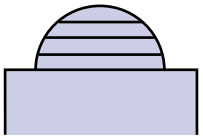
ROMAN STEPS

Location:

It must be located on the side opposite to the cover shaft.

Step price:

Roman step pricelist.



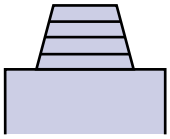
ISOSCELES TRAPEZOIDAL STEPS

Location:

Located in front of the cover.

Step price:

Trapezoidal step pricelist.



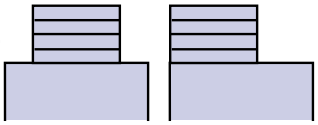
STRAIGHT STEPS

Location:

a) Located in front of the cover shaft.

Step price:

Straight step price.



Location:

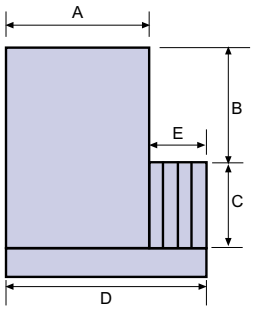
b) Located next to the cover.

Step price:

Slat pricelist per metre length D x (C + 1 m).

- The length of the shaft (D) includes the width of the pool (A) + the depth of the steps (E).

NOTE FOR SIDE STEPS:
Total slat cost calculation:
Step price + slat price (A x B)



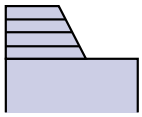
RECTANGULAR TRAPEZOIDAL STEPS

Location:

a) Located in front of the cover shaft.

Step price:

Trapezoidal step pricelist.



Location:

b) Located next to the cover.

Step price:

Slat price per metre length

D x (C + 1 m) + slat cutting surcharge for custom cutting per metre length.

- Length of D axis includes A length of pool + E depth of step

NOTE FOR SIDE STEPS:
Total slat cost calculation:
Step price + slat price (A x B)

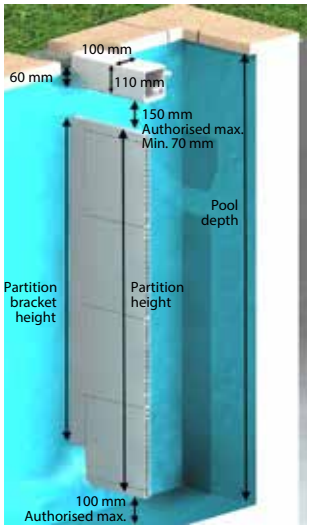
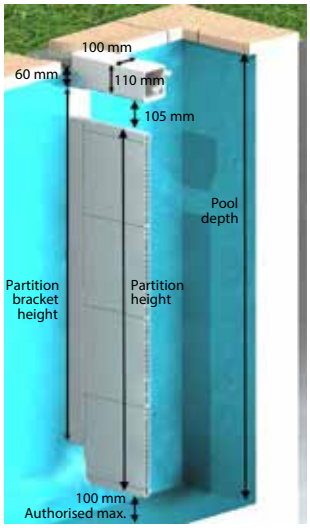
White aluminium compartment cover

Brackets for fastening to wall



Brackets for fastening to beam brackets



Pit Cover

DESCRIPTION

The pit cover protects the automatic cover operating unit and conveys an aesthetic improvement to the surroundings. It is available in wood, or in white aluminium.

For pools with a partition wall the cover will be 950 mm wide, while for pools with a PVC partition the 700 mm lid will be used.

Thickness of the wooden pit cover: 25 mm.

Thickness of the aluminium pit cover: 28 mm.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3

Sand aluminium made to measure, m^2	38514	-	-	-

PVC Partition

The partition can be made of concrete or PVC. It is designed to improve safety by preventing bathers from coming into contact with the roller shaft. It also prevents the pool-floor cleaning hose from being rolled up into the slats.

The partition is made up of 250 mm high PVC panels, internally reinforced with stainless steel. It is fastened with two white coated stainless steel U clamps, which are fastened to the tie beam support bracket.

Will be fastened to vertical walls.

For pools of more than 6 m width ask your AstralPool branch.

Tie Beam

DESCRIPTION

Its function is to provide support to the pit cover. Manufactured in white coated aluminium, it measures 100 x 110 mm and weighs 9 kg/ml.

This tie beam is delivered with coated stainless steel support bracket and stainless steel nuts and bolt.

Beam adjustable bracket

Wall tie-beam bracket

Kink-proof support for embedded beam

Supports must be used if the inner width of the pool shell is > 4 m.

The number of supports to be used is set out in the table below.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Kink-proof support to be mounted on wall				
DIMENSION of pit cover in mm				
615 ≤ Dim. ≤ 1015	61678	-	-	-
1016 ≤ Dim. ≤ 1460	61682	-	-	-

The pool may have beams on the corners of a maximum of 4 cm, in compliance with standard NF 90-308.

In the case of larger beams, the beam of the wall side must be brought forward by the same distance.

The clearance between the wall and the beam must be greater than 7 cm, otherwise it will not comply with standard NF 90-308.

PRACTICAL INFORMATION

Pool shell width	Number of beams required	Number of kink-proof supports required
Width ≤ 4 m	1 beam	0
4 m ≤ Width ≤ 6.03 m	1 beam	1
6.03 m ≤ Width ≤ 8.03 m	1 beam	2
8.03 m ≤ Width ≤ 9.03 m	1 beam of 4 m + 1 beam of 5 m	3
9.03 m ≤ Width ≤ 10.03 m	2 beams of 5 m	3
10.03 m ≤ Width ≤ 11.03 m	2 beams of 6 m	4

SAFETY SYSTEMS

Place the safety system on the shaft side and the step side IF THE DEPTH between the water level and pit cover is > 20 cm.

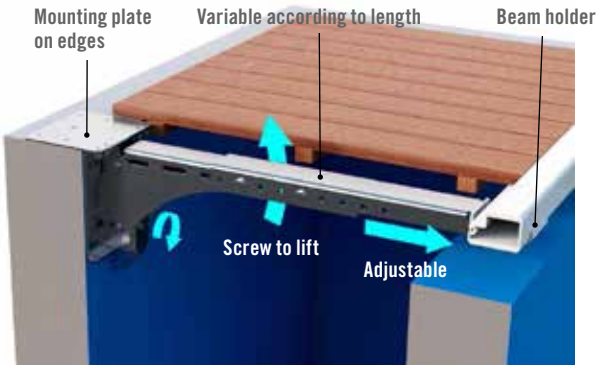
Dimensions to be taken into account:

A space measuring the height of at least the diameter of the cover when rolled plus 30 cm must be left free.

The inner width of the pit must be wider than the diameter of the shaft plus 20 cm (see diagram).

The clearance for the cover between the wall and the back of the pit cover must be between 5 and 7 cm, in compliance with standard NF 90-308.

The depth of the pit cover is up to the user. It should be at least 6 cm so that the cover works properly, and a maximum of 20 cm, in compliance with standard NF 90-308.



White PCV

Sand PVC

Grey PVC

Wood veneer PVC

Submerged well

PVC submerged well is ideal for renovation & easy to install. Added value of this new solution: the box dissimulates the roller & the cover to create a submerged deck.

- The well is available in two heights to adapt to different types of pools : 950 mm and 1200 mm
- The PVC liner can be easily cut to size on site, if required.
- Maximum pool size :
  - 8 x 17 m for 950 x 950 mm liner
  - 8 x 23 m for 950 x 1200 mm liner
- Consists of 3 fibre beams and a PVC liner available in several colours or in wood
- The grating is delivered in 750 mm wide PVC panels that can be easily cut on site to adapt to the width of the pool.
- The submerged roller is sold separately.

1. Choosing your beam kit: The beams will be cut in the factory to the exact width of the pool indicated on the order form. Maximum width = 8m The beams are delivered with brackets for fixing to the wall.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Kit 3 beams with fixings and guide rails				
Maximum width inside the pool				
L ≤ 4,03 m	60016	-	-	-

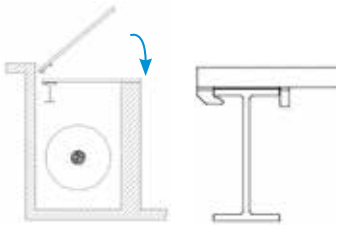
Submerged models - Submerged gratings accessories

Solution 1: STAINLESS STEEL GRATING

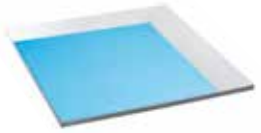
DESCRIPTION

- Stainless steel gratings for submerged decking
- Material: AISI INOX 316L electro-polished (grade-A anti-slip surface according to DIN 51 097 standard)
- Dimensions: Custom-built
- Compatibility: fitted to the FIBER beam
- Weight: between 12 and 14 kg
- Maximum depth: 120 cm
- Thickness: 35 mm



* Épaisseur : 30 mm

With fastening system



Lined version

Tiled version

Solution 2: PVC GRATING

DESCRIPTION

for tiling or lining with reinforced PVC

- Extruded PVC grating for submerged decking
- Material: Rigid extruded WHITE PVC
- Use: the grating can be tiled or lined with reinforced PVC.
- Compatibility: fitted to the FIBER beam.

Dimensions	Weight out of water	Maximum depth if tiled	Maximum depth if lined with reinforced PVC	Code
1 000 x 998 mm	43 kg	1 m	1,5 m	070378

Fiber Beam

- Material: Glass fibre reinforced polyester (GRP) with a grey (RAL 7030) thermoplastic coated outer surface.
- Maximum length: 12 m.
- Fixing: 316L stainless steel housing to be fixed to the wall or pre-sealed:
- Compatibility: with all types of gratings (coloured PVC, coloured PVC to be draped, PVC with wood veneer, in POLYESTER RESIN to be tiled, stainless steel).

An anti-flexion support is required if the width of the pool exceeds 8 m

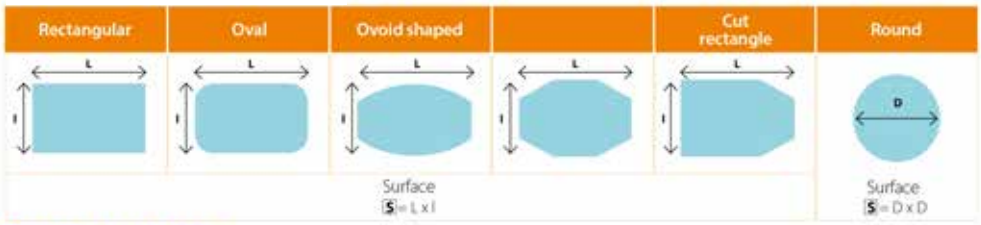
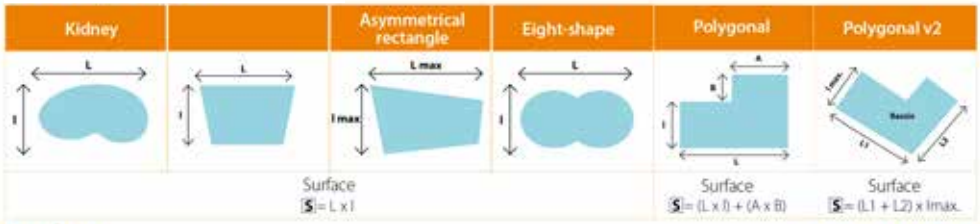
Standard shapes



Non-Standard shapes



Freeforms

- Any non-standard shape requiring a template for manufacture will be considered free-form.
- Describes the basin shape in a rectangle; L is length and l is height.
- Surface area: S = L x l
- Shapes must be measured correctly for adaption to established templates. If the basin is free-form and standard templates cannot be used, an additional amount will be applied.
- Templates must be checked in-factory and with the lines perfectly visible in order to prevent against misinterpretations.

Foam covers

FOAM

6 mm foam model

DESCRIPTION

- **Composition:** Material based on cross-linked polyethylene foam.
- **Joint:** Thermal welding with double-sided polyethylene tape.
- **Edges:** Sewn PVC trim.
- **DUO model:** Trimmed on both width sides
- **Luxe model:** Perimeter trim.
- **Fastening:** Eyelets at either end on primary width side.
  Eyelets approx. every 65 cm on secondary width side.
- **Composition:** Nickel-plated brass eyelet.
- **Option:** Polyethylene foam floating reinforcement on width side.
- **Packaging:** Supplied rolled up with a protective cover.
- **Thickness:** 6 mm.

Classification: Covers are classified as standard, non-standard or free-form, based on the different shapes defined in the catalogue.
Eco models are trimmed on both width sides.
Deluxe models have a perimeter trim.

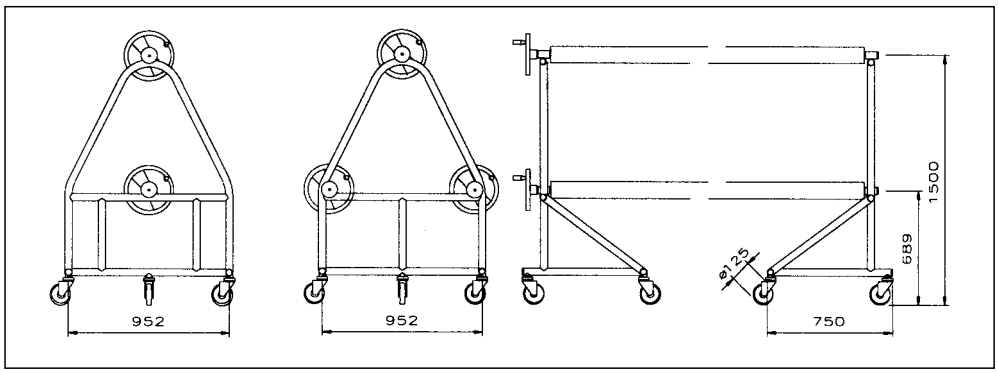
Mobile supports with 1 pipe. - Dimensions in mm.



Mobile supports with 2 and 3 roller pipes. - Dimensions in mm.

Rollers

Borna municipal model

Tube shown in the photo not included in supply

DESCRIPTION

It is intended to be installed in municipal indoor or outdoor pools of 12.5 x 25 meters maximum. It can be used for bubble or reinforced polyethylene foam covers. The distance between the roller shaft and the pool edges must be reduced as much as possible to prevent abnormal wear and tear due to the friction on the coping.

Technical features:

- 250 Nm 24V motor.
- 300 mm stainless steel shaft.
- Thermoplastic bushing with stainless steel bearing.
- Stand with a protective layer in thermoformed ABS.
- Remote control + Key.

	Code	Standard Pack	Standard weight in kg	Standard volume in m^3
Mechanical kit up to 12.5 m (max. 12.5 x 25 m)	38734	-	-	-

Double municipal model

DESCRIPTION

Makes it possible to cover municipal pools up to 15 x 25 m with bubble or polyethylene foam covers. 6.03 x 25 m.

Technical features:

- 2 x 120 Nm 24V tubular motors.
- 2 aluminium shafts.
- 6 wheels.
- Remote control + Key.

Bar covers range

- Safety cover to prevent children under 5 from getting into the pool.
- Compliant with standard NFP 90-308.
- For in-ground pool max. 11 x 5 metres (+ ladder).
- Allow at least 30 cm on each side of the pool (e.g., pool of 10 x 5 metres, cover of 10.60 x 5.60 m).
- Can be used all year round as it protects the pool from dirt in summer and winter and diminishes the proliferation of bacteria and algae.

Tramuntana cover

DESCRIPTION

- **Composition:** 580 g/m² PVC cloth reinforced with aluminium rods approx. every 1.50 m.
- **Joint:** High frequency weld.
- **Edges:** 6 cm double-edge welded along the whole length with anti-lift tapes inside.
- **Reinforcements:** Anti-abrasion PVC slides in each rod at the level of the coping.
- **Fastenings:** Tapes and stainless steel hooks. Cylindrical stainless steel/aluminium stakes.
- **Drainage:** Holes for draining rainwater across the whole width of each rod.
- **Rolling:** 1 or 2 cranks, depending on cover size.
- **Packaging:** Cardboard and instruction handbook.

fitt b-active: resistente, flexible, seguro

FITT B-Active Flex: la nueva tecnología **EVO TECH** hace que la manguera flexible sea 6 veces más resistente que las otras mangueras al fenómeno de las grietas, según la norma EN ISO 3994, y la protege manteniendo inalteradas las características de elevada flexibilidad y estrecho radio de curvado.

FITT B-Active Rigid: la tecnología **SHOCK WAVE** hace que el tubo rígido sea 40 veces más resistente a los golpes respecto al mínimo prescrito por la norma EN ISO 1452, ideal para la instalación incluso con las temperaturas más bajas.

Las mangueras y los tubos **FITT B-Active Flex & Rigid** se pueden integrar perfectamente en cualquier proyecto asegurando la máxima seguridad, resistencia y duración.

Fitt B-active RIGID

DESCRIPTION

- Mechanical and chemical performance tests were run both internally and with the collaboration of Padua University/DTG Laboratory. Test certified by TÜV (test record no. MEC16173.00).
- Complies with European Directive (EU) 10/2011 for A-B-C simulants
- Operating temperature -10°C/+60°C.
- Formula with phthalate content ≤ 0.1 %.

Conforms to the EN ISO 3994:2014 standard
TÜV approval no. B 17 04 55285 007

Tolerances comply with standard UNI EN ISO 1307: 2008. Thermoplastic products subject to deformation due to outdoor ambient temperature and retraction; longitude tolerance is ± 5%.

3-way rotary disc valve

Manual valves

Automatic valves

DESCRIPTION

3-way rotary disc valve in PVC-U with rotary flap to shut off one port. Can be used in circuits where the working pressure is not above 6 bar (90 psi); includes a lever that shows the closed port.

Sizes: Ø 50-63 mm and Ø 63-75 mm. Available in manual (lever) or automatic (electric actuator) mode. Designed for use in pools and spas. The manual valve can have 2 open ports and 1 shut off, 3 open ports or a partial adjustable opening, whilst the electric actuator can be turned from 90º to 180º and has a 220 VAC or 24 VAC connection.

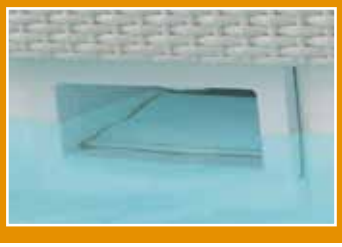
PLAYA

PLAYA is an elegant mini-pool created from the great Italian design.
The gentle hydromassage, the heated water, the pleasantness of the hand woven fibers, invite you to relax in total wellness and allow you to enjoy it both indoors and outside the house. Playa Living is the evolution of Playa model with its soft cushions; it becomes a relaxing oasis, a real "lounge" that decorates the interior of the house or outdoor spaces.

Pool liner

Playa skimmer



LED spotlight

Air massage

LINER
High strength liner in durable polyester and polymer. White color.

STRUCTURE
Structure made of stainless steel (skimmer side) and zinc magnesium steel S250GD ZM310 powder coated (ZSMV-TEC).

AESTHETIC FINISHES
Wicker exterior panels on aluminum frame. Colors: Laghetto white or grey.

FILTRATION SYSTEM
Laghetto exclusive filtration system and water treatment.
Filtration system composed of:
One wall skimmer complete with pre-filter, 2 cartridge filters (1 spare part) and pump.
Included: suction plate and brush for bottom cleaning.

LED SPOTLIGHT
Small, white, LED spotlight.
High brightness spotlight.

AIR MASSAGE
Air massage with bubbles.
Only for versions Playa HYDRO & HEATER and Playa Twin.

HEATING
Water heating.
Only for versions Playa HYDRO & HEATER and Playa Twin.

Sunbed

Playa Living elements

SUNBED (optional)
Nautical Sky fabric finish available in several colors.
Colors: natural, brown, grey, water.

PLAYA LIVING ELEMENTS
Playa Living elements with aluminium structure and wicker panels.
Available in several sizes and also with reclinable backrest. Matching cushions with nautical Sky fabric finish.

POOL WARRANTY: 5 YEARS

PLAYA Twin

Playa Twin is the new concept of a design mini-pool, created by the italian style and elegance. This version is enriched with a double sunbathing area over the two twin lockers, and two deck chairs that can become the cover of the mini-pool itself, when not used.
The rattan panels are proposed in two colors, Laghetto White and Grey and it is equipped with heather and bubbles system.

FEATURES

- Size: ONLY 1 SIZE - only heater and Bubbles version
- Color: Laghetto White.
- Filtration: cartridge and wall skimmer

ABOVE GROUND POOLS - DOLCE VITA

Dolce Vita

A pool that looks good in any environment and that you can build even where a traditional inground swimming pool can't be placed.

Dolcevita is the most fashionable and desirable pool for those people who search something to stand out and who setup a space dedicated to the pleasure and the family relaxation.

DIVA - RATTAN

ABOVE GROUND POOLS - DOLCEVITA

Dolce Vita

FEATURES:

Dolcevita renews the world of above-ground pools thanks to a sound technology Laghetto which is on the market for over 40 years, and its innovative and graceful design.

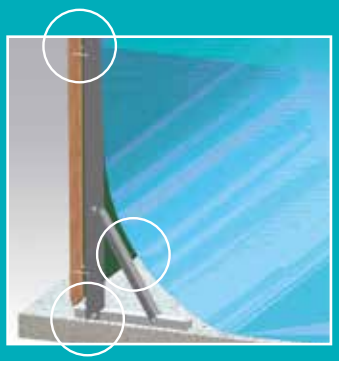
Dolcevita can adapt to the needs of a changing family, allowing thoughts, repositioning, moving, resale.

Its versatility allows easy and quick installation even in areas with seasonal permits only.

Dolcevita provides a recirculating and filtration system which enables the highest quality and hygiene of the water purity.

Dolcevita comes up in many different models: Rattan, Diva, Diva LTI and Naked, with high quality materials that ensure long time use.

Structure



Pool liner

Plastic Wood Coping (RATTAN line)

TRELLIS PILLARS

Stainless steel and zinc magnesium steel S250GD ZM310 powder coated structure with stainless steel piece of support.

TRELLIS SPARS

Stainless steel and zinc magnesium steel S250GD ZM310 powder coated.

NUTS AND BOLTS

Stainless steel with anti-grip nuts.

LINER

Made of PVC coated polyester fabric membrane it is incredibly strong (it easily passes DIN 53354 test up to traction of 430 Kg on 5 cm) , it is treated with a special coating that prevents dirt from attaching to exposed areas and provides protection against damage caused by UV light to be very durable.

DOLCEVITA TOPRAIL FINISH

Rattan (and Naked) toprail finish is a dedicated composite wood made for us exclusively by Plastic Wood. Diva and Diva LTI toprail finish is integrated in the design of the special wicker panel.

Warranty on the pool (liner + structural parts) is 5 years, warranty on all the other accessories included in the kit is 2 years.

Dolce Vita

Diva panel

Dolcevita Diva ladder

Laghetto Led Spot

Vacuum cleaner

DOLCEVITA PANELS

Dolcevita finish is available in 2 different panels options: wicker with wicker corner pieces for the Rattan line, or the exclusive solution created for the DIVA line, where the Viro wicker panels also cover the top rail of the structure.

DOLCEVITA LADDERS

The Dolcevita finishes have two different kinds of ladder to access to the pool.
Rattan (and Naked) kit include a ladder with the liftable external.
Diva and Diva LTI kit has a dedicated luxury ladder.
A plexiglass safety kit is available on this model to prevent access to the pool.

LED SPOT LIGHTS

Every Dolcevita, no matter what finish, comes standard with Laghetto Led spot lights.
These led spot lights have a peerless luminous efficiency, very low power consumption (less than 8 W) and an unmatched durability.

VACUUM CLEANER

Every Dolcevita Pool kit also include a vacuum cleaner (pipe length varies according to the pool size and the number of skimmers).

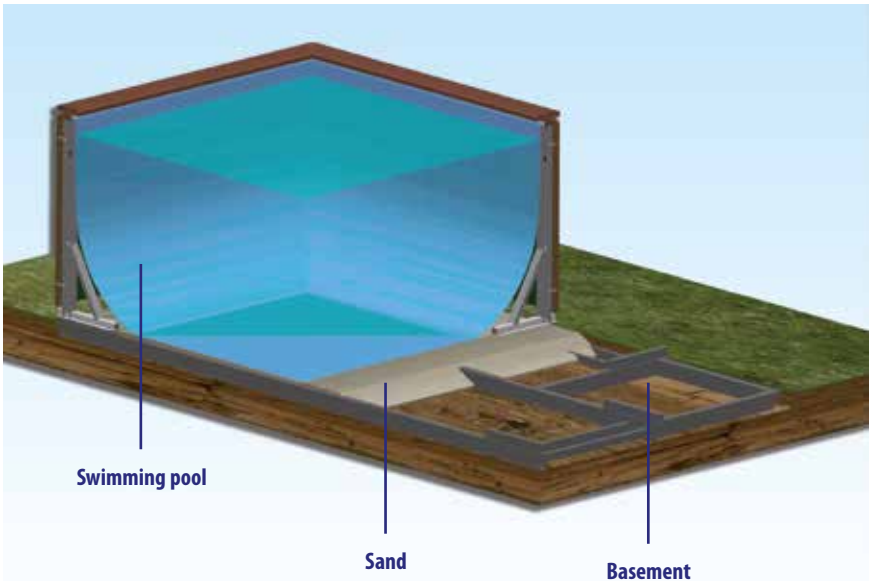
STEEL BASEMENT STRUCTURE FOR A NON-SLAB ASSEMBLY DOLCEVITA 5x10	DVC510KITTB	69631

BASEMENT FOR DIRECT ASSEMBLY ON THE GROUND



- Zero impact installation.
- For installation where no concrete basement can be made.
- Easy to move and assemble.
- Fully removable.

Stainless steel components

to stabilize the structure of the pool

The kit is an AISI 304 stainless steel locking system consisting of fasteners that allow to prevent normal structural beddings (misalignment) of dolcevita during the filling phase.

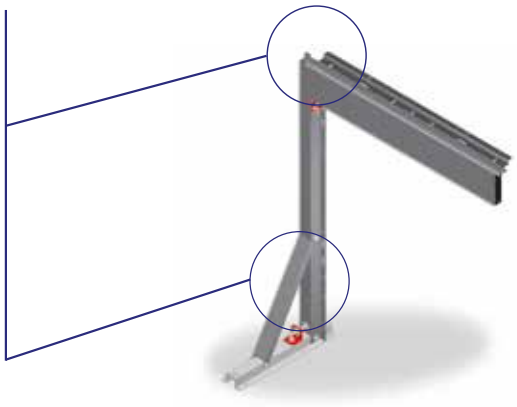
FIXING AND ALIGMENT KIT



THE KIT IS AN AISI 304 STAINLESS STEEL LOCKING SYSTEM CONSISTING OF FASTENERS THAT ALLOW TO PREVENT NORMAL STRUCTURAL BEDDINGS (MISALIGNMENT) OF DOLCEVITA DURING THE FILLING PHASE.

- With the kit you can't align the pool once filled.
- It's compatible without any modification only with Dolcevita structures from April 2014.
- You can't add the kit to assembled pool, to fit it you must dismantle the pool completely.
- If the Dolcevita structure has been purchased before April 2014 some modifications to the structure are necessary.

ABOVE GROUND POOLS - DIVINA

INFINITY *Divina*

CONTEMPORARYSEMI-UNDERGROUND

Divina, the latest addition to the Laghetto Pool Design range, already expresses from its name the style and charm that distinguish it.
Its semi-underground basin is wrapped in panels with a pleasant synthetic rattan finish, hand woven on aluminium frame; embellished with a sunbed and seats with soft cushions in nautical Sky, can be equipped like a traditional swimming pool: LED spotlights, swimming against the current and heater, which allows you to enjoy the pleasure of the pool for longer.
Equipped with skimmer filtration system, with a technical room under the sunbathing area, it can be installed without impacting construction works and in just a few days.
Divina Infinity is the new concept of overflow semi-inground pool, launched in 2022, available for assembly only on concrete basement. It represent a new elegant proposal that allows to enjoy the maximum of your pool in terms of elegance, design and performances.

FEATURES

- Size: 35 - 36- 37 - 48
- Filtration: Overflow + sand filter.
- RATTAN PANEL COLOR: Laghetto White - Grey
- LINER COLOR: White - Beige
- MODEL: Version only for assembly on concrete base

Infinity Divina is a semi-grounded pool as Divina, but Resort has a filtration with the overflow system. The water mirror sizes are the same as Divina. Infinity model is available only in the version with structure for assembly on concrete base.

POP!

is the range of above ground pools
with which Laghetto celebrate
its first 40 years
in the swimming pool industry.

It's the result of four decades of patents
and innovative projects and represent
the highest expression of quality
on the above ground pools market.

The Pop range is available both
in 100 and 120 cm water depth
in a wide choice of soft, cool and fashion colors
you can set in a pleasant and
unconventional way in your space or garden.

POP!

Pool liner

Patented Laghetto skimmer

Above-ground pool foot support

LINER

Made of PVC coated polyester fabric membrane is incredibly strong (it easily pass DIN 53354 test up to traction of 430 Kg on 5 cm) , it is treated with a special coating that prevents dirt from attaching to exposed areas and provides protection against damage caused by UV light to be very durable.
Every Laghetto POP liner is available in 6 cool colors and comes with the distinctive red label.

LAGHETTO SKIMMER

The legendary skimmer of Piscine Laghetto is directly attached to the corner of the pool liner. The floating head skims the water surface with a perfectly efficient 360 degree action. This is the most effective skimmer design on the market.
Every skimmer includes a pre-filter basket (if used with sand or cartridge filtration systems) or a special microfiber fabric filtrating element (Boa system).
The wide excursion of the floating head follows the water level precisely for a better efficiency and avoids almost completely unwanted air draw that can damage the pump of the filtration system.
Every skimmer head is equipped with devices for the safety of all swimmers.

FOOT BLOCKS

Every pool is supplied with a complete set of foot blocks that replace the need for any support under the pool legs by providing a solid base.
Foot blocks come in white color to match the structure and the top of the Liners.

Laghetto pipes

Safety ladder

Vacuum cleaner

PIPINGS

The pipes of the filtration systems are another of the high quality components that characterize Piscine Laghetto products. Pipes for POP pools are made of highly resistant and durable white corrugated PVC, with one - and - a half inch fittings, pressure mounted and glued together (factory assembled to ensure the best possible seal over time). The pipes, with threaded connectors and gaskets, are screwed to the wall fittings of the pool and to nipples of the filtering system, without using any type of cable tie.

LAGHETTO SAFETY LADDER

Introduced already back in year 2000, Piscine Laghetto safety ladder is the most stable and secure aboveground pool ladder on the market.
It's connected directly to the pool structure to avoid overturning and the outside steps can be lifted to avoid the entrance of the kids when the pool is unattended or unused.

VACUUM CLEANER

Every POP Pool kit also include a vacuum cleaner (pipe length varies according to the pool size and the number of skimmers).

POP!

AstralPool sand filters

SAND FILTRATION SYSTEMS

The technical partnership between Piscine Laghetto and AstralPool introduces the 6, 10 and 15 mc/h sand filters in all swimming pool kits.

CRYSTAL POP!

CRYSTAL POP

Something thrilling for the 2022 summer? A new above ground pool that will fascinate everyone with its strips of transparent liner that create a suggestive light effect both during the day and the night, when it creates a magical and inimitable atmosphere.

Available in two sizes and two liner colors, it is equipped with a sand filtration system (6 m^3/h) and all the same equipment as POP pools, with led lights to create and emphasize the magic of light beams through the crystal transparent liner stripes.

FEATURES

- Size: 24 (2X4M) - 25 (2X5M).
- Color: white or beige.
- Filtration: Sand - 6 m^3/h.

PISCINE LAGHETTO®

your water mirror

Dolce Vita

Elegant in design, this system has revolutionized the world of pools. The unbeatable quality rattan and sound technology ensure a long service life.

PLAYA

An extremely elegant mini-pool that is perfectly suited for terraces and gardens.
Hot water, an air massage and bubble feature, and a space for sunbathing.
Available in Laghetto's colours: Laghetto white and grey.

pop!

The classic above-ground pool has been revamped to bring colour into your garden.
Pop! can be white, sand, green or lilac. Design adapted to new technology backed by 40 years of experience.

For further information go to: www.piscinelaghetto.com

Classic

THE CLASSIC LAGHETTO

Classic is the line of above ground pools that for decades has represented the history of the above ground pool and of the Piscine Laghetto brand, thanks to the unrivalled mix of quality, durability and reliability.

Classic is continuity in the Piscine Laghetto tradition, made up of made in Italy swimming pools, the result of unceasing evolution and over 40 years of research, experience and innovation that allow those pools to be used in the widest variety of contexts and conditions.

TECHNICAL FEATURES

High impermeability PVC coated high strength pool membrane

Patented Laghetto skimmer with 360 degrees performance

Heavy duty PVC pipes and fitting

Safety ladder

Exclusive Laghetto filtration systems

Foot blocks for assembly on unpaved surfaces

Vacuum cleaner

PROFESSIONAL

The technology of Laghetto **Professional** is also the base for the production of large pools that are used worldwide by event organizers that need a pool ready in a few hours, extraordinarily strong, suitable to resist the many different situations.

The design capacity of our research and development team is able to satisfy every request from the customer.

Professional is available in customisable sizes from 7.5 x 15 m. Available water heights: 60, 100, 120 cm.

* Overall dimensions of the pool including foot blocks.

Inoxpool

+ Pool manufactured in one piece in satin-finish, AISI-316L stainless steel.
+ With a 2 mm thickness wall and with skimmers. It includes a non-slip bottom.

- Hydraulic pre-installation included.
- Ready to connect.
- Easy installation, without building work.
- Total security and quality.

+ 2 Differents models:

OPTIMAL

Optimal model is a residential pool made in one piece in satin-finish stainless steel, AISI-316L including skimmers. It includes a ladder.

WELLNESS

Wellness model is a residential pool made in one piece in satin-finish stainless steel, AISI-316L including skimmers.

Including:

- Steps
- Hydromassage bench
- Hydromassage cascade
- Hydromassage water jet
- Cover

Our range of spas

Ocean Dreams range

+ A range of spas intended for the most demanding users.
+ Ergonomic spas, with numerous features and configuration settings.

Swimspa range

+ Swimspas are small residential pools.
+ Versatile, powerful and compact. A health and wellness centre available all year round.

Essential range

+ The Essential range seeks to strike a balance between functionality, performance and cost.

Commercial range

+ Spas designed for commercial spaces, wellness centres, hotels...
+ A wide range of options and finishes that cover all needs. Spas with both an acrylic and mosaic tile finish.

We reserve the right to change, wholly or partially, the features of our products and the contents of this document, without prior notice

Coding structure for private spas with cabinet

The coding structure for the wood cabinet spas is made up of 10 digits. The first 5 digits refer to the Spa model and the following ones indicate the range, coating and the colour of the accessories as it is also necessary to specify the colour.

This coding system will be structured in the following way:

XXXXX	X	X	X	XX	CL	XX
Spa Model	Range	Coating type	Accessory colour	Accessories	Variation	Colour

Position 1 to 5: Standard code 5 figure code

Position 6: Product range definition

S	Standard
A	Plus

Position 7: Coating type definition

1	Coastal Grey portable spa with cabinet
4	Portable spa without cabinet
E	In-ground spa, compact kit version
B	Urban Grey cabinet
K	Graphite cabinet
P	Graphite cabinet with screw
R	Thunder cabinet
Q	Thunder cabinet with screw
T	Creek cabinet
C	Infinity cabinet
S	Solid Surface
W	Butterfly cabinet

Position 8: Accessories colour definition

3	Stainless steel

Positions 9 to 10: Options configuration definition

OPTIONAL EQUIPMENT

EcoSpa thermal insulation

EcoSpa is one of the best thermal insulation systems currently available in the market. This comprehensive system manages to minimize heat loss by convection and conduction, and to use the heat generated by the heater and pumps found in the spa. The walls have an exclusive 30 mm thick layer of polyurethane foam insulation. A strong ABS substructure of insulating plastic at the bottom of the spa ensures total water tightness. Finally, an isothermal cover of between 100 and 130 cm thick gives extra insulation.

All of these features reduce heat loss to a minimum and maximize the recovery of the heat generated by the spa's components, thus reducing energy consumption by up to 67%. With ECOSpa, consumption to maintain the water at 38º with a room temperature of 20º is 6.48 kW/h, while without this system it is 19.52 kW/h.

EcoSpa option

Nordic Insulation System

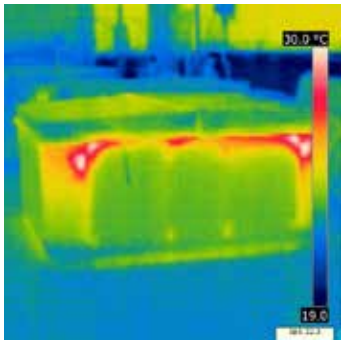
NORDIC INSULATION SYSTEM is designed for cold environments and can enhance your spa's energy efficiency.

The Nordic insulation system comprises a 10mm insulating material composed of five layers. This insulation layer is positioned in the sides and curves of the spa to create an insulating air chamber inside. The five layers are made from:

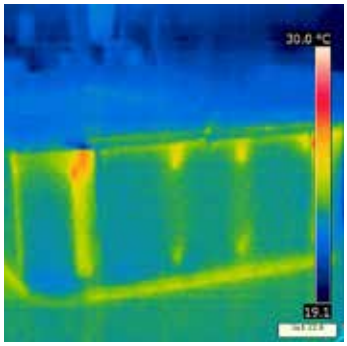
- Aluminium.
- RC9 bubble + low-density polyethylene (double layer).
- FONPEX non-crosslinked polyethylene foam (20 kg/m^3).
- RC9 bubble + low-density polyethylene (double layer).
- Aluminium.

This system is an improvement over the EcoSpa class as it minimizes temperature leak zones and optimizes spa energy performance in extreme temperature situations.

Difference between the EcoSpa and Nordic insulation systems in thermal imaging:



Spa with EcoSpa



Spa with Nordic insulation system

Wi-Fi Touch panel

The Balboa Wi-Fi control panel is an app for your smart device (Android™ or iPhone®) which lets you access your spa over the internet from anywhere, home or away. All you need is a 3G, 4G or Wi-Fi connection to access and control your spa over your mobile phone or tablet.

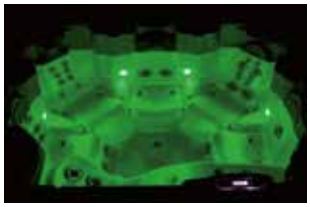
By using the Wi-Fi control panel, you can make sure that your spa is ready for use every time you want to take a dip. Instead of having to go outside and fiddle around with the buttons on the control panel, this app will enable you to change your spa's settings from your mobile phone or tablet.

The app has a full control interface so you can set the water temperature, run the massage pumps and even control the filtration cycle.

OPTIONAL EQUIPMENT

LumiPlus + Bluetooth Audio System,

only available for fully skirted portable spas



Natural treatments are one of the main sources of health provided by a spa. Chromotherapy and music therapy are the perfect accompaniment to any hot tub.

Chromotherapy is the natural technique based on the use of colours to help your mind and body find their natural physical, mental and emotional balance. By choosing the LumiPlus option, 5 LED spotlights are added to your spa so that you can enjoy a spectacular ambient lighting system. Thanks to the 5 LED spotlights, you can choose the colours that match your mood at any given time.

The Bluetooth Audio System enables music to be played from any mobile phone, MP4 Player or audio equipment via a simple Bluetooth connection, without the need for any cables and with coverage of up to 7 metres. Now you can truly make your spa a centre of relaxation, health and beauty.

The Advance range has a 4.1 Bluetooth Audio system made up of 4 external loudspeakers, an internal subwoofer and a Bluetooth receiver.

The Essential range has a 2.1 Bluetooth Audio system made up of 2 external loudspeakers, an internal subwoofer and a Bluetooth receiver.

LumiPlus + Bluetooth Audio System option

Blue Connect Plus

Enjoy your Hot Tub with peace of mind

Blue Connect analyzes the quality of the water and shows you the needed chemicals for the maintenance of your Hot Tub.

Advanced technology connected to your smartphone

Blue Connect Plus is a smart hot tub water analyser that controls the quality of your water and informs you about the number of products available for your hot tub. All from your smartphone.

Sit back and relax. Thanks to Blue Connect, your Hot Tub is at your fingertips

Monitor your Hot Tub wherever you are with the connected Hot Tub water analyzer and the free Blue Connect app.

STANDARD EQUIPMENT

Balboa Electronics, standard

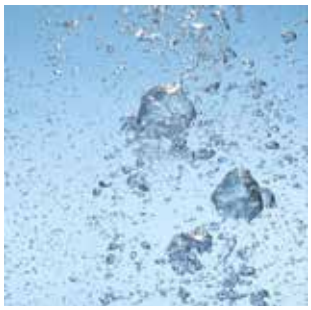
in all spas

BALBOA WATER GROUP

AstralPool only uses new generation control systems made by BALBOA, a leading supplier of electronic controls for hydromassage tubs and spas.

With the continual improvement made to its designs and its innovative solutions to increase the quality and reliability of its systems, the Balboa EL/GL and VS/GS family of control systems has been designed using patented M7 technology for temperature and flow sensors, and its new universal control system increases the flexibility of its functions and reduces installation and configuration problems.

These characteristics make the controls even more reliable, easier to install and easier to use.



Ozone disinfection system

Ozone is "active oxygen", a special element found in nature. Ozone is a powerful oxidising agent and, unlike traditional chemical products, it does not leave toxic waste behind, and when it has done its work it simply turns back into oxygen. Moreover, tests have proved that it effectively kills bacteria and mould.

AstralPool manufactures spas that give high quality performance and supplies an integrated ozone generator as a standard feature in all of its portable spas. The ozonator has numerous benefits: the water in spas will be safer, cleaner, purer, free of chloramines, trihalomethane and other chlorine by-products, with a high redox potential. Greater water clarity and algae control are obtained using lower concentrations of chemical substances.

A spa with water purified with ozone is one of the most pleasant relaxation and hydrotherapy experiences.

Ultraviolet disinfection system

Spas equipped with the ultraviolet system are disinfected using UV technology. Thanks to a UV lamp, all bacteria in the water are destroyed. The advantages of the ultraviolet system can be summarized as follows:

- It ensures water remains fresh, clean and clear.
- It is an efficient and safe way of disinfecting the water.
- Its UV-C light breaks down combined chlorine.
- It protects the water from germs.
- It keeps the formation of mould, bacteria and algae under control.
- It can reduce the amount of chlorine and other chemical products used by up to 80%.
- It prevents the smell of chlorine and irritation to the skin and eyes (bloodshot eyes).
- It is more environmentally friendly than traditional methods.

Using this system, all bacteria, mould and algae will automatically be removed from your spa, and it will be protected from germs without the need for any kind of maintenance.

Aroma, only available for spas

with a blower

Aromatherapy offers the therapeutic properties of pure aromas for a natural treatment and makes a significant contribution in helping to restore your natural state of balance and harmony.

Nobody is indifferent to smells. They bring to mind emotions, memories and ideas. Increase the relaxing effect of your tub by adding a fragrance!

Continuous operation

lateral turbo blower pump

DESCRIPTION

Air pump designed for spas, hydromassage tubs and similar which produces a constant stream of air bubbles at medium and high air volume levels. It can also be used to stir up the filter bed, for example in backwash cycles where a low intensity air current is required. The filter casing and impeller are made from an injected aluminium alloy whilst the motor spindle is manufactured from stainless steel, with the impeller dynamically balanced and directly adapted to the spindle. The motors, 2 single phase or 3 phase for continuous use, are made from steel in compliance with CEI 2/3 1988 regulations, and feature IP54 external protection and class-F insulation. The pumps can be mounted horizontally or vertically. Moreover, since there is no contact between the mobile parts and the pump static discharges, neither lubrication nor maintenance is necessary and it also doesn't cause wear on the parts.

The turbines have a maximum working temperature of 40ºC. Do not use in conjunction with aggressive, inflammable or explosive gases.

Cala Pump

DESCRIPTION

Centrifugal pump for spas, backwashes and other applications.

- Pump body manufactured in polypropylene reinforced with fibreglass, resistant to pool chemical products thus guaranteeing long and excellent duration.
- Turbine in Noryl.
- Graphite and ceramic mechanical seal.
- AISI 316L stainless steel motor spindle.
- Enclosed motor, completely silent, with IP-55 protection at 2850 r.p.m. Single phase power voltage at 230V-50Hz or triphase at 230/400-50Hz.
- Versions from 1.5 to 4.5 HP.
- Suction and return connections for gluing hoses included with the pump.
- Suction and return at Ø63.

The sauna pictures do not show the standard product (some accessories can be included from table Accessories Summary).

Please note the codes of the accessories when ordering.

- **The benefits of an AstralPool sauna range from muscle relaxation to sweat stimulation thanks to their hot and dry environment (relative humidity between 20% and 50%).**
- **AstralPool saunas are made from prefabricated panels with interior insulation in mineral wool and aluminium.**
- **The wall coating is covered with pre-treated wood that has been fired and dried to last for many years.**

Bella sauna

The Bella sauna can be made to order in the following woods:

- Standard wood: Hemlock Playwood
- Bench wood: Thermo Aspen

DESCRIPTION

- Hemlock playwood panels 14 mm.
- Curved decorative elements of Thermo Aspen 21 mm.
- Benches of thermos Aspen 21 mm.
- Secured transparent glass 8 mm.
- Harvia design sauna heater.
- Outdoor touch control panel.
- Aromatherapy/Salt Metal Bowl.
- Led light warm white 3000 K.
- Option for glass ceiling.

Xenio Control

DESCRIPTION

Harvia Xenio is a control unit with a touch control panel. Xenio provides a modern and subtly stylish user interface for controlling the heart of the sauna, the heater. The stylishly small yet clear touch control panel is easy to install where you want it: in the sauna, the shower room, the dressing room, or even the living room. The control panel enables you to see with just one look when your sauna is at the right temperature for you.

CDP LINE 2 Dehumidifier

DESCRIPTION

The new CDP LINE 2 dehumidifier console is used in installations where humidity and temperature control of small pools and spas is required.

- Evaporation and condensation battery made out of copper pipes with lacquered aluminium fins (specially designed for corrosive environments).
- New generation of rotative compressors, more efficient, reliable and quieter.
- Electric heating or hot water coil option.

CDP LINE 2 casing is made of polypropylene (EPP) which reduces its weight and noise level.
It is also possible to personalize the front panel with a dedicated image, as an optional extra.

TECHNICAL FEATURES

OPTIONAL U.V. DISINFECTION SYSTEM

DESCRIPTION

The BDP Confort heat pump is used for the dehumidification of indoor pools, using the latent heat of evaporation and the performance of the system itself to heat the pool water and the room air.

The energy savings achieved with these systems compared to traditional heating systems mean that they are virtually essential when you wish to heat an indoor pool.The wide range of models covers all market requirements.

- Made of non-corrosive magnesium coated aluminium.
- Thermal-acoustic inside insulation.
- Direct transmission single centrifugal ventilator. Radial Ventilator Optional.
- Air filter can be changed for a G4 type filter.
- Condensation collection gutter with drainpipe.
- A copper nitrogen, dehydrated and deoxidized refrigerated circuit. Air condensation.
- Ozone-safe R407C refrigerant gas charge (ecological).
- Evaporation, condensation and hot water batteries made of copper pipes with lacquered aluminium fins (specially designed for corrosive environments).
- Airtight compressor mounted on anti-vibration mounts.
- Pressure balancing expansion valve.
- High and low pressure switch.
- General security switch.
- Power source, compressor and ventilator motor protection mechanisms.
- Full adjustment of all the items included.
- Three-way valves and their regulation when a hot water coil is incorporated.

OPTIONAL

- 1 or 2 stage electric heating option to support air heating.
- Hot water coil to support air heating, with three-way valve, temperature probe and regulation (ask about primary temperatures different to standard equipment).
- Freecooling or mixed chamber and shutter to bring in outside air.
- Optional enthalpic regulation in the case of freecooling.

GENERATION OPERATING CONDITIONS

The thermo-hygrometric conditions for these facilities that are considered optimal for materials and people include:

- Air 28°C - 30°C
- 65% HR
- Water 2°C below air temperature.

DEHUMIDIFICATION

> THE RIGHT DEHUMIDIFIER FOR EVERY POOL

A room or veranda sheltering a pool is a place where **the relative humidity in the air is high.** Water vapour trapped inside condenses on the cold walls, forming water droplets and condensation, while the air is progressively saturated with humidity. There are many consequences of these phenomena: **appearance of mould, peeling, rusting, etc.** To ensure the comfort of bathers and long life of an indoor pool, **it is essential to install a dehumidifier.**

> SWIMMING POOLS IN CONSERVATORIES

Given the large area of glazed surfaces in a conservatory, it is strongly recommended to install a dehumidifier system with a system of ducts fitted around the room.

> COVERED POOLS

- **For use from March to November:** a simple dehumidifier, free-standing or fitted, combined with a cover can ensure a comfortable atmosphere.
  The ambient air can be heated as necessary, but it is generally the sun's rays that increase the air temperature.
- **For use throughout the year:** only a gas or oil boiler, accompanied by a dehumidifier unit with a hot water coil installed in a room close to the shelter, can keep bathers comfortable throughout the year.

> SPAS

In a room housing a private pool, there is very often a spa, either integrated or independent of the pool. In this case, the quantity of water evaporated by the spa must be added to that evaporated by the pool and fit the appropriate equipment .

> PROFESSIONAL SWIMMING POOLS

The greater use and higher water temperature of this type of pool causes a much greater level of evaporation. Calculating evaporation here requires complete understanding of the parameters and equipment to conduct a thermal audit.

Important: it is essential to ensure replacement of fresh air at a minimum of 22 m^3/hr per person.

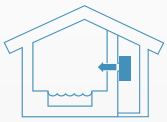
3 CRITERIA TO BE MET FOR OPTIMUM COMFORT:

1. **Water temperature:** from 26°C to 30°C, or higher for medical or professional uses.
2. **Air temperature:** from 26°C to 30°C, often set to the same value as the water temperature.
3. **Relative humidity:** between 60% and 70%. Below 60%, it feels too cool when getting out of the water.
   Above 70%, it feels too muggy and condensation forms in the room.

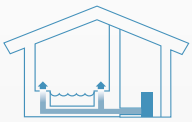
> 3 TYPES OF DEHUMIDIFYING SYSTEMS

Zodiac® offers a wide range of solutions, split into three categories: **free-discharge, through-the-wall and ducted units.**
All these systems operate on the principle of the heat pump: drawing in warm, moist air and blowing out warmer, dry air.

Free-discharge systems



Through-the-wall systems



Ducted systems

> FREE-DISCHARGE UNITS

These monoblock DT or Sirocco² systems are **designed for small volumes and require no ducting.** The units can be placed **in the room housing the pool**, more than 2 metres from the pool.

This free-discharge solution is the **simplest and most economical** for maintaining the relative humidity at a comfortable 65% level in the room. However, it is not effective in dealing with condensation on the windows.

DT 850 E

SIROCCO² FREE-DISCHARGE

Through-the-wall DF

> THROUGH-THE-WALL

These Sirocco² or DF monoblock systems are installed **in an adjacent plant room through the walls.** Only an inlet grille and an outlet grille are visible in the pool room.

This simple solution allows the **dehumidifier to be installed outside the pool hall (plant room adjacent to the pool)** but does not deal effectively with condensation on the windows.

> DUCTED MODELS

A ducted system (DF or unit) is the only solution for **dealing effectively with condensation on the windows,** because it is possible to fit outlet grilles along the glazed walls.

Only these grilles are visible in the pool room while the equipment itself can be installed **in the nearby plant room.**

Ducted DF

Ducted CAE

Ducted OMEGA

We offer an entire series of complementary accessories to enable you to build your complete installation:

- ventilation accessories
- inlet and outlet grilles
- ducts and diffusers

DEHUMIDIFIERS

A silent instalation

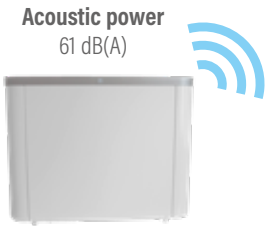
> EXPRESSING THE NOISE LEVEL WITH PRECISION

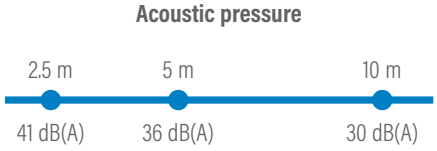
Sound level is expressed:

- Either **as acoustic power dB(A):** this is the unmodified noise level of the emitting source.
- Or as acoustic pressure dB(A): this is the sound level perceived by the human ear.

It depends on the installation environment and distance at which the measurement is made.
It must therefore always include a measuring distance.

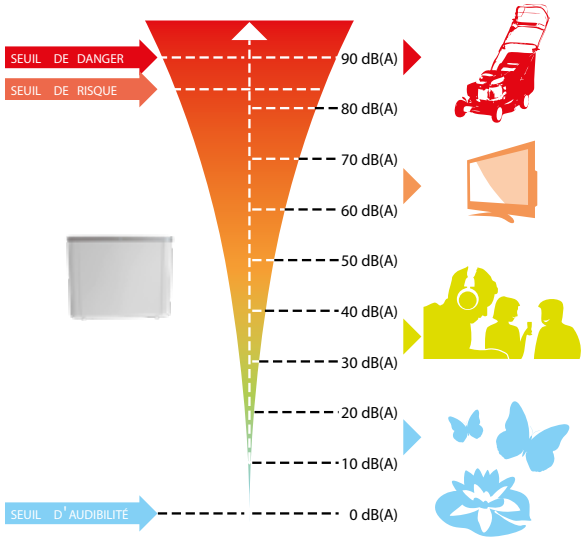
The further you are from the emitting source, the more the sound level falls: it is reduced by 6 dB(A) for every doubling of the distance.





To compare the noise level of several machines, check what type of value you have, power or pressure, and if it is pressure then at what distance was it measured!

NOISE SCALE



> REDUCE NOISE TRANSMISSION THROUGH THE DUCTS

Special attention will be given to the aeraulic networks:

- **Size the ducts appropriately for the air flow**, limit turbulent sections, provide straight lines between each turbulent section.
- **Reduce the transmission of vibrations through the ducts:**
  - Install sleeves where they pass through walls,
  - Use anti-vibration collars to support ducts,
  - Use flexible couplings between the equipment and the duct network.
- **Size the inlet and outlet grilles** appropriately for the air flow rates passing through them. Provide expansion chambers between the grille and the duct.
- **Fit a sound trap**, if necessary, in the outlet ducts, particularly to avoid the noise propagating.

Example of duct installation

> RECOMMENDATIONS FOR INSTALLING A DEHUMIDIFIER

A dehumidifier system includes 'moving' parts (compressor, fan, etc.), vibrations from which can spread and build up.
A ducted unit installed in a plant room will provide the best possible noise solution.

However, to avoid or reduce disturbances, a few installation rules should be observed:

- **Install the dehumidifier on suitable anti-vibration blocks.** Renew them if necessary, because they lose effectiveness over time.
- **Install the system** either on a mounting base independent from the building and weighing twice as much as the dehumidifier, or on a very rigid support frame.

Support frame

Anti-vibration blocks

HYGRO CONTROL

Simple dehumidification

Hygro Control is a hygro-thermostat designed exclusively by Zodiac® **for easy and intuitive control of the dehumidification equipment.**

HYGRO CONTROL

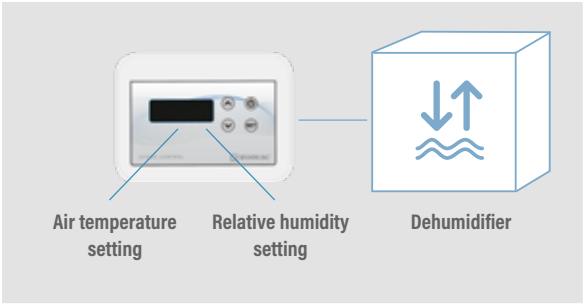
REFERENCE POINT
Find Zodiac® dehumidification products equipped with the Hygro Control function by locating this pictogram in the catalogue.

> HOW DOES IT WORK?

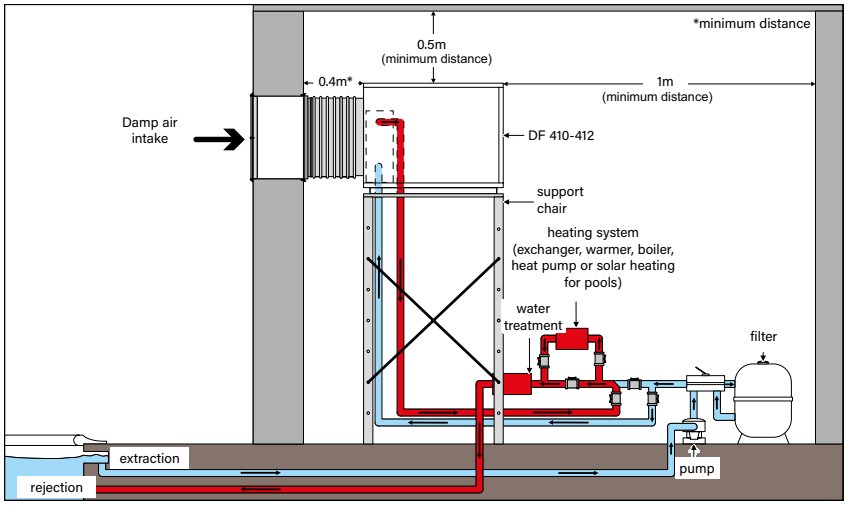
Hygro Control is an accurate and easy to use digital control unit for **setting the desired relative humidity.** Relative humidity characterises the moisture in the air, specifically the quantity of water present as gas in the air in the room or conservatory housing the pool.

If the dehumidifier is fitted with the 'heating' option, Hygro Control can also set the room air temperature.

The unit is supplied with CAE, DF and OMEGA dehumidifiers. Mounted on the wall, it is connected to the dehumidifier.



STANDARD INSTALLATION



Example of an installation with a CAE

- Hygro Control should be installed at least 50cm from the outlet
- Do not put it above an outlet grille (CAE, DF, OMEGA)
- It should be at least 1.5m from the floor

Equipping a pool with a good roof and a suitable ventilation system for the room increases the efficiency of the dehumidification system.

DEHUMIDIFICATION

DT 850 E

+ Ideal for small pools
+ All-in-one, free-standing design: easy to install
+ Regulation with digital display

2 YEAR WARRANTY

EASY INSTALLATION

ALL TYPES OF SPAS

DESCRIPTION

- Indoor, single block dehumidifier, to be installed in the area to be treated
- ABS body
- Sealed type thermodynamic circuit
- Very silent centrifugal turbine
- Hermetic compressor with built-in protection
- Thermostatic defrosting using forced ventilation
- Electronic regulation using a built-in hygrometer
- Thermoformed anti-rust casing
- Washable air filter
- 2 ventilation speeds

SIROCCO²

Comfort and intelligence

> OPTIMAL COMFORT

Thanks to its **silence mode** and **vertical air outlet**, the Sirocco² is a discreet dehumidification unit, helping you forget it's here.

> BUILT-IN INTELLIGENCE

With its humidity sensor's self-diagnostic feature, the Sirocco² **ensures the right relative humidity level** in all circumstances to preserve the facility's sustainability. Furthermore, when the pool is inoccupied (closed cover), **it reduces its energy consumption** by lowering the air heating temperature.

> HARMONIOUS DESIGN

With its sleek lines and no visible grid, the Sirocco² **fits elegantly and discreetly** into all indoor pool environments.

HUMIDITY SENSOR

Located in the air flow, with easy access through the side panel.

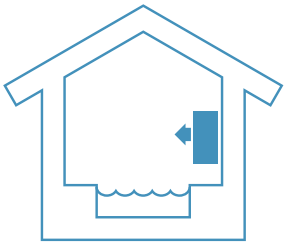
« TEST » MODE

To check, whether at first installation or during diagnostics, the right configuration of the dehumidifier and its options.

SELF-DIAGNOSTIC

Automatic detection of the humidity measures inconsistencies. Dehumidifying fuction is always ensured by default.

2 possible configurations, on-site



FREE-DISCHARGE :
wall-mounted or floor-standing

INSTALLATION

- Operating conditions (ambiant air temperature range) : +10°C to +40°C for the dehumidication function; +5°C to +40°C for the air heating function alone
- Air heating options can be added within the unit: electric resistance or hot water coil
- When the wall cannot withstand the load of the unit, it is mandatory to mount the optional stander as an additional support.
- The unit shall always be attached to the wall in order to prevent any tilt, even when equipped with a stander.
- For more information, read the installation and user guide

Installation of an appliance with the hot water coil or electric heating option.

Connection (mm)	20 / 27 male thread				

INSTALLATION

- Installation in a technical room nearby the pool hall.
- Blower and intake grates mounted on the part to be mortared included with the appliance.
- Duct diameter: Ø 315 mini or 400 x 200.
- Possibility of double deflector grates to direct the hot dry air towards the windows.
- Reversible installation: right-hand (standard) or left-hand (optional) access to the technical door.
- Hot water coil and electric heating options are integrated outside the air outlet which adds a thickness to the installation. It is highly recommended to integrate these options during first installation.
- Air heating options (electric resistance and hot water coil) increase the overall dimensions of the units. It is recommended to plan their integration early in the design process. Find out more details in the installation guide.

INSTALLATION

- Installation in a technical room nearby the pool hall.
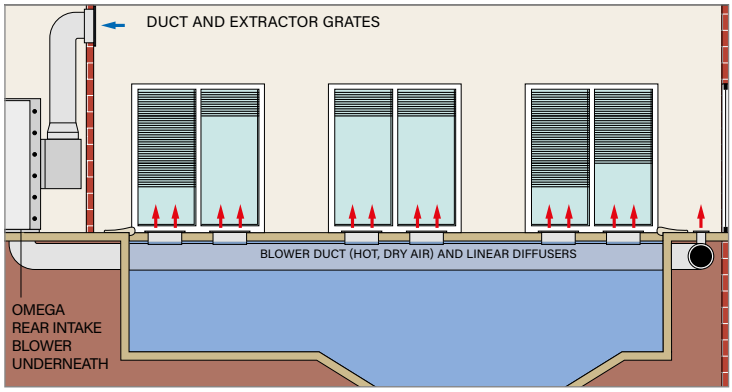
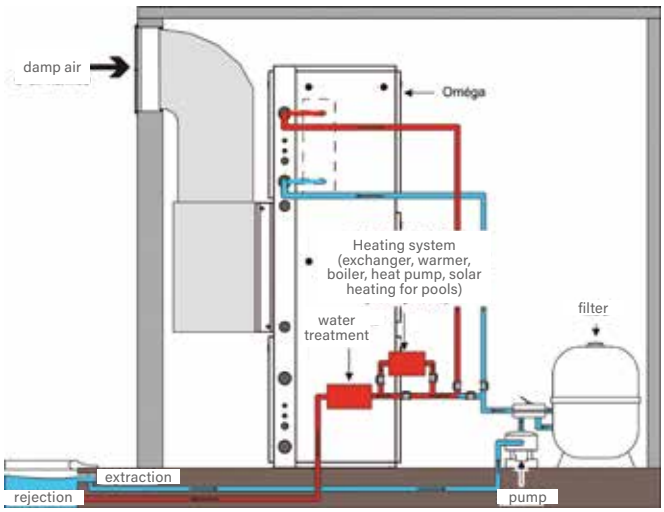
- Damp air extractor frame on the rear face for connection to wall or ceiling extractor duct.
- Hot, dry air blower either under or over the system for direct assembly on buried ducts or ceiling service area ducts.
- Simplified aeraulic assembly with very little load loss making it possible to keep the available ventilator pressure for the duct network.
- Hot water coil or extra electric heating fitted inside the system (see options).
- A remote regulator box, temperature sensor and humidity sensor in a duct and box enable you to adjust the operation of one unit or two dehumidifier units.





BLOWER OPTIONS

OMEGA ducted		10T	14T	16T	20T	28T
Blower on the top	1	W28SODE			W28SODE20	W28SODE28

ENERGY Fan

+ Air renewal: better pool hall hygiene
+ Wall-mounted fan with backdraft damper
+ Aesthetic finish and silent working

DESCRIPTION

- Plan a fresh air intake (featuring an incoming airflow lower or equal to the fan's extraction airflow so as to guarantee a slight underpressure in the pool hall.)
- Axial fan
- ABS body
- 150 Model : 1 speed extract fan, control with switch or servo control (cord included)
- 500, 900 and 1800 Models : variable speed, start only with RC4M control box (sold as accessory)

2 YEAR WARRANTY

EASY INSTALLATION

ACCESSORIES INCLUDED IN THE PACK

- Through-the-wall duct
- Outdoor grate

CANAL FAST ECM Fan

+ Air renewal: swimming pool hygiene maintained
+ Low energy centrifugal duct fan with embedded variable speed
+ Easy to install with quick-fix system

2 YEAR WARRANTY

EASY INSTALLATION

DESCRIPTION

- Use a fresh air inlet (fresh air flow less than or equal to the ventilator flow rate) to slightly reduce pressure in the pool room
- Install horizontally or vertically at all points along the duct
- Housing: polypropylene body and flanges - IP44 protection
- Turbine: centrifugal with diagonal blades, propeller in ABS, mounted directly onto the body of the engine
- Motorization : High efficiency ECM motor (Electronic Communication motor) with external rotor, singles phase 220-240V - 50/60Hz
- Speed variation by integrated potentiometer

Swimming pool heating solutions

Did you know it ?

- Equipping the pool with an isothermal cover allows to divide the power need by 2 !
  As a result, if 12kW is needed to heat a pool without cover, 6kW is enough to heat the same pool with a cover.
- Using the heat pump when the outdoor air is the hottest will allow to maximize the performances (hence minimize the electricity consumption). Heating during hot sunny days and covering at night is the optimal solution!
- Covering the pool at night (or when the outdoor air T°C is fresher) with an isothermal cover, will slow down the decrease of pool T°C.

Parameters for choosing a heating system

To define a system suitable for a pool, many parameters need to be considered. The most important parameters (but non-exhaustive) are the ones below:

1. Average outdoor air temperature (°C)
2. Pool water target temperature (in °C)
3. Period of use
4. Pool volume (m^3)
5. Presence of an isothermal cover or not
6. Filtration time

To consider all the parameters which impact the sizing of a heating system, online AstralPool configurators are available:

- For professional use, visit our Profluidra website.
- For public use, visit our simplified configurator on AstralPool website.

The choice of heating equipment also depends on the energy source that will be used.

COMPARATIVE TABLE OF RANGES

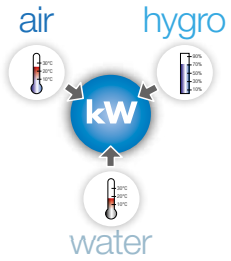
	Heat pumps	Electric heaters	Heat exchangers
Solution	Stand-alone, dedicated to the pool	Stand-alone, dedicated to the pool	Coupled to the domestic heating
Energy used	Electricity	Electricity	Domestic heating source (gas, oil, electricity, renewable, etc.)
Running cost	€ *	€€€	€ to €€€ **
Investment	€€	€	€
Advantages	Energy efficient Low operating cost	Simple installation	Compatible with all heating systems
Uses	All open air or indoor pools	Spas and pools used at weekends or holiday homes	Indoor and outdoor pools close to the boiler in the house

* A heat pump is a very efficient solution which can restitute great more power than it consumes thanks to its thermodynamic system.

** The running cost will depend on the heating source. If renewable (e.g solar energy), it will be very low. However, with a gas, oil or electricity heating source, the running costs will be higher.

Heat pumps

Understand the concept of performance



To compare the performance of different heat pumps, it is essential to compare restituted power and performance coefficient.

Two main values characterise the performance of heat pumps: their power and their performance coefficient.

- **Power**, expressed in kW, indicates the quantity of heat transferred to the water.
  It is expressed in specific climatic conditions to which the heat pump is exposed during use:
  - Temperature of the outside air (in °C)
  - Humidity of the outside air (in %)
  - Temperature of the water in the pool (in °C)

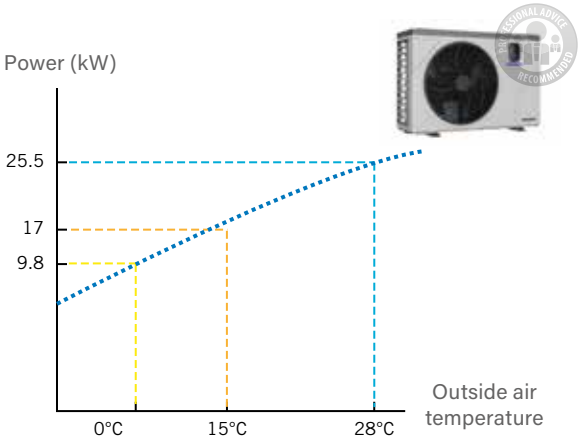
  For instance (see graphic below), a Proelyo Touch will restitute 9.8kW @0°C air / 26°C water / 70% humidity, 17kW @15°C air / 26°C water / 70% humidity and 25.5kW @28°C air / 28°C water / 80% humidity.

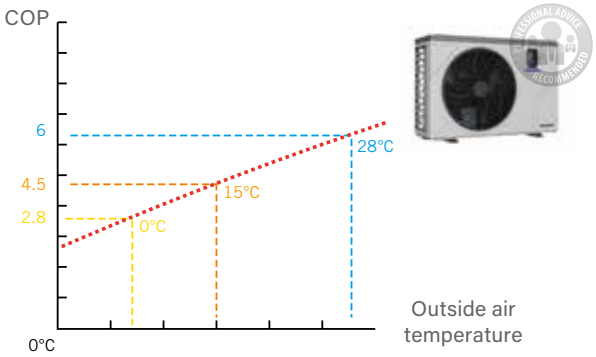
- **The coefficient of performance (COP)** is the ratio between the restituted power and the power consumption of the heat pump. As a result, it is the ratio at specific climatic conditions too.

  As an example, a performance coefficient of 5 means that for 1 kWh consumed at the electricity meter, the heat supplies 5 times more energy to the water in the pool, or 5 kWh.

  So the higher the performance coefficient, the more efficient the system.

- **Power and COP for Inverter heat pumps:** It will be indicated as a range (e.g 12 - 3). Indeed, as the purpose of an Inverter heat pump is to adjust its power (=compressor speed) to optimise the efficiency, the power and COP are given at the maximum-minimum speed of the compressor.





Advices for a successful installation

A heat pump system includes 'moving' parts (compressor, fan, etc.), vibrations from which can spread and build up.

To avoid or reduce disturbances, a few installation rules should be followed:

- Favour open spaces (avoid corners or interior courtyards), because sound waves coming from all sides of the system are reflected by the surfaces facing them.
- Do not install the system below or facing a window.
- Relative to neighbouring properties:
  - Install the system as far as possible from property boundaries.
  - The fan should not point towards neighbouring properties.

Understanding the main features of heat pumps

Full Inverter technology

Inverter technology enables a heat pump to change its power mode depending on the temperature of the pool water and the weather conditions.

It therefore runs to achieve the best energy efficiency at the lowest noise level.

3 operating modes:

1. Silent: Ideal to maintain the temperature or at night time

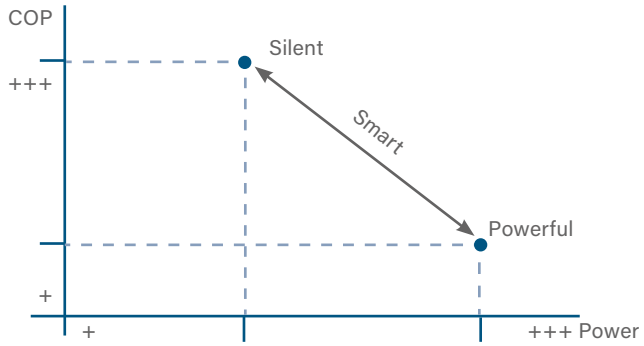
- Heat Pump runs at low power setting
- Compressor operates on low speed ranges to minimize energy consumption
- Lowest noise and highest COP

2. Smart: Automatic power adjustment to maximize comfort and efficiency

- Compressor operates smartly from low to high speed ranges
- Reduced noise and energy consumption

3. Powerful: Ideal to begin the season or to operate in cold conditions

- Heat Pump runs at high power setting
- Compressor operates on high speed ranges to heat the pool faster
- Maximum heating power



Vertical vs Horizontal blowing

Vertical blowing has 2 main advantages:

- It is typically suitable for small spaces as a reduced free area is required around the unit.
- With a same sound level between a horizontal and vertical heat pump, the perceived sound level will be lower for vertical heat pumps because the air is blown upwards.

Active or Passive defrosting

When the outside temperature is low, the evaporator will tend to ice up, which reduces its efficiency: this ice must therefore be removed. There are 2 types of defrosting:

- **Passive defrosting: By ventilation for a seasonal use (Minimum outside air temperature >+5°C)**
  The heat pump will stand by for a few minutes. Only the fan operates, forcing outside air to defrost naturally. This type of defrosting is only efficient when the outside air temperature is above +5°C, for a seasonal use only.
- **Active defrosting: By cycle inversion - for extended or full season (Minimum outside air temperature <5°C)**
  The refrigerating circuit is reversed, calories from the pool water are used to defrost the evaporator. This type of defrosting allows an extended use as it is able to defrost when the outside temperature is below +5°C.

Choosing a heat pump with an automatic cooling mode

It is not recommended to maintain the temperature of the water in the pool at a higher temperature than +30°C to prevent water quality from deteriorating, turning green and damaging the liner. In hot areas, during hot seasons or if the pool is equipped with a shelter, it is common that the pool water temperature can exceed +30°C.

A heat pump with an automatic cooling mode will stabilize the pool water temperature at the desired target, below 30°C.

COMPARATIVE TABLE OF HEAT PUMPS

NEW: OPTIONAL CONNECTIVITY!

>DID YOU KNOW?

iAquaLink COMPATIBLE

BRING CONNECTIVITY WITH IQBRIDGE RS

Evoline and ProElyo Touch can be remotely controled with iAquaLink+ free app using the optional iQBridge RS for anytime & anywhere management.

iQBridge RS is a plug & play WiFi gateway to easily connect Evoline and ProElyo Touch to the homeowner WiFi network and benefit from iAquaLink+ app control experience.

See "Internet of Pools" section for more details about iQBridge RS and iAquaLink+ app benefits.

AstralPool Heat 3

+ Full inverter technology: silent and energy saving.
+ Vertical air blowing for increased comfort.
+ - 20°C lowest outdoor air working temperature.

DESCRIPTION

- Detachable display.
- Digital touchscreen.
- Heating priority mode (filtration pump control).
- ABS plastic housing.
- DC, variable speed fan.
- Automatic cooling mode.
- Titanium water exchanger condenser.
- Inverter Rotary compressor.

ACCESSORIES INCLUDED IN THE PACK

- 1 x Winter Cover.
- 4 x Anti-vibration feet.
- Condensate drainage kit.
- 1 x remote display kit (including 10m extension cable).
- 1 x 10m Modbus Signal wire (to connect the Heat Pump to the Connect Box).
- 2 x PVC fittings ½ union Ø 50.

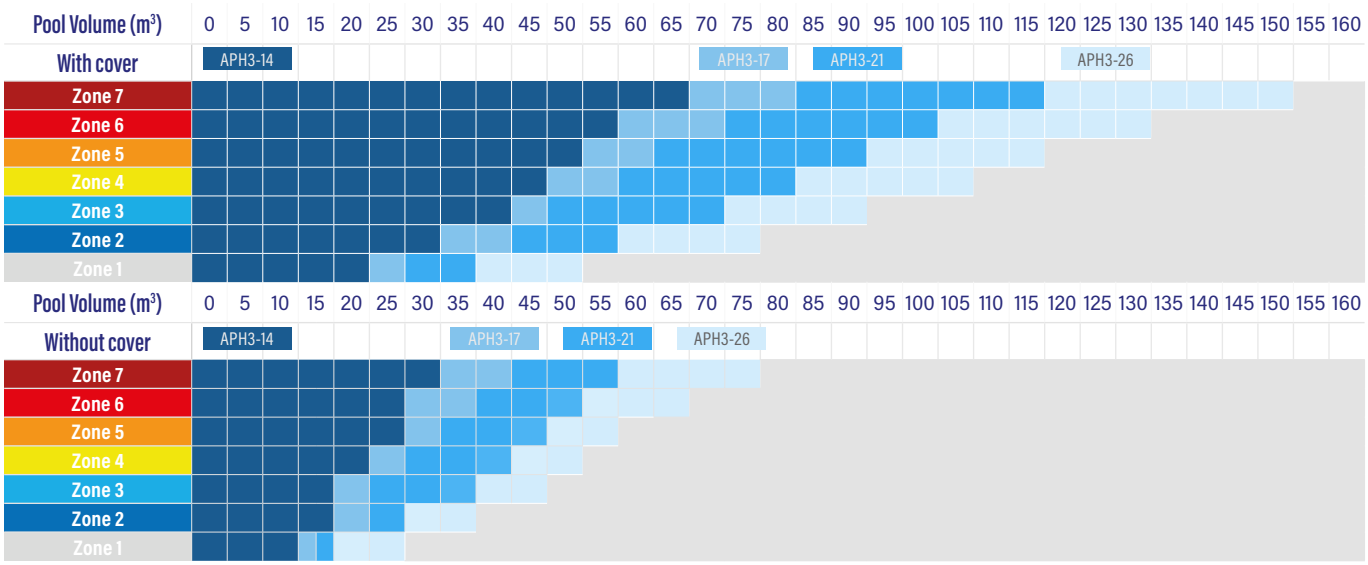
HEAT PUMPS SELECTION GUIDE

Parameters of the quick selection guide
This quick selection guide has been configured with the following parameters: private pool, for a use from beginning of may to end of september, average depth 1.5m, 14h filtration time, target pool water temperature 28°C.

Select the power in less than 1 minute
How to read: For a 35m³ pool, with cover, located in zone 4, an APH3-14 is needed*.

***To find the corresponding pool location zone, consult our climate map in page 687.**



AstralPool recommends to use the web configurators to get a more accurate sizing

For professional use, visit our configurator on Profluidra website. For public use, visit our simplified configurator on AstralPool website.

Pro Elyo Touch

ASTRALPOOL

+ Full inverter technology: silent and energy saving.
+ 8 power levels from 8.5 kW to 35 kW*.
+ - 20°C lowest outdoor air working temperature.

*Temperature conditions of 28°C Air / 28°C Water

DESCRIPTION

- LED touchscreen.
- Heating priority mode (filtration pump control).
- ABS plastic housing with new injected fan grid; galvanized steel protection grid around the evaporator.
- DC, variable speed fan.
- Automatic cooling mode.
- Automatic defrosting.
- Titanium water exchanger.
- Inverter Rotary compressor.

New: Now controllable via the iAqualink+ app with the addition of the iQBridge RS (available separately as an option - for more details see Internet of Pools chapter)

Fluidra Connect compatible

Energy Efficient

R410A R32 FULL INVERTER

Bering Inverter

+ Inverter technology: silent and energy saving.
+ Heating and Cooling regulation.
+ -7°C lowest outdoor air working temperature.

DESCRIPTION

- Detachable display.
- LCD display
- Heating priority mode (filtration pump control).
- Galvanized steel housing.
- AC, variable speed fan.
- Automatic cooling mode.
- Automatic defrosting.
- Titanium water exchanger.
- Inverter Rotary compressor.especially for corrosive environments.
- Control of purifying system.
- Automatic electrical protections.

ACCESSORIES INCLUDED

- 1 x Winter Cover.
- 4 x Anti-vibration feet.
- Condensate drainage kit.
- 1 x remote display kit (including 10m extension
- cable).
- 2 x PVC fittings Ø 50.

NEW 2023

ASTRALPOOL

HEAT PUMPS

Evoline

+ 8 power levels from 4.7 kW to 30.9 kW*.
+ Smooth and quiet performance down to 0°C outdoor air temperature.
+ Automatic Heating and Cooling regulation.

*Temperature conditions of 28°C Air / 28°C Water

DESCRIPTION

- LCD (LED) display, detachable.
- Heating priority mode (filtration pump control).
- ABS plastic housing.
- AC fan.
- Automatic cooling mode.
- Automatic defrosting.
- Titanium water exchanger.
- Scroll compressor.

New : Now controllable via the iAqualink+ app with the addition of the iQBridge RS (available separately as an option - for more details see Internet of Pools chapter)

Alaska - Siberia

ALASKA

SIBERIA

R407C

Includes Modbus connection

The fan is fitted vertically in the Alaska 10, 15 and 17 models

DESCRIPTION

- +5°C minimum outdoor air temperature.
- 2 compact models: For outdoor (Alaska) or indoor (Siberia) installation.
- Digital display.
- Heating priority (filtration pump control).
- Made of non-corrosive magnesium coated aluminium.
- Helicoidal ventilators with direct coupling motor for the Alaska model, centrifugal for the Siberia model.
- Defrosting thermostat in evaporator for enhanced performance.
- HP & LP safety pressure switch.
- Water flow switch.
- Condensor made of copper pipe with coated aluminium fins (special for corrosive environments).
- Scroll compressor with carter resistance and deoxidized copper.
- Thermostatic expansion valve.
- Titanium evaporator with PVC shell and in G2 titanium coil according to ASTM B 338.99 standard. Guaranteed against corrosion.
- Anti-acid dehydrating filter.

Compact ElectricHeat

Electronic model

Mechanical model (Eco)

Fluidra Connect compatible
Titanium models only

<145M³

+ From 3 to 18kW
+ Electronic models for more comfort
+ Titanium resistances models compatible with salt pools

DESCRIPTION

- Linear configuration that offers ease of installation.
- OLED display for electronic models
- LCD display for mechanical model
- Incoloy or Titanium resistances models
- Single or 3 phase wiring
- Simple and fast electrical connection system.
- Replaceable parts: the internal components are easy to access and replace.

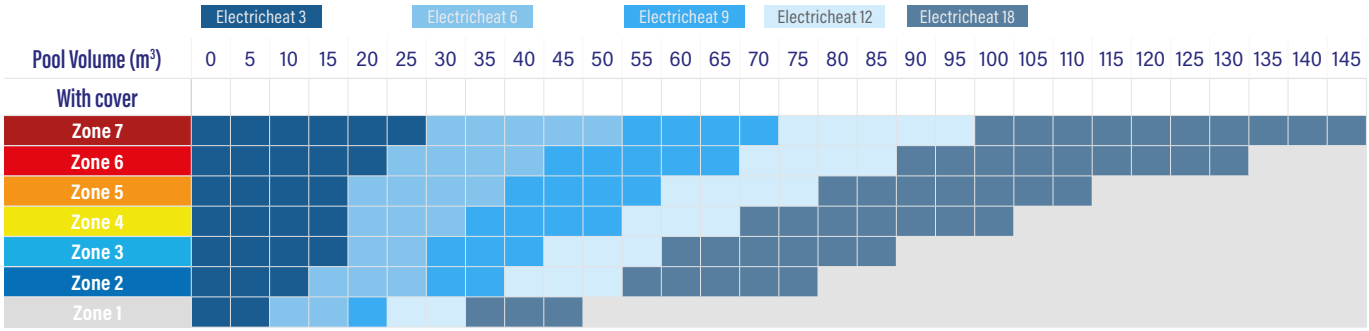
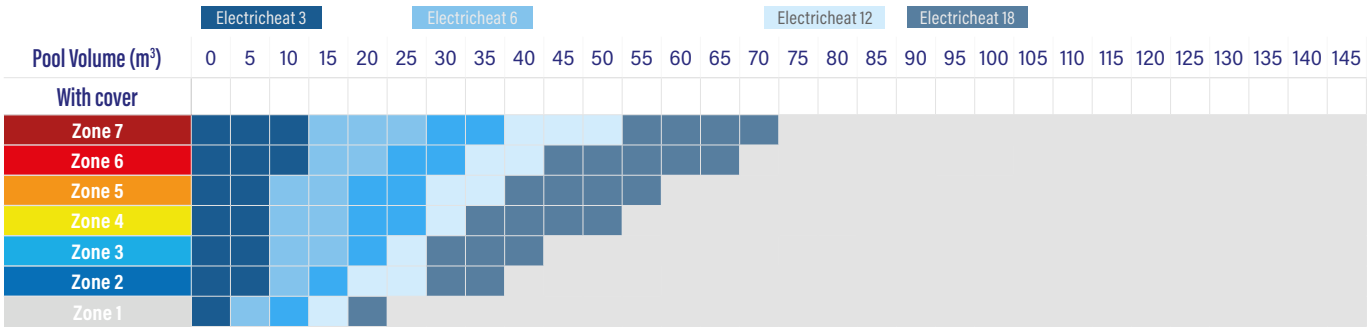
ELECTRIC HEATERS SELECTION GUIDE

Parameters of the quick selection guide
This quick selection guide has been configured with the following parameters: private pool, for a use from beginning of may to end of september, average depth 1.5m, 14h filtration time, target pool water temperature 28°C.

Select my heat pump in less than 1 minute
For a 35m³ pool, with cover, located in zone 2, a Electricheat 9 is needed*.

***To find the corresponding pool location zone, consult our climate map in page 687.**





AstralPool recommends to use the web configurators to get a more accurate sizing (change pool shape, pool depth, target pool water temperature, period of use...).

For professional use, visit our configurator on www.pro.fluidra.com
For public use, visit our simplified configurator on www.astralpool.com

Equipped Waterheat

DESCRIPTION

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Regulator with secondary pump control, voltage free contact and timer.
- Casing built in Alucoil and ABS plastic.
- Body made in Titanium (secondary, water from pool).
- Coils made in titanium alloy (primary, water from boiler).
- Fully fitted, anti-return valve, primary recirculation pump and control thermostat with immersion probe.
- Primary work pressure 10 bars and secondary work pressure 3 bars.

CONNECTIONS:
- Primary (heating): 1".
- Secondary (pool): D-50 three piece link.

Waterheat EVO

DESCRIPTION

Heat exchanger suitable for warming the water temperature of pools and SPAS, thanks to the heat exchange between the primary circuit (warm area) and a secondary one (cold area that we want to warm).

- Titanium housing (secondary, pool water).
- Titanium coil (primary, water for boiler).
- Primary working pressure of 10 bar.
- Secondary working pressure of 3 bar.

Etna

- Corrugated plates in AISI-316 or titanium.
- EPDM gaskets.
- Housing in epoxy painted carbon steel.
- In non-equipped heat exchangers, AISI-316 stainless steel connections in ISO G2 direct thread.
- In equipped heat exchangers, primary connections in copper, and secondary in PVC.
- In equipped heat exchangers, full regulation, with control of the filtering pump. Double display (setpoint and current reading).
- Simple recirculating pump in the primary circuit is optional.

HEATING

SWIMMING POOL HEATING SOLUTIONS

why choosing a heating system

Did you know it ?

- Equipping the pool with an isothermal cover allows to divide the power need by 2 !
As a result, if 12kW is needed to heat a pool without isothermal cover, 6kW is enough to heat the same pool with isothermal cover.

- Using the heat pump when the outdoor air is the hottest will allow to maximize the performances (hence minimize the electricity consumption). Heating during hot sunny days and covering at night is the optimal solution!

- Covering the pool at night (or when the outdoor air T°C is fresher) with an isothermal cover, will slow down the decrease of pool T°C.

> PARAMETERS FOR CHOOSING A HEATING SYSTEM

To define a system suitable for a pool, many parameters need to be considered. The most important parameters (but non-exhaustive) are the ones below:

1. Average outdoor air temperature (°C)
2. Desired pool water target temperature (in °C)
3. Period of use
4. Pool volume (m^3)
5. Presence of an isothermal cover or not
6. Filtration time

To consider all the parameters which impact the sizing of a heating system, online Zodiac configurators are available:

- For professionals, visit our pro space website: https://pro.zodiac-poolcare.com/

- For public use, visit our Zodiac website with a simplified and user-friendly interface: https://www.zodiac-poolcare.co.uk/solutions/configurators/heat-pumps , **maximum comfort at a lower cost.**

The choice of heating equipment also depends on the energy source that will be used.

	Heat pumps	Electric heaters	Heat exchangers
COMPARATIVE TABLE OF RANGES			
Solution	Stand-alone, dedicated to the pool	Stand-alone, dedicated to the pool	Coupled to the domestic heating
Energy used	Electricity	Electricity	Domestic heating source (gas, oil, electricity, renewable, etc.)
Running cost	€*	€€€	€ to €€€**
Investment	€€	€	€
Advantages	Economical Efficient	Simple installation	Compatible with all heating systems
Uses	All open air or indoor pools	Spas and pools used at weekends or holiday homes	Indoor and outdoor pools close to the boiler in the house

* A heat pump is a very efficient solution which can restitute great more power than it consumes thanks to its thermodynamic system.

** The running cost will depend on the heating source. If renewable (e.g solar energy), it will be very low. However, with a gas, oil or electricity heating source, the running costs will be higher.

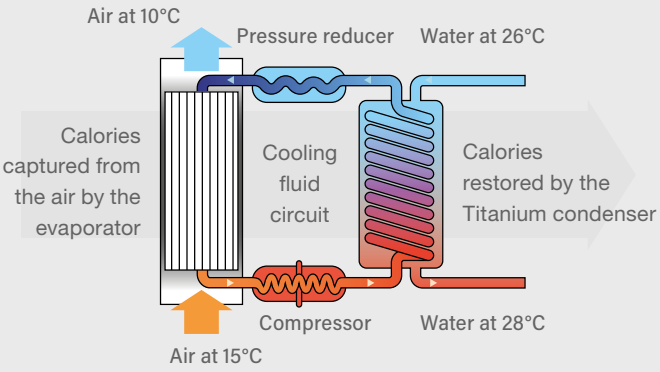
HEAT PUMPS

The economical and ecological solution

Heat pumps are the ideal solution for heating the pool while also saving energy.

> HOW DOES IT WORK?

The heat pump is a **thermodynamic system.** Its operating principle is very simple:
the system takes calories from the air and transfers them directly to the water in the pool.



80% of the energy comes from the air.
20% of the energy comes from your electricity supplier.

The heat pump recovers calories from the outside air.
The heat pump restores calories to the water in the pool by thermodynamic exchange.

Heat pumps can be installed easily on pools under construction and on existing pools, by a simple electrical or hydraulic connection.

> ACTIVE OR PASSIVE DEFROSTING

When the outside temperature is low, the evaporator will tend to ice up, which reduces its efficiency: this ice must therefore be removed.
There are 2 types of defrosting:

- **Passive defrosting: By ventilation for a seasonal use (minimum outside air temperature > 5°C)**
  Heat pump will stand by for a few minutes. Only the fan operates, forcing outside air to defrost naturally.
  This type of defrosting is only efficient when the outside air temperature is above +5°C, for a seasonal use only.
- **Active defrosting: By cycle inversion - for extended or full season (minimum outside air temperature <5°C)**
  The refrigerating circuit is reversed, heat from the water in the pool is taken to defrost the evaporator. This allows operation at temperatures down to -12°C.
  This type of defrosting allows an extended use as it is able to defrost when the outside temperature is below +5°C.

HEATING

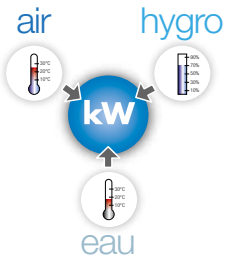
> UNDERSTANDING THE CONCEPT OF PERFORMANCE

Two main values characterise the performance of heat pumps: their power and their performance coefficient.

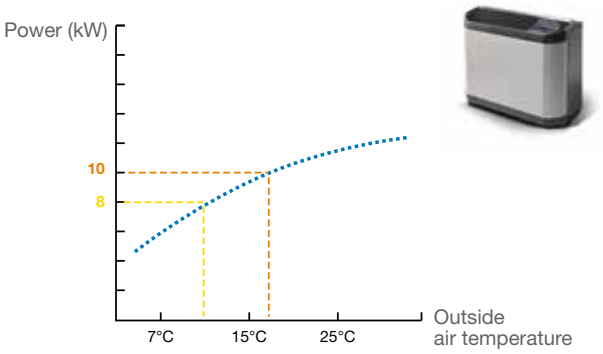
- **Power, expressed in kW**, indicates the quantity of heat transferred to the water.

It is expressed in specific climatic conditions to which the heat pump is exposed during use:

- Temperature of the outside air
- Humidity of the outside air
- Temperature of the water in the pool.



The power of a heat pump will mostly depend on the outside air temperature.
The hotter the air is, the higher the power in kW, hence the higher COP.



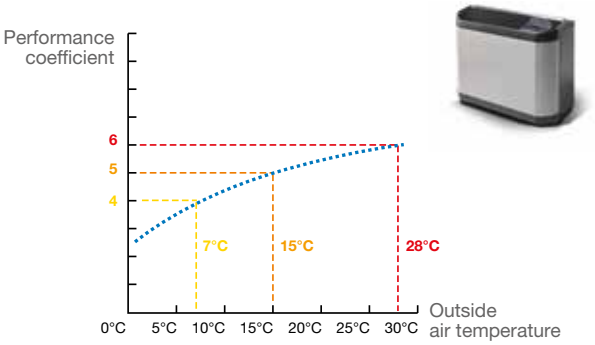
For instance (see graphic), a Z400iQ will restitute 9,96kW @15°C air / 26°C water / 70% humidity and 12,56kW @28°C air / 28°C water / 80% humidity.

Accordingly, it is very important to compare performances in the same conditions !

- The **coefficient of performance (COP)** is the ratio between the restituted power and the power consumption of the heat pump. As a result, it is the ratio at specific climatic conditions too.

As an example, a performance coefficient of 5 means that for 1 kWh consumed at the electricity meter, the heat supplies 5 times more energy to the water in the pool, or 5 kWh.

So the higher the performance coefficient, the more efficient and economical the system.



HEAT PUMPS

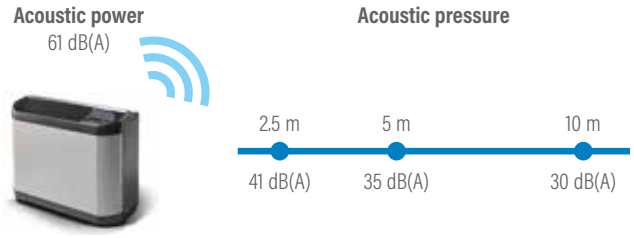
A silent installation

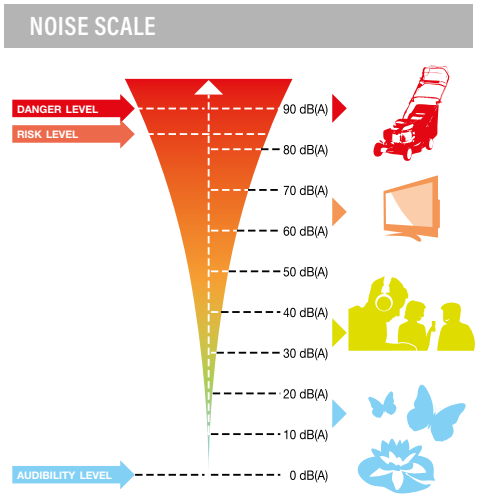
> MEASURING NOISE LEVEL ACCURATELY

The latest technologies used in the design of evaporators, fans and compressors make Zodiac® heat pumps extremely quiet.

The noise level should be measured by a certified body to obtain a real and objective value. It is expressed:

- Either **as acoustic power dB(A):** this is the unmodified noise level of the emitting source.
- Or **as acoustic pressure dB(A):** this is the sound level perceived by the human ear. It depends on the installation environment and distance at which the measurement is made. It must therefore always include a measuring distance.

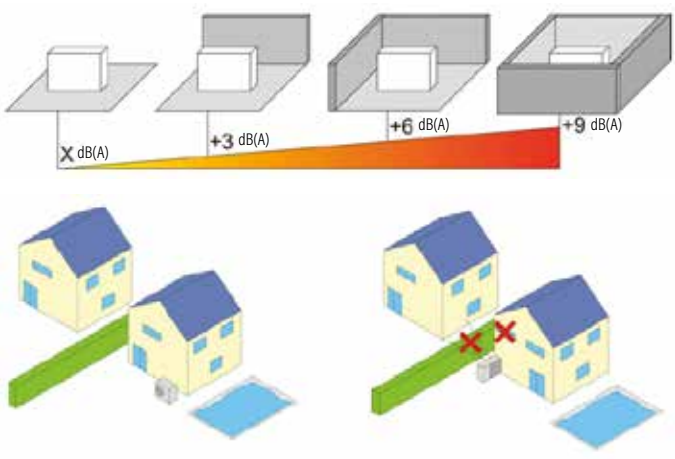




To compare the noise level of several machines, check what type of value you have, power or pressure, and if it is pressure then at what distance it is measured!

> OPTIMIZING THE INSTALLATION OF A HEAT PUMP

A heat pump system includes 'moving' parts (compressor, fan, etc.), vibrations from which can spread and build up.



To avoid or reduce disturbances, a few installation rules should be followed:

- **Favour open spaces** (avoid corners or interior courtyards), because sound waves coming from all sides of the system are reflected by the surfaces facing them.
- **Do not install the system below or facing a window.**
- **Relative to neighbouring properties:**
  - Install the system as far as possible from property boundaries.
  - The fan should not point towards neighbouring properties.

> REDUCE TRANSMISSION OF VIBRATIONS THROUGH THE BASE

- Use suitable anti-vibration blocks.
- Renew them if necessary to absorb vibrations, because they lose effectiveness over time.
- Build a mounting base. It should weigh at least twice as much as the heat pump. It must be independent from a building.

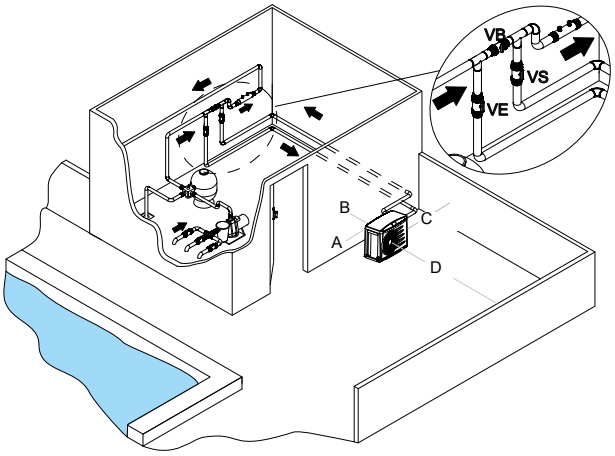
> INSTALLATION RECOMMENDATIONS

- Outside, close to the technical room, at sufficient distance from the pool (according to applicable electrical standards).
- On a stable, solid and level surface.
- Between the heat pump and its surroundings (walls, plants, etc.), maintain minimum distances as shown in the diagram below.

INSTALLATION OF A HORIZONTAL HEAT PUMP

Minimum free area in meter

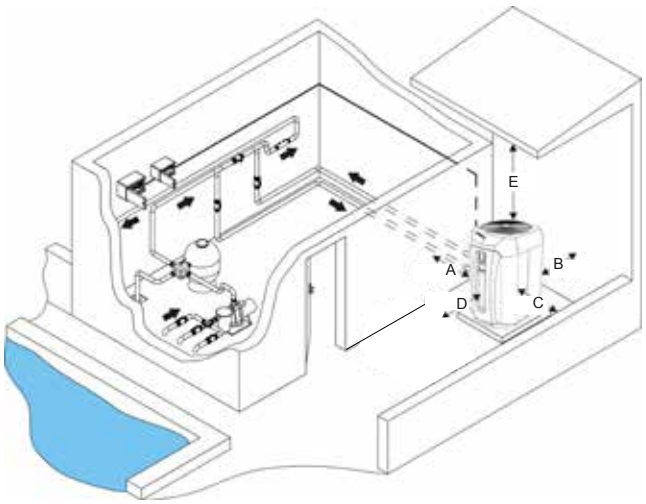
	A	B	C	D
Z200 / Z200D PI20 / PI20D Z300 PM40 PX50 POWERFORCE HPO Z250	0,5	0,5	0,5	2



INSTALLATION OF A VERTICAL HEAT PUMP

Minimum free area in meter

	A	B	C	D	E
Z400iQ Z550iQ	0,5	0,5	0,5	0,5	2
Z350iQ	0,15				



These schemes show the recommended distances for maximum efficiency and ease of maintenance. Alternative installation layout may be considered, with possible impacts on performances and serviceability.

For complete installation instructions, please refer to the user manual.

VERTICAL VS HORIZONTAL BLOWING

Vertical blowing has 3 main advantages:

- It is typically suitable for small spaces as a reduced free area is required around the unit.
- With a same sound level between a horizontal and vertical heat pump, the perceived sound level will be lower for vertical heat pumps because the air is blown upwards.
- Thanks to the vertical blowing, the cold air is not blown to the feet.

CHOOSING A HEAT PUMP WITH AN AUTOMATIC COOLING MODE

It is not recommended to maintain the temperature of the water in the pool at a higher temperature than +30°C to prevent water quality from deteriorating, turning green and damaging the liner. In hot areas, during hot seasons or if the pool is equipped with a shelter, it is common that the pool water temperature can exceed +30°C.

A heat pump with an automatic cooling mode will stabilize the pool water temperature at the desired target, below 30°C.

> DID YOU KNOW ?

BRING CONNECTIVITY WITH iQBRIDGE RS

PM40, PX50 and HPO can be remotely controled with iAquaLink+ free app using the optional iQBridge RS for anytime & anywhere management .

iQBridge RS is a plug & play WiFi gateway to easily connect PM40, PX50 and HPO to the homeowner WiFi network and benefit from iAquaLink+ app control experience.

See "Internet of Pools" section for more details about iQBridge RS and iAquaLink+ app benefits.

Energy Efficient

DESCRIPTION

- Vertical blowing
- Polypropylene body
- LCD (LED) display
- Embedded wi-fi with dedicated app
- Heating priority mode (filtration pump control)
- Full inverter Technology (variable speed compressor and fan) - 3 operating modes:
  - Boost: max power for fast heat-up
  - Smart: automatic power adjustment from Ecosilence to Boost
  - Ecosilence: reduced power to further energy savings and the lowest noise level
- Automatic cooling mode
- Automatic defrosting (cycle inversion)
- Titanium water exchanger, compatible with salt water treatment
- Inverter, scroll compressor
- DC fan, variable speed (inverter)

ACCESSORIES INCLUDED

- Winter cover
- Condensate drain kit
- PVC and gaskets, 1/2 unions, Ø 50
- Anti-vibration feet
- Free mobile app

OPTIONAL ACCESSORIES

Cleaning kit HP - WMA03491
Technical Room Kit - WH000202

HEAT PUMPS SELECTION GUIDE

PARAMETERS OF THE QUICK SELECTION GUIDE

This quick selection guide has been configured with the following parameters: private pool, for a use from beginning of may to end of september, average depth 1.5m, 14h filtration time, target pool water temperature 28°C.

SELECT THE POWER IN LESS THAN 1 MINUTE

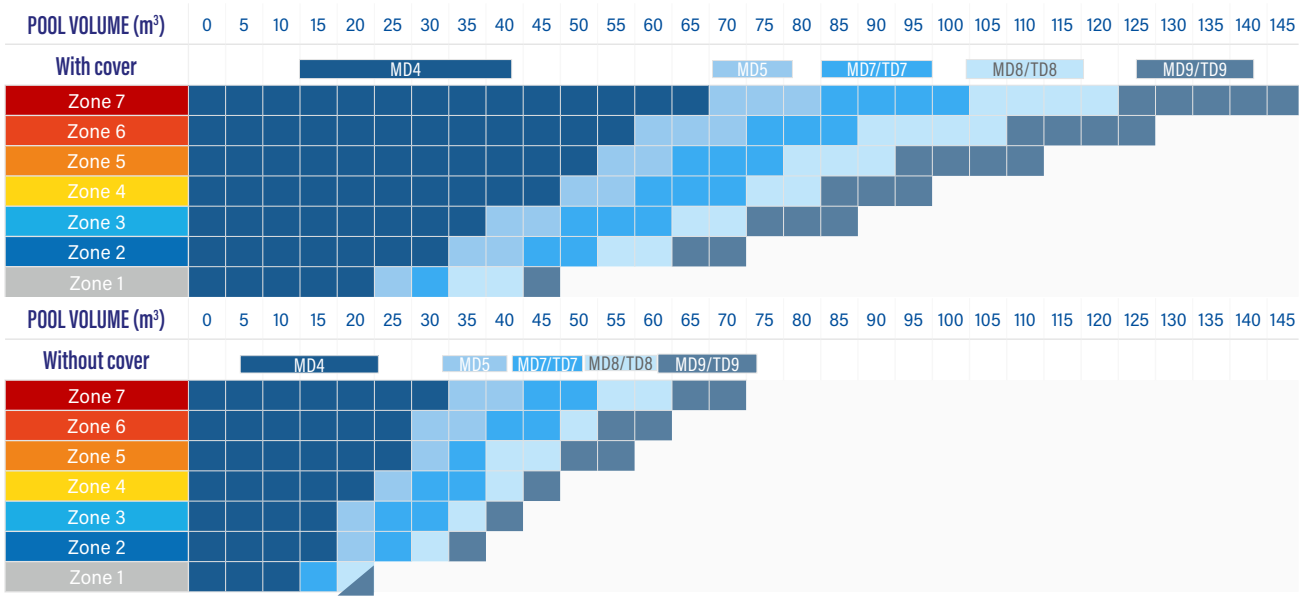
How to read: For a 35m³ pool, with cover, located in zone 4, a Z400iQ MD4 is needed*.



*To find the corresponding pool location zone, consult our climate map p. 709

Zodiac recommends to use the web configurators to get a more accurate sizing

For professional use, visit our configurator on Profluidra website.
For public use, visit our simplified configurator on Zodiac website.

ZODIAC®

NEW 2023

+ Maximum discretion
+ Guaranteed efficiency
+ Embedded connectivity

Swivel top part

NEW IN 2023

3 YEAR WARRANTY

5 YEAR COMPRESSOR WARRANTY

10 YEAR CONDENSER WARRANTY ANTI-CORROSION

MADE IN ITALY

FULL INVERTER

-7 °C MIN. AIR TEMP

iAquaLink CONTROL

DESCRIPTION

Perfect integration and easy installation thanks to its innovative swivel top part and 45° hydraulic outlets (patent pending)

- Vertical blowing
- Polypropylene and galvanized steel body
- LCD (LED) display
- Embedded wi-fi with dedicated app
- Heating priority mode (filtration pump control)
- Full inverter Technology (variable speed compressor and fan) - 3 operating modes:
  - Boost: max power for fast heat-up
  - Smart: automatic power adjustment from Ecosilence to Boost
  - Ecosilence: reduced power to further energy savings and the lowest noise level
- Automatic cooling mode
- Automatic defrosting (cycle inversion)
- Titanium water exchanger, compatible with salt water treatment
- Inverter rotary vane compressor
- DC fan, variable speed (inverter)

ACCESSORIES INCLUDED IN THE PACK

- Winter cover
- Condensate drain kit
- 2 PVC union Ø40
- 2 PVC reduction Ø40/50
- 2 PVC union 45° Ø50
- Anti-vibration feet
- Free mobile app

OPTIONAL ACCESSORIES

Cleaning kit HP - WMA03491

HEAT PUMPS

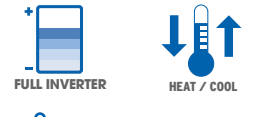
PX50



+ Full Inverter Technology: silent and economical
+ Intelligent heating regulation with power mode selection
+ Wide range of powers

DESCRIPTION

- Horizontal blowing
- Galvanized, epoxy painted body and ABS covering
- LCD (LED) display, detachable
- Heating priority mode (filtration pump control)
- Timed mode
- Full inverter technology (variable speed compressor and fan) - 3 operating modes:
  - Boost: max power for fast heat-up
  - Smart: automatic power adjustment from Ecosilence to Boost
  - Ecosilence: reduced power to further energy savings and the lowest noise level
- Automatic defrosting
- Automatic cooling mode (cycle inversion)
- Titanium water exchanger, compatible with salt water treatment
- Inverter, rotary vane compressor
- DC fan, variable speed (inverter)

New : Now controllable via the iAqualink+ app with the addition of the iQBridge RS (available separately as an option - for more details see Internet of Pools chapter)

ACCESSORIES INCLUDED

- Winter cover
- Condensate drain kit
- PVC and gaskets, 1/2 unions, Ø 50
- Anti-vibration feet
- Remote control kit
- Free mobile app (with 10m cable)

OPTIONAL ACCESSORIES

HEAT PUMPS SELECTION GUIDE

PARAMETERS OF THE QUICK SELECTION GUIDE

This quick selection guide has been configured with the following parameters: private pool, for a use from beginning of may to end of september, average depth 1.5m, 14h filtration time, target pool water temperature 28°C.

SELECT THE POWER IN LESS THAN 1 MINUTE

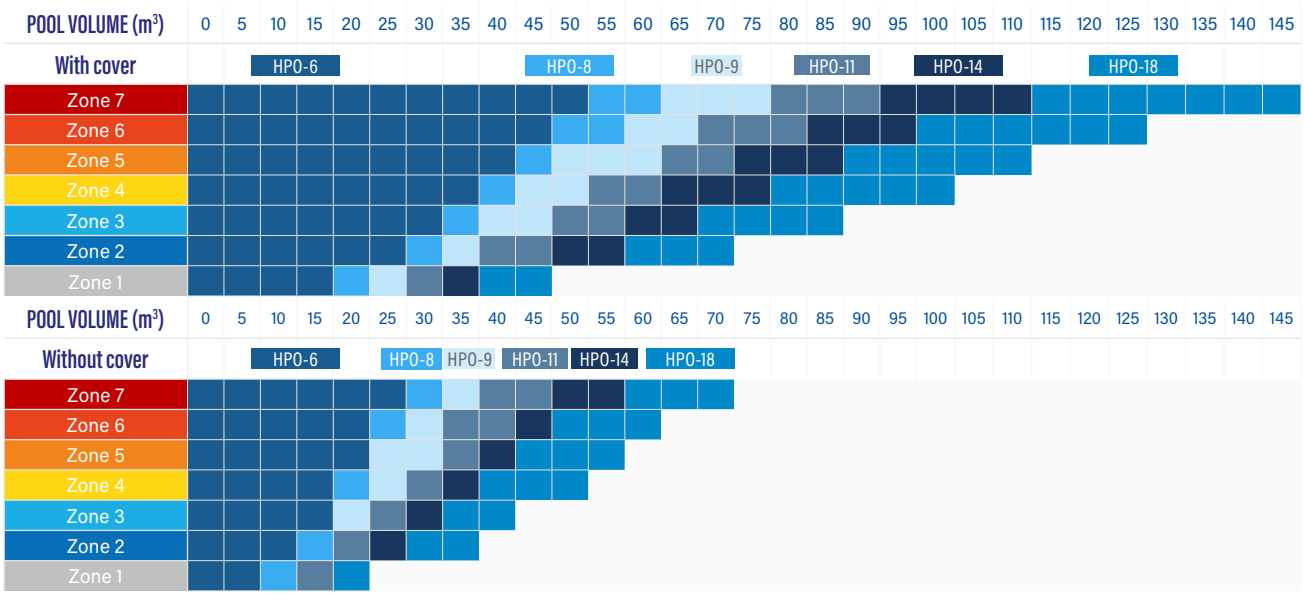
How to read: For a 35m³ pool, with cover, located in zone 4, a HPO-6 is needed*.



*To find the corresponding pool location zone, consult our climate map p. 709

Zodiac recommends to use the web configurators to get a more accurate sizing

For professional use, visit our configurator on Profluidra website.
For public use, visit our simplified configurator on Zodiac website.

HEAT PUMPS

Z300

ZODIAC®

+ Certified performances
+ Guaranteed heating thanks to heating priority
+ Can also be installed in a technical room

DESCRIPTION

- Horizontal blowing
- Polypropylene body
- LCD display
- Heating priority mode (filtration pump control)
- Automatic defrosting (forced ventilation)
- Titanium water exchanger, compatible with salt water treatment
- On-off compressor, Rotary vane

ACCESSORIES INCLUDED

- Winter cover
- Condensate drain kit
- PVC and gaskets, 1/2 unions, Ø 50
- Anti-vibration pads

OPTIONAL ACCESSORIES

Cleaning kit HP - WMA03491
Remote control - WTC04004
Technical Room Kit - W20KITPFPREMLT
Condensate tray - R07242
Wall mounting kit - R07339

For public use, visit our simplified configurator on Zodiac website.

ELECTRIC HEATERS

The simplest solution for a fast rise in temperature

Easy to install and to use, Zodiac® electric heaters heat your pool rapidly and keep the water at the desired temperature, for a very competitive purchase ex VAT Price. Compact, stand-alone units, they are fitted to the filtration system. Start filtration to raise the temperature (in 2 to 5 days).

> CHOOSING AN ELECTRIC HEATER

Several parameters should be considered when choosing a suitable electric heater. **Depending on the size of the pool to be heated and the desired use (temperature and period), the power of the system should be adapted,** from 3 kW to 120 kW.

In a small technical room, **install the system in 'L' configuration.** In-line installation limits pressure drops.

To control the desired temperature, **there are two types of thermostat: mechanical and digital.** Using a complete digital regulator, it is also possible to control timer settings.

To limit electricity consumption, **a modular heater can be fitted with 2 heating elements**.

The advantage is that it can use just one heating element when the outside temperature is relatively high (summer).

Ti 22 TITANE INSIDE

REFERENCE POINT
All Zodiac® electric heater models are equipped with titanium heating elements, making them very robust.

WEIGHT AND DIMENSIONS

Model	RE/L 3	RE/L 6	RE/L 9	RE/L 12
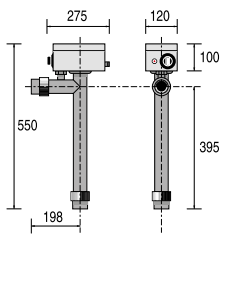
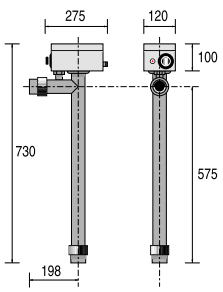
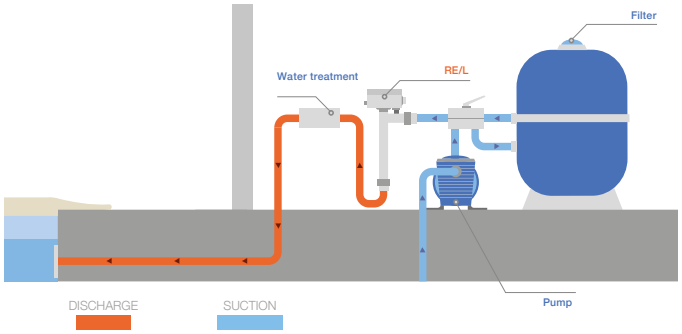
Poids (kg)	4		5	





INSTALLATION

- Shipped with wall-mount bracket.
- In-line PVC hydraulic connection, Ø50 or 63.
- Supports any flow direction: just turn the device to match the water flow direction.



HEAT EXCHANGERS

Heating the pool using the domestic heating

Installed close to the boiler, Zodiac® heat exchangers use the heating circuit in the house to heat the water in the swimming pool.
Very financially advantageous, they are also very efficient and provide a **rapid temperature rise** (1 to 2 days).

> CHOOSING A HEAT EXCHANGER

Several parameters are considered when choosing a heat exchanger. Depending on the size of the pool to be heated, the desired use (temperature and period) and temperature of the primary heating circuit, the appropriate heat exchanger should be selected.

Zodiac® heat exchangers are **compatible with all domestic heating systems.**
With more than 17 models, they are suitable for all installations.

Ti 22 TITANE INSIDE

REFERENCE POINT
All Zodiac® heat exchangers are fitted with titanium pipes and plates making them very robust.

Uranus

Unequipped and Plus

Uranus PLUS

Uranus Unequipped

- **+ Compatible with all types of home heating systems (Heat Pump, Boiler, Geothermal, Solar)**
- **+ High heat exchange**
- **+ Digital regulation**

DESCRIPTION

- Appliance completely assembled and wired
- High performance plate exchanger TITANIUM plates
- PRIMARY with adjustable accelerator 2 1/4 turn valves, 1 valve - male thread. Ø 26/34 with Ø 20/22 soldering cartridges
- SECONDARY - PVC Ø 50
- Digital display thermostat
- Flow switch
- Mono 230 V wiring from a mains outlet
- Purge or emptying cap

INSTALLATION

- In the technical facility nearby the boiler at the filtering system output (plan a by-pass).
- Single-phase electric power supply 230V
- In special cases: exchanger supplied from a geothermal or heat pump.
- The exchanger must be sized taking into account the heating needs of the pool, the specifications of the exchangers with primary at 45°C or 60°C (see specifications table) and the power of the geothermal. For correct operation of the geothermal we recommend installing a buffer tank as shown in the diagram below.

ZODIAC

Unequipped, Plus without circulating pump & with circulating pump

Unequipped

Plus with regulation and without circulating pump

Plus with regulation and circulating pump

- **+ Compatible with all types of home heating systems (Heat Pump, Boiler, Geothermal, Solar)**
- **+ Versatile installation concept**
- **+ Digital regulation**

DESCRIPTION

- Injected noryl Polyamide casing
- TITANIUM tubes
- Check valve
- Low consumption circulating pump, A class (1)
- Reversible interface (allowing right or left pool water inlet)
- Flow switch (2)
- Pre-wired electric box with 230 V plug (2)
- Digital regulation (2)
- Reversible installation layout

(1) On «Plus» models with circulating pump (2) On «Plus» models with and without circulating pump

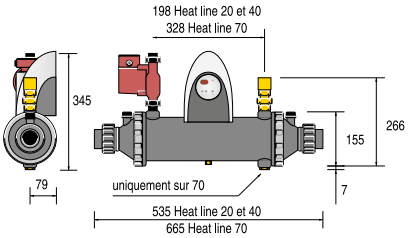
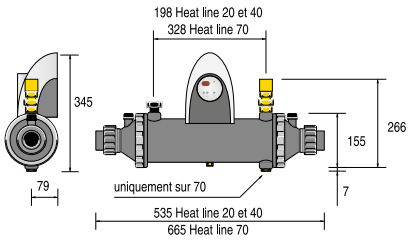
Heat Line Unequipped



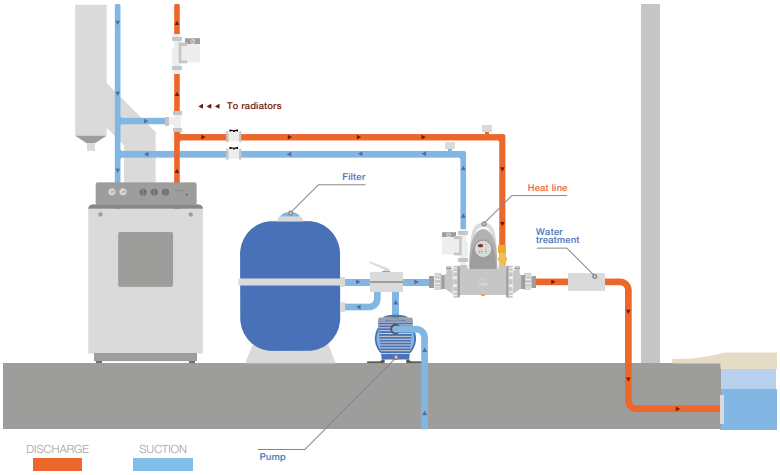
Heat Line Plus with circulating pump

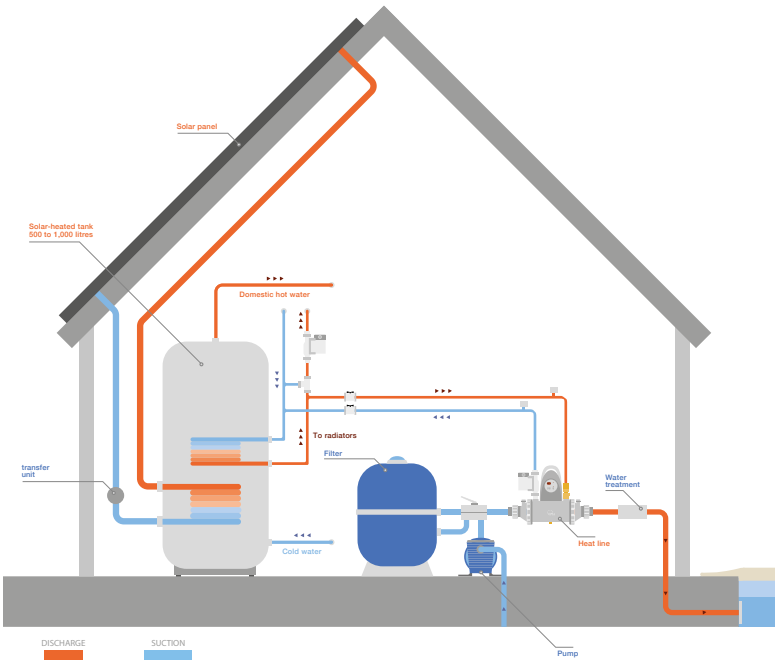


Heat Line Plus without circulating pump

INSTALLATION

- In the technical facility nearby the boiler at the filtering system output (without a by-pass). Horizontal in-line position on the pipe. Primary supply from above.
- Single-phase electric power supply 230V
- Primary and secondary circuits' flow may be reversed by turning the exchanger.
- Special cases: exchanger powered using solar panels.
- The exchanger must be chosen according to pool heating requirements, exchanger specifications with primary at 45 °C or 60 °C (see specifications table) and power returned by the solar panels. In all cases, the exchanger must be supplied from a solar tank installed between the panels and the exchanger.
- Heat Line exchangers are not compatible with direct connection to solar panels.
- Caution: maximum primary source temperature = 90 °C Maximum pressure = 2 bar. Exchanger installed with existing wall-mounted boiler or with boiler whose regulator is in the boiler's interior.





AQUA SPHERE

HEAT PUMP

VSN

<120m³

2 YEAR WARRANTY

VARIABLE SPEED

HEATING & COOLING

-5°C MIN. TEMP AIR
